

First Strong 204

Chapter 204 - Wreck

This bureau, which was set up from the beginning, is not the strength of Chu's fear of Shen Lang, but the use of this powerful enemy to train juniors!

Therefore, Chu Yunfei is fully prepared, and it is necessary to kill Shen Lang.

In the movie, the guns pointing at the enemy are often endless, and often hang up. Therefore, Chu Yunfei did not pull the gun first. He always kept a cold-eyed attitude. Once he was determined to have a chance to shoot, he would only pull the gun and also lure the enemy deep.

When Shen Lang stabbed in front of him, the first target he shot was the heart of Shen Lang, and then the continuous speed shot, the goal is not the same.

According to his plan, if the first shot is to build merit, of course, the best is to directly sink the dry waves. If you are also avoided, or avoid the heart, then the continuous shooting behind him is very crucial. But if you can avoid the heart, it means that the body changes position, and the rear aiming is meaningless.

Therefore, his continuous rapid shooting from the second shot is a goal, regardless of the time or the heart part, as long as the person can be sieved, open a hole, not dead will be seriously injured!

Although one person was shocked to fly out, they were shocked, but when they heard the gunshots, Xie Tongwen and others were in a good spirit. The sword behind it was chasing after it, and the hurricane was like a blade to the back of Shen Lang!

Everything is in the blink of an eye. If someone looks at it, it will only be dazzling. Even if there is a high-speed camera recording, it will be dizzying. You must have multiple seats to capture all the details.

There are two chasings behind, with a sand eagle shooting in front, and Shen Lang is undoubtedly trapped in a death whirlpool. This includes a triple attack of cold weapons and weapons, and as long as there is a success, it can seriously hurt him!

But everyone saw a strange situation. The body of Shen Lang turned out to be a ghost. When the bullet hit the blade and made a harsh metal sound and Mars, the body that he quickly flew forward was actually twisted in the air. Then quickly slid out to the side.

At the crucial moment, Shen Lang relied on the agility and speed of the “Phantom Meteor Step”, and will take off from the firepower network, directly giving up the original goal Chu Yunfei, but there is no waste of opportunity, the sword in the hands, with Gliding out!

The goal of this time is to show the Xie Tongwen and Xie Yunlin who are trying to control the hurricane to chase him!

Xie Tongwen was close to Chu Yunfei, and Shen Lang had to avoid the scope of the attack. A glimmer of the road passed over him and went to the side of Xie Yunlin. Without a sword to kill the past, directly cut his legs from the knees!

The sword of the Chu family was lost, and it was about to hit the hurricane of the squadron of Shenlang. After losing the target, he went straight to the front of Chu Yunfei.

At this moment, “砰!砰!砰!” The sound of the guns sounded in everyone’s ears. A round of rapid shooting Chu Yunfei found that the target was gone, and quickly turned the gun head to find the sinking waves.

When he arrived at the hurricane in front of him, he was promptly accepted by Xie Tongwen. At this moment, Xie Yunlin’s legs were cut off, and he was directly in the middle of his strength. His squadron immediately stopped.

Although Chu Yunfei’s muzzle has been transferred, he has no chance!

With the magic of Shenlang’s “Phantom Meteor Step”, he only had an unexpected surprise attack. Now he has just aimed, and people have already reached another position.

Although he moves the pistol very fast, he does not need any strength, but the target flashes quickly. If he wants to hit, he can only make a pre-judgment shot in advance to ensure that the target body is still when the bullet arrives. in.

“Ah—” Shen Lang’s body flashed like a ghost. When Xie Yunlin felt the pain and fell to the ground, he once again broke the arm of the remaining Chu family’s sword!

After Shen Lang broke the arm, he did not leave. Instead, he grabbed the Chu family and then used him as a meat shield and took the initiative to throw at the gun of Chu Yunfei!

Chu Yunfei is already the last bullet, and has already pulled the trigger. Seeing this scene, the instinctive throws the gun! Even if you throw the gun, it will not help. I can only watch the cousin who has no resistance, and is caught by Shen Lang, using the forehead to stop the bullet!

The power of the sand eagle is enormous. The shortcomings are heavy, strong recoil, and not practical. But these are nothing to Chu Yunfei. What he wants is power. The maximum diameter is 12.7 mm. The bullets are better than the AK series rifles. Two-thirds of the size, with a large-caliber sniper rifle a level.

This gun went down, although the head of the Chu family was not blown up, but it also opened a blood hole directly, and could not die any more!

The largest caliber of the sand eagle has only seven bullets. This sinking wave is not clear, but watching Chu Yunfei's movements, whether or not they use bullets, are thrown without threat.

Chu Yunfei is the core of the four people of the Chu family. Even if he watched the bullet hit the cousin's head, he did not have the slightest sadness, but made the best plan for the first time!

“escape—!”

This voice was shouted to Xie Tongwen, and at the same time he pushed Xie Tongwen. The other hand slammed in front of it, pinched a smoke bomb, and immediately spread the smoke.

Xie Yunlin was cut off and his feet were not dead. This picture shocked Xie Tongwen. In the end, he is still not as good as Chu Yunfei, hesitant to run away with Xie Yunlin.

The loss of this moment is that Chu Yunfei's last bullet hit the brain of the Chu family!

When I heard Chu Yunfei's words, Xie Tongwen also understood instantly. If you carry Xie Yunlin, you must not escape. Now desperately to escape, there is still a line of life!

Being able to get out of the attack of four people and a gun, and quickly killing the three of them, it is certainly not the two of them can handle. Escape is the only choice, this is also to thank home!

So when Chu Yunfei pushed him he has swiftly swept out.

His reaction was indeed very fast, and he quickly dropped Xie Yunlin, but in fact it was still a bad thing!

Chu Yunfei pushed him away this time, but not for the sake of loyalty, but for self-protection!

Xie Tongwen flew out along with him, and when he launched it, he took the opportunity to fly to another direction and then desperately fled to the forest.

There is an old joke that two hunters have encountered a lion, and one of them ran. Another desperate question, what is the use of running? Have you run a lion? The runner said, I don't need to win the lion, just win over you.

Chu Yunfei is like this now. He and Xie Tongwen respectively fled in different directions. Shen Lang could not pursue two at the same time. He first chased one of them, and then returned to chase another one. The chance of running away was greatly increased. .

And he is one step ahead, and the speed is faster than Xie Tongwen. Normally, Shen Lang should choose the one that is easier to catch up with. This is the real intention of his reminder of Xie Tongwen's escape.
