

First Strong 184

Chapter 184 - 1 battle became famous (below)

The competition of the Super Wu Hero Club is three groups. The first round is eight pairs of sixteen people. After the second round, there are three groups of four pairs, so yesterday the first round of twenty-four matches was completed. Today is the completion of the next few rounds, and each group of winners is also awarded.

The whole process is over, because before the start, the monks such as Xie You and Chu Yuncheng have been given time to contact the superb warriors. They have also seen their skills in these two days.

So tonight, it's time to blend with each other. Those big family sects like them, who have already taken a fancy to the super-martials, will contact them directly.

Those who are not seen, who are good at business, will take the initiative to find out if there is any chance to work for them.

Of course, there is no big background. If there is a teacher's door and family support, just to verify your level, of course, you don't need this step.

There is a large banquet in the evening, and all the guests and players are involved. In addition to the routine set of the Yue family as the organizer, everyone did not eat much at the dinner party and soon entered the toasting environment.

This is a time of blending. Xie You came here this time, of course, for the Xie family to recruit outsiders. And their original goal is a few foreigners, the results have not yet begun, they were all wounded and sent away by Shen Lang.

Now the object he wants to recruit is Shen Lang. Of course, he is not interested in other people. At the table of the guests, he comes directly to Shen Lang toast.

This is the first time Shen Lang has eaten with them. Everyone is now awe and there is a lot of restraint. Tian Luning certainly did not come again.

Xie You's toast, let everyone open a head, are ready to wait for a while, after all, people are better than them.

I did not expect Xie You to openly invite Shen Lang to talk alone!

This time, the people on the scene are pondering, and Shen Lang is now the enemy of the Chu family! It's just that there's nothing in the banquet's banquet, but it's not the same when you talk privately.

This matter can be said privately, Xie You's public expression is even more an attitude.

Everyone guessed it all the time. Isn't the Xie family going to the Chu family?

Shen Lang is also not interested in everyone's experience, and he and Xie give priority to leave, walk directly in the resort.

"What are the conditions in your family." Shen Lang does not need to ask whether he promised. If the family does not give instructions, Xie You is so cautious, it is impossible to be close to him in a high-profile manner.

Xie You smiled and said: "The specific time will tell you, now is only our sincerity. Just now, the public's expression is a sincerity. In addition, it communicates with the Chu family. You will say something else, but go to Death Valley. Before, I hope they can't bother you."

Xie Jia is fighting for their own interests and indirectly helping Shen Lang.

"Hey." Shen Lang snorted and did not appreciate.

Because he never feared the revenge of the Chu family, but waited for them to practice.

"You are really making a name for yourself this time!"

Xie You sees that he has not responded. He continued to say: "The night before you hit Chu Yuncheng, it just shocked us. But last night you killed the Chu River in public and killed it. Declaring war on Chu Mofeng, it will spread."

There is nothing to be interested in Shen Lang. His current strength is not enough to challenge the world. It is not a happy thing to be famous.

“Although I don’t know that the world is famous, it has already spread since last night, but today many people are talking about it. They all know that Pingxi has a monk named Shen Lang. Your brother is really fierce, I am At your age...”

Xie You had wanted to touted him a few words and pulled closer to the relationship. He did not expect that there was no interest in Shen Lang, which made him a little embarrassed. This kid is really a hard and soft person!

“Cough... Chu family must have known the information for a long time, but did not directly respond. I told you last night that after the family reaction, the family was also cautiously discussed. Then decided to cooperate with you. I also reacted to the Chu family as I just said.”

“And then?” Seeing that he was talking about business, Shen Lang responded with a sentence.

“How will the Chu family be, we are not sure, and they have not responded to us. Therefore, the meaning of the family is that, for security reasons, you can thank me first, as long as you are at Xie, the Chu family cannot arrange It’s impossible for people to attack you, and it’s impossible to come to someone.”

“No!” Shen Lang directly refused, and said last night that there is no need to shelter from Xie.

Xie You couldn’t help but smile: “I already knew that you would say that, my proposed backup plan is that I stayed with you, and I need to take care of it at any time.”

“No need!” Shen Lang’s attitude is a bit cold.

He only cooperated with Xie Jia once, and he didn’t have any personal relationships. He stayed with Xie You, and he was unhappy.

“I know that you have confidence and don’t bother with the help of others.” For the arrogance and conceit of Shen Lang, Xie You is helpless: “But now we are partners, we must consider your safety for cooperation, right? Besides, I am treating you as a friend!”

“If you are a sister, stay with me, I will consider it.” Shen Lang deliberately stared at his face.

Xie You’s a while, he’s certainly not a sister, and the beautiful man’s plan is definitely not used.

“What do you mean?”

“Give me time and place, I will go by myself by now. Don’t bother me before this!” Shen Lang said faintly.

Xie You smiled again, but it was obvious that he was also prepared for this possibility.

“Okay! But you can’t go directly to Death Valley, because I don’t know the address, and you only have ten days. I have to come to my house first, and I have already discussed the details with my elders.”

“Good This is a bit of a stagnation. The place is called Death Valley Death Forest. It is a place not found on the map. It certainly won’t be known.

“When you become famous, it is of course a good thing, but it will also be concerned and studied. Including this trip to the dead forest, you are likely to become the focus of others!” Xie Yu reminded.

“Then you are still so high-profile? I don’t know if I want to be your foreign aid. Now I know it in advance.” Shen Lang satirized.

Xie You shook his head: “Our quota is fixed, so there is no more time to consider it. If you are confirmed immediately, you have to change the quota quickly. Others naturally know.”

“Others will focus on me, do you want to scare some people with me?” Shen Lang tilted him.

After all, he represents the Xie family, and the high-profile show is to give the Chu family eye medicine. If there is no benefit, Xie will definitely be low-key.

“Haha, can’t say scare, others are also some talented teenagers. Can only say that they are prepared, such as changing plans, don’t pinch our family as soft persimmons, thus avoiding some troubles.” Xie You said bluntly.
