Chapter 193 - Meeting with teammates

In the evening, Xie Yu came over in advance and briefly said the results. I handled it according to the traffic accident. Both cars were accidents. The death of the two drivers was also an accident. The driver who stayed at the scene proved that he was a superb warrior, so he could get out of danger.

How many of these were influenced by Xie's family, and there is no detailed explanation. He also said the attitude of the Chu family. The Chu family said that he had seriously dealt with the junior and said that similar things would not happen.

For this information, Shen Lang is undecided, but instead asks: "This time I went to the death forest, did the Chu family go?"

Xie You stunned, and then smiled bitterly: "Not bad. Chu family also went, and..."

Hesitant, he said helplessly: "Ming said it, this time in advance, it is the Chu family. Chu family has a few young geniuses, so I want to come back with a full load."

"Interesting." Shen Lang smiled.

"You don't think too much. The goal of the Chu family this time is the death forest. You won't think about doing it inside. Instead, they will worry about the people you are moving inside, so..."

"So I want to kill me here?" Shen Lang looked at him like a smile.

Xie You hesitated for a moment: "No, I don't think so. This time it should be regarded as a firearm, it is the following people. Not to mention the Chu Mofeng, even if it is the master of other Chu family, they personally shot, the effect of course Not the same, there is no need to find two unrelated ordinary people to create traffic accidents."

He pointed to Shen Lang and then pointed to himself: "There is no doubt that such a car accident is killing you and me. So I am angry and angry, I don't think they want to kill me."

“Oh?”

“Now they will admit and express their opinions, which is in line with my conjecture. That is to say, before the death forest, they want peace more. If you want to move you, when you come to the door, there are many ways to do it. I have been tolerating it for so many days, and I don’t care about it for a while.”

“It sounds a bit reasonable.”

Shen Lang touched his chin, thoughtfully.

“Do not worry! Wait until the death forest, they have no time and thoughts to find you trouble.” Xie You blinked at him if he pointed.

Obviously, as a child of Xie’s family, he has some secrets that should not be so detailed, or that it is inconvenient to disclose it privately without permission. It can only be hinted, but what it means is already obvious.

Shen Lang did not say much. He also had his own conjecture. He felt that today’s business, the Chu family should be clear above, and deliberately want to come once!

But the purpose of this time is not to kill him – or else it is more convenient to go to the county to kill him. There is no need to wait until now. It is not even a matter of intimidating him, perhaps a chance to “recognize and express his attitude”!

Regardless of whether Xie You is involved in the plan, they all communicated through the Xie family. As it is now, recognition is the impulsive practice of the Chu family, and it is out of control, and then said that no such thing will happen.

The Shenlang as the target may relax his vigilance. In the dead forest, he also believes that the other party will not be like him. At that time, he will give the Chu family a chance, as long as others die in the dead forest, no matter how much People ambush, or magic weapon, the outside world will not know.

Except for a few who went to the dead forest together, others did not know about it. At that time, it can be said that Shen Lang escaped and hid, Chu family does not pursue his family and friends, not to search for him out, but can win a generous reputation!

These Shen Lang thought of it, but did not say it, then take a step and take a step.

Xie You took Shen Lang and came not to Xie, but in a restaurant. This is a feast for him to have dinner, but also to meet in advance.

“This is my uncle Xie Xun, this is my two cousins, Xie Tongwen, Xie Yunlin.”

In the private room, three people have arrived, Xie You introduced it.

There is no doubt that Xie Xun is the elder of the Xie family. In the capacity of Shen Lang, it is possible to let the people of the second generation of today come to see it. It is certainly impossible to see him with the masters of the Chu Mofeng generation.

Xie Tongwen and Xie Yunlin are two of his peers. They should be less than twenty years old and can enter the forest of death.

What surprised Shen Lang was that Xie Tongwen and Xie Yunlin were both stronger than Xie You, and it seemed that they should have reached the peak of Yuanyuan. When you are young, you have to be a higher level, and you can see that their talents are better.

When Shen Lang looked at them, the three of them were also examining him.

“You are Shen Lang? I heard that you have defeated... Killed Chu River, not bad!” Xie Tongwen said directly.

“Same text!” Xie Xun busily scorned the sentence, killing the Chu River thing, is the problem of the Chu family losing face, can only be their own private discussion, with Shen Lang not to this extent, but also in public, was It’s not good to listen to it.

Xie Tongwen is only a little bit of a mouth, it seems that Shen Lang can kill Chu River, what is it?

“A lot of care.” Xie Yunlin arched his hand, simple and polite, he is less cool than the words.

“Please sit down!” Xie Xun gestured to Shen Lang: “You are welcome, since you cooperate, even if you know each other soon, you will not get too long, but for the time being we are partners, that is, ourselves.”

“Thank you for your hospitality, I also appreciate that you can not be afraid of the pressure of the Chu family.” Shen Lang laughed.

This made some people in Xie’s family do not know how to pick up, saying that Xie’s family is of course not afraid of the Chu family. It is deliberately stressed that it seems to be bad, and the spread also affects the relationship with the Chu family.

Xie You is busy laughing and snoring: “Uncle Shen brothers speak is straightforward, you have to get along, everyone does not care much.”

He also said to Shen Lang: “Uncle Xun will be the one who led the team to Death Valley this time. Besides you, we thank the other family and Tonglin and Yunlin are eligible to go. I really want to go, but I Strength is not good, it is old! Haha...”

Xie Xun waved his hand: “The specific business is not here. We are just picking up the dust for Xiaoshen Brothers today. Everyone knows it, you can have a better cooperation.”

“Yes, yes, waiter? Order, order!”

Xie You is very good at the active atmosphere, and takes care of everyone’s emotions on the spot. No one feels cold. Like Xie Yunlin’s cold words, he is also an opportunity to speak.

One seat down, everyone is familiar with the teammates who will be teaming up tomorrow, but basically it is still on the surface.

In the view of Shen Lang, Xie Xun is naturally an old fox, and he does not see him very much; Xie Tongwen is relatively straightforward and recognizes his strength. Xie Yunlin didn’t have much words, and he didn’t have much expression. He didn’t get along much. It was difficult to understand his true thoughts.
