

## First Strong 199

Chapter 199 - Deja vu

Xie Tongwen and Xie Yunlin have nothing to say, or they are boring their heads, and Shen Lang has not said much, but is further concerned with God.

In order to open the distance as soon as possible, it is also the time when they are just coming in. They are very fast, and they are all off-road, comparable to ordinary people running on the field.

After an hour, it has basically gone beyond ten kilometers.

In a strange place, Xie Tongwen stopped. "This should be opened in the first place. It is not easy to get through how to go. Let's take a break!"

He said that he jumped over a boulder, then took the backpack down and took out the food he had prepared.

Shen Lang Xie Yunlin also went to the top and took out his food.

"First eat some food. We don't need to break into the hundred miles. When we start, we will search for it. If we don't get it today, we will go to the distance in the evening." Xie Tongwen opened a bottle of water and drank it. .

They were sleeping outside last night. They just got up in the morning and didn't eat much. Now the activity is open, but it is easier to eat.

Shen Lang also opened a bottle of water, and then slowly drank.

"We walked so fast, the traces of the footsteps will be obvious, others can track it." Shen Lang side reminded.

"I know!" Xie Tongwen laughed.

If you are in the city, it is more difficult to find traces of people passing through the cement road. In this uninhabited forest, as long as someone passes, it can leave traces.

“Have you forgotten the choice we started? We will not leave if we see the direction they have gone through. But after all, it is impossible to navigate and position, and there is no straight line. In the not too far, there will still be some intersection. When others see the route we have traveled, they will not come over. Similarly, if we see the traces in front, we will also go around.”

Xie Tongwen explained it and looked at Shen Lang: “Are you afraid that the Chu family will catch up and find trouble? You think too much!”

“Oh?” Shen Lang responded a little.

Think more? He has already discovered it, and behind them are the four people in Chu!

Now they stopped to rest, and the other party did not come near. This is waiting for the opportunity!

“You also know the purpose of all of us. The Chu family has a hatred for you, but after you go out, in less than half a month, they will be able to revenge you in the bright future. And after the death forest comes in, the next time It will take a few years, today, these 18 people, including you, have not been qualified to come in a few years!”

Xie Tongwen’s eyebrow dance said: “So you understand? They want to disgust you, but they don’t waste time on you. This is a chance for them once in a lifetime, but what can be harvested is a credit. And if you can find a big chance for the individual, it is a huge gain!”

“It turns out.” Shen Lang nodded and said nothing to him.

Xie Tongwen did not know him for a few days. He said that friendship and Xie are not comparable, and everyone has no common goal. His idea is to correspond to his identity, and they and others should be like this.

To put it bluntly, they are not interested in the grievances of Shen Lang and Chu, and they do not want to be tired.

“When returning.” Xie Yunlin opened his mouth.

“Yes! What we should really worry about is the half day we went back!” Xie Tongwen was serious. “After this dead forest, everyone is a competitor, at least between seven. If they find you revenge, no matter How will it affect their time and strength!”

“The time to return is not the same. When we get more or less rewards at that time, then if you do it again, it will kill you two things! And you have to go out anyway, and you are not afraid of injury.”

After he finished, he signaled that Shen Lang and Xie Yunlin were busy eating, and he also took the time to come up with a map.

“This is a map summed up by the predecessors. Although it is relatively simple, it can give us a little reference.”

People who have come in from generation to generation draw pictures with the memory of the places they have been to, and then splicing them one by one, taking the vicinity of the transmission array as the core, and slowly sketching a map of a large area.

Now printed out, it is not hand-painted, but integrated data, and then use computer technology simulation, obviously more realistic.

“This is where we come. We will go back when we are, now we are...” Xie Tongwen stood up and looked around. “The estimate should be around here.”

“According to the summary of the predecessors, there will be a lot of spiritual medicines in this area. This piece has the spirits and beasts. These hills have Lingshi mineral deposits. Let’s go here first, if there is no harvest, then go here. side!”

Xie Tongwen gradually revealed the responsibility of the captain. His plan was to go to the area where the beast was first, and try his luck. If there is no harvest, go to the farther mountain to find the mineral deposit, and the last spare is the area of the herbal medicine.

With the experience of Shen Lang, I also feel that he is right. I believe that it is not him but the plan of the Xie family. The beast is to take chances, and the mineral deposits are also, but the herbs are grown on the ground, easy to find, and will not run.

Before the map came in, Xie Xun did not mention it. It is now Xie Tongwen who saw him as a teammate, so it is the first time to have a more extensive overview of the death forest.

The thoughts of Shen Lang have had waves, this place... He seems to have been here!

After hundreds of years, things are human and everything is a big change. He can only be sure that this is a small world, but he did not feel familiar until he came in. Looking at this map now, I feel a little familiar.

“What is this place?” Shen Lang pointed.

It is on the edge of the map. It is not the edge of the dead forest, but the edge of the exploration of the predecessors. According to Xie Tongwen, it should be in the depth of two hundred miles.

“There is a temple here. It is said to be very dangerous. The predecessors of our family have not been there. It is heard by other people. It is said that some people are buried there.” Xie Tongwen said cautiously.

“Where is the temple...” Shen Lang slightly raised his eyes. It is also said that it may not be a temple, but a building. “Xie Tongwen shrugged and urged him. “Hurry and eat!” ”

Shen Lang took a bottle of water and drank it. “I will drink some water, and things will not be eaten for the time being.”

Said to pack things up.

Xie Tongwen looked at Xie Yunlin and asked: “I see you were very vigilant last night. Are you afraid of Chu’s sneak attack? See if you are not sleeping well, if you have any difficulties, you can take a nap. I will study the map again. “”

One of his words that sounded like it was to make Shen Lang secretly sneer. It seems that Xie Tongwen has not been open and honest, and there may be a map with clearer marks. I only want to see it with Xie Yunlin!

“There is a point... sharpening the knife and not cutting the woodwork, then I will take a nap. You will call me in fifteen minutes!”

Shen Langshun pushes the boat, stretches a lazy waist, puts the bag on the boulder, and lie down and close his eyes.
