

First Strong 183

Chapter 183 - 1 battle became famous (on)

The Phoenix Valley was originally the most prosperous place in the vicinity of a large mountain, and when Zheng Man chose to build this underground palace here, he brought all the auras of the Phoenix Valley into the underground palace.

Therefore, in this palace of the king's graveyard, the original aura is much richer than the outside. But basically it is not used, that is, keeping the environment below very good. After all, sixty years have begun to open an hour, and those who come in cannot practise inside.

The last time Shen Lang was trained in it for more than ten hours, almost all the aura was absorbed.

It has been more than a month now, and a lot of aura has been gathered, making it much more abundant than the outside. This is one of the reasons why Shen Lang will let Yue Zhennan hide here. In addition to safety, the speed of cultivation can be faster.

And now take out ten Lingshi, he is the first to use the five Lingshi to arrange the polylings!

As the name implies, the Gathering of the Spirit is the ability to gather aura. The construction of this underground palace is a large gathering of spirits, which absorbs the aura of the entire Phoenix Valley.

Now, this arrangement of Shen Lang is a smaller gathering of the spirits. It is to gather the aura gathered in the underground palace and gather it again in this small space, which can make Yue Zhennan better.

And a small range of five Lingshi, also added the ingredients of the excitation. In other words, it is not necessary to use this gathering for several decades, but to stimulate the energy inside the Lingshi.

In doing so, the five Lingshi will be exhausted in a few months, and the gathering will also dissipate. But this is equivalent to dividing the energy of the five spiritual stones into months and spreading them evenly.

The purpose of his doing this is because Yue Zhennan's speed of absorbing Lingshi is limited, far from being comparable to him, so it is equal to helping him to excite, and the aura that is dispersed in the air is easy to absorb.

In the process of cultivation, Yue Zhennan can continue to absorb Lingshi.

After the completion of Shen Lang, Yue Zhennan had not cultivated yet, and he felt different. The aura here was more than ten times more than the usual practice at home. He immediately had the urge to practice.

"Lang brother! Thank you!" Yue Zhennan sincerely thank you.

"There have been all the auras nearby, and they have inspired the aura of five spiritual stones. If you don't grasp it, you will waste it if you waste it!" Shen Lang gave him another five: "Good luck, hope When I come over next time, you have a big breakthrough!"

"This... is too expensive! You are like my master, but we have not given you much benefit. Instead, you have given me this, helping our family so much... really no need, my father also gave I am a stone!"

Yue Zhennan really didn't have a good time to collect, and the five Lingshi were also great for the Yue family. His father did not give so much. More precisely, he has been given five and helped him to release.

"When I am tired of your family's compensation, when I invest, if you are stronger later, then return me!"

"Yes! I must work hard!"

In such a place ten times that of the outside world, if you do not cultivate, it is really a violent thing. And there is no signal here without all the electronic equipment, that is, the charging light with a backup power supply, but also to save money. He has nothing else to do, and he can practice for more than ten hours a day.

Shen Lang hesitated, and then said: "I will tell you the way out! If all your food is finished, go out by yourself."

Yuezhen was stunned in the south and shook his head quickly.

“No! I will wait for the brother to help me open!”

How can he not hear this? This is the food that has been prepared for half a year. If the sun wave is not opened after half a year, it can only be explained that he has already been killed!

Yue Zhennan can't accept this fact, but he himself is also very clear. If Chu Mofeng is a master of the five realms of Gaochu River, Shen Lang can't catch up with the practice of not eating or drinking for a month.

“Calmly remember!” Shen Lang said seriously, if you can't remember, if he can't come back later, then he is really sleepy here.

Yue Zhennan secretly gritted his teeth and tried to remember the method of opening the off-sun array. But my heart secretly vowed that if Shen Lang really had an accident in the hands of Chu Mofeng, then he would use his lifelong power to avenge the Chu family!

After the settlement, Shen Lang went out and operated the off-horse array from the outside to close the palace of the king's grave.

Then he used the “Phantom Meteor Step”, which was faster than Yuezhen South. He rushed to the town and found the car of Yuezhen Nantangdi, and let him drive back to the resort.

The cousin did not dare to ask, silently drove back.

Back to the resort, Shenlang rested for two hours and it was dawn.

Last night, the contest was ruined. Yue Jia planned another new contest in the evening, and the second round of the contest was going to continue.

Shen Lang also looked at it and continued to take a break in the office given to him.

Originally, PK lost a batch yesterday, and the second round should be more intense, competing for the promotion quota. But all the people watching it feel that they are not very interested.

The reason is of course because of the relationship between Shen Lang.

Originally they were just the match between the super-martialists, but last night Shen Lang and Chu He, that is the contest between the peaks of the Yuan Dynasty, Shen Lang is directly on the spot to the Chu River's legs one by one. smash!

Have you seen the four-level film, and then watch the little love kiss, can you make people blush?

In the morning, Shen Lang received a phone call from Zheng Yumeng.

She said that he had arrived at an international airport farther away, and had already bought a ticket, and had a security check, etc. was already waiting in the waiting room. This time, the two of the Yue family accompanied her all the way until she was escorted into the security check, and she was also highly alert.

When the plane took off, Zheng Yumeng also sent a message to report peace, and Shen Lang was relieved.

He arranged Yue Zhennan and Zheng Yumeng, but he did not go home and did not arrange parents!

Of course not because he does not care about his parents, but a psychological game. Just like why the Chu River would arrest Zheng Yumeng to threaten him, he felt that because this girl was only moving the Jingwen text, it must be very like, and it would be a very good hostage.

If this time, he is very nervous to transfer his parents, so that the other party will pay more attention to his parents. Killing affects reputation, then grab it? Ill?

Another, his parents are ordinary people, it is impossible to be closed in the underground palace for half a year like Yue Zhennan, and it is impossible to send it to foreign countries just like Zheng Yumeng.

So he simply did not make arrangements for his parents.

In the evening, Xie You did not have the scruples, and the high-profile public invited Shen Lang to talk alone...
