Chapter 202 - Killed

After discovering their conspiracy, Shen Lang wanted to go straight to kill Xie Tongwen and Xie Yunlin!

However, since it is related to the Chu family, it is better to wait for them to come over and then go to the net!

Their strength, he has actually figured out, basically it is the peak of the Yuan Dynasty.

I think that Yue Baichuan's Yue Bailun brothers have only had a lifetime in the early days. In the medium term, they have already had the strongest group in Pingxi. They have this realm less than 20 years old. It is already very remarkable. Before Shen Lang met the strongest Chu River, it was only in his thirties that he had this strength.

Half a month ago, he could kill the Chu River. After a week of retreat, he absorbed dozens of Lingshi. Although he has not broken the "Yin and Yang Bozhenzheng" to the third place, he has made significant progress before him.

Therefore, in their view, the Chu River is a failure to be willing, they remain vigilant, and more than a few hands together, they will get ten. But in the eyes of Shen Lang, a few more, it will take a little more time!

After Chu Yunfei arrived, Shen Lang was able to see the other side of them.

Sure enough, I started to play tricks at a young age. Chu Yunfei looks arrogant and arrogant. In fact, she is very calm and waits for them in Taniguchi. I believe it is also to observe him at close range.

And Xie Tongwen, as the driver reminded, did not show the kind of sharp and straightforward appearance.

When I think of going to the airport, I heard the driver's words. I thought that Xie You wanted to use a knife to kill people. Now I found out that it was really kind.

From the dialogue between the two sides, Shen Lang can basically judge. Before Xie You was sure to want to win him, but after the public and the Chu family declared the war spread, he came back again and told the death forest that he was acting. He pulled inside the board of Xie's family!

Yes, the smart home expressed by Xie You, Shen Lang does not believe that he was kept in the dark by the family!

On behalf of the Chu family and Xie Tongwen, Chu Yunfei formed an alliance. Before leaving, he would hunt the other five teams one by one and rob them of their gains, including killing people. These sinking waves are not surprising, they have always been like this!

This was the case in his previous life, as was the case in several family sects in Pinxi.

As long as there are benefits, as long as the interests are large enough, people can give up the principle and destroy the rules!

But what made him angry was that Xie Tongwen actually had to smother the two female monks in the Tianshan Ice Palace and kill them again!

It's not just killing people to win the treasure, or the woman is obscenity!

It's just the former, Shen Lang doesn't care so much. In such an occasion, the jungle law with the tiger wolf is the preparation that all those who come in should have. But the latter, let him not look down.

This time, it was not just two female repairs. One of them was his three-year classmate. Some time ago, he had a deeper understanding of it and helped him. He still pretends to be his girlfriend's rain.

Xie Tongwen evil smiled at the YY of the falling rain ,, what from the mouth to the chrysanthemum, the three holes all the way without the need to wear a set of ugly words, let the sigh of anger in the fire, directly want to jump up and give Xie Tongwen to the slaughter Now!

When the Chu family approached, Shen Lang was ready to take the shot. I didn't expect the guy to ask Chu Yunfei for the same purpose. Would you like to abolish his limbs like Chu He, and Chu Yunfei was quite vigilant? .

This person wants to smash the head of Shen Lang, and then crush his small head, let Shen Lang directly punch his head!

He punched too fast, and the man's head was smashed out of his neck and splashed out. The body actually paused for a while to fall down slowly, and his fist, because of the bursting of strong power, was separated at the touch and was not contaminated. Blood.

But Shen Lang is now in this way, falling in the eyes of five of them, and it is not worthy of a **** killing god!

This change made Xie Tongwen Xie Yunlin shocked and opened his mouth.

"What happened? Didn't you say that you have already fallen down? Are you worried about the homelessness?" Chu Yun was so angry that he screamed.

Xie Tongwen's face was ugly, and he did not expect that there would be such a change. If the facts are not in front of them, they may see it, they may think that Chu Yunfei has deceived them.

"It seems that this kid has been wary of us for a long time, and has changed the food and drink."

Although Xie Tongwen did not understand when Shen Lang changed, but only this is the biggest possibility.

"I said that everything is late, kill him together!" Xie Yunlin, who has less words, is straightforward.

Chu Yunfei also suppressed the anger and grief. At this time, complaining about Xie's family is tantamount to guilt, and only Xie Tongwen will run with Xie Yunlin. The best choice, or join them two, together to kill the waves!

"Shen Lang! You owe us a life in Chu, killing you is not enough! I swear here, I will kill your parents!" Chu Yunfei snorted.

The loss of Chu Yuntian in Chuyun City, including the death of the Chu River, has nothing to do with him. But now it is different. This time, he was dominated by the scene, but Shen Lang was in front of him, killing a cousin and even bursting his head!

“Chu Yunfei is it?” Shen Lang anger is burning, but the voice is very calm: “very good. I was originally a person to do things alone, will not accumulate family. For your words, your parents I killed. ”

It was threatened by the swearing of the anger under the wrath of the nine people who had to kill and kill the whole family. Just Chu Yunfei said it, everyone feels anger.

Speaking of Shen Lang in a calm tone, it is for them all to fight a cold war. It seems that he is not talking about words, nor threats, but stating a fact that is about to become a reality!

“kill—!”

The remaining two Chu family children in the confrontation, has been stretched out at the waist, but not the belt with the pants removed, but they are wrapped around the waist Soft sword!

When Chu Yunfei made a command, they still had weapons in hand. With the injection of vitality, the soft sword has become straight, with cold light, and stabbed from different angles to Shen Lang!

The sword has not arrived, the sword is now!

Shen Lang is unfamiliar with the Chu family. Chu Yuncheng, Chuhe and Chu Yuntian, which were encountered before, are only arbitrarily confronted. I did not expect that they are still good at using swords.

Good at it? With a sword in front of him, it's just a squad!

If it is not because it is contained in the storage ring, his unborn sword is ready to keep up the hunger and thirst!

Xie Tongwen and Xie Yunlin both, although they do not want to thank the children of the family to take orders from Chu Yunfei, but the current situation, not to consider so much. With Shen Lang's just so ferocious means, it must be stopped immediately!

Two of them went up first, and Chu Yunfei was ready to go. Their time was more abundant. Both of them directly displayed the Xie's housekeeping skills.
