

## First Strong 197

Chapter 197 - A stranger in his hometown

The place where Shen Lang looks is not the Chu family camp that Chu Yunfei has just passed, but another camp!

There, he saw a person who didn't expect to meet here!

“The first one is the people in Haitian Town. They are not a family, but a place...”

Xie Tongwen still quite understands these, and probably gave them homework in advance.

Haitian Town is a peculiar place, similar to Chenjiagou, the hometown of martial arts. There are many family sects there, and everyone is not an ancestor, but when they go out, they are all playing the “Haitian Town” sign.

It is to use the alliance of the region, and usually compete with each other, and go out is consistent with the outside world. Death forests like the present, distribution costs and quotas are all in Haitian Town, and then they subdivide each other.

Similar to Xie's family, Haitian Town has only come to three people. It seems that they are from three families.

In the past, it was the Chu family. The Chu family has the most people, and there are four people!

In addition to the Chu Yunfei that I have just seen, the other three are almost the same, all of them are less than twenty years old, and they have the strength that is not inferior to Chuhe.

From the introduction of Xie Tongwen, the Chu family who claimed to take over the challenge of Shen Lang was not in it, probably the big brother in the younger generation.

In addition to Chu Yunfei specially stayed to wait for them, now three other people, the focus is also on Shen Lang.

They may not have deep feelings for Chu Yuncheng or Chuhe, but Shen Lang's shots have affected the Chu family's reputation, especially the challenge to Chu Mofeng. In their view, it is the enemy of the family.

Then the past is the stepping horse from the grassland, there is only one person, they are the least party.

In the past, it is the direction that Shen Lang looks at when he comes over.

Xie Tongwen is observing Shen Lang. It is not strange for him to look like this, because he also pays attention to it! When he came here, he also looked more flying.

This party is two people, but two girls, and two beautiful women, their martial art is called the Tianshan Ice Palace.

Shen Lang looked at them, not because they were all beautiful women, but also did not know what Tianshan Ice Palace, but because it was more beautiful inside, it was the squad leader who suddenly left before the college entrance examination!

It seems that the rain falls from the big family, and it is still a self-cultivator. It appears in Li Cao Middle School, which is a matter of incompatibility. She suddenly left, just like her suddenly appeared, only leaving a regret and sigh, including Shen Lang does not think she will be resident in C County, she is not a person who needs to rely on the results of the college entrance examination.

So she left for more than a month, and Shen Lang couldn't get in touch, nor did she think about various ways.

But I will meet here today, or let him be amazed. According to his analysis, the rain falls should be from the big family of the emperor, but she may be an illegitimate woman, not waiting to be seen, being excluded, so she will go to a place like C County. Of course, it may be her mother's hometown or a place with special memories.

And comprehension is her talent, and at this point, she is recovered and valued by the family. It is also because the young is already a monk, so you can be willful.

I did not expect her to be a disciple of the Tianshan Ice Palace!

It's here now. It seems that she's not left before the college entrance exam, she was called back. In order to prepare for this dead forest, I probably got the last special training, or the Tianshan Ice Palace is really in the Tianshan Glacier. No signal, no mobile phone, etc.

In addition to them, there are two camps, one is Xuan Lingzong, and there are two disciples of two men and one woman. One is called Liu Jia, and two people are coming.

In total, there are a total of seven camps and eighteen places. Among them, the number of Chu family is the first, occupying four; Xie Jia, Xuan Lingzong and Haitian Town each three; Tianshan Ice Palace and Liujia two people, one of the few horses.

Xie's side was the latest, and all of them were sleeping in Taniguchi last night. They should have greeted each other, so they are watching them all at this time.

When Xie Tongwen and Shen Lang whispered, others were also whispering about them. The wave of Shen Lang two weeks ago, everyone is concerned about it, so compared to the two talented young people of Xie, more attention is paid to this foreign aid.

The average person is just whispering a whisper. After all, they are all out of the big names, and some of them are still there. Just like Xie Tongwen, he did not swear, but said softly.

But the general is only half, and half is not ordinary!

The other half, including the one on the Tamar, can't talk to anyone; there are two of the Tianshan Ice Palace, the temperament is very immortal, will not talk about anything; there is the Chu family.

Chu Yunfei stayed behind, just want to provoke a bit, the result of Shen Lang did not care about him, let him a little embarrassed. After coming here, the four of them stared at Shen Lang, but Shen Lang only looked at the beauty of the Tianshan Ice Palace, completely ignoring them and making them very uncomfortable.

"Xie's family is really true. If you don't have the ability, you can find foreign aid."

“Looking for foreign aid is nothing, but also to find a reliable one. Look at the eyes of the people of the ice palace fairies, completely fascinated, at first glance is a rogue!”

“This kind of person walking with us is simply lowering the grades of all of us. The quality of this session has been pulled to the lowest level in history.”

“If you are not afraid of others saying that we are bullying people, I really want to fight that my mother doesn’t know him! This kind of rogue, I see one fight!”

The scene is almost all the strength of the peak of the Yuan dynasty. Even if it is a soft voice, you can hear it if you want to listen, generally you will not specifically listen. But the Chu family, a few of them, did not depress the voice, it was deliberately passed to everyone’s ears.

Knowing their grudges, they all understand that this is a provocation. All of them have entered the mode of watching movies. They want to see how the public is so ironic and what will be the reaction.

Xie Yunlin next to Shen Lang is still cold-faced, and there is no reaction. Xie Tongwen is a bit embarrassed. After all, this is a satire on their Xie family.

The party Shen Lang, in addition to feeling that they are very noisy, is naive! In this case, the level of the child is the same, but also want to affect his mood?

Falling rain is of course also recognizing Shen Lang. Although she has been closed for a while, she now understands all the situations and knows what Shen Lang did two weeks ago. But now she still has the same door, there are also elders, and there are a large number of people in seven. If you fall down again, it’s not good to greet the past and say hello.

Therefore, when Shen Lang stared at her side to see it, in order to avoid letting everyone pay attention, she was blindly avoiding her eyes.

But now Chu family used her to attack Shen Lang, so that she could not help but secretly frown...
