

## First Strong 207

Chapter 207 - 0 year elixir

Just Xie Tongwen leaped into the air and was fixed. When the two of them spoke here, they let Xie Yunlin hear it, and they could see the situation of Xie Tongwen. When you hear the screams, you basically guess what it is.

So at the crucial moment, Xie Yunlin shouted loudly. He is more sober than Xie Tongwen, knowing that Shen Lang is impossible to forgive. Just as Shen Lang is fascinated by the Chu family, if they ask for mercy, they will not be soft.

Can change a life, only the benefits!

There are no eternal enemies, only eternal interests. A sufficiently large interest is to make the enemy turn into a jade.

He hopes that “transaction” will allow Shen Lang not to kill Xie Tongwen.

Although his legs were smashed just now, Xie Tongwen ran away without any mercy. However, Xie Yunlin did not hate him, because from the most cost-effective point of view, Xie Tongwen is not wrong, it is him, it should be such a choice.

And Xie Tongwen will appear nearby. In his opinion, naturally, I want to wait for Shen Lang to leave, and come back to save him!

Poor thanks to Tong Wen as a bait, he thought it was a brother.

Shen Lang heard the voice of Xie Yunlin and threw Xie Tongwen on the ground. At this moment, Xie Tongwen has been unconscious.

In the past, he took the bag of Xie Tongwen and the pockets of his body, and all of them were taken into the ring of the storage. Then he found a stone and stuffed it into the mouth of Xie Tongwen.

I cut off my limbs and I don't need to kill any more. It will not last long after the blood bleeds. However, the realm of the peak of the Yuan dynasty can make Xie Tongwen stronger than ordinary people for a long time. This is to make him unable to struggle, can not open, can only wait to die!

The flying body came, and fell on the boulder. Shen Lang looked at it. Before that, the Chu family's children were flying and falling on the ground. People were unconscious and did not die. At this moment, he directly swayed the sword from the air, and a sword gas killed the man on the ground!

Xie Yunlin fell to the ground, leaning against the stone, looking at it all with cold eyes. He has stopped bleeding his legs and wrapped his clothes. But in this forest, broken legs are new and it is very difficult to leave.

From here to the entrance to the transmission array, there is also an hour of fast running distance. It's estimated that it's been a long time to jump with your hands or climb back.

"To count, a few of them are the easiest to die." Shen Lang sighed and walked to Xie Yunlin. "So, people can't be too bad, too bad to die, right?"

What can Xie Yunlin say when he has less words? Say you \*\*\*\* it?

"We lost, there is nothing to say. I hope to buy back our lives through the transaction!" Xie Yunlin is more straightforward in the pursuit of mercy than Xie Tongwen.

"What can you have?" Shen Lang looked at him mockingly.

Xie Yunlin took a deep breath: "You have seen the map, but there is still content that does not tell you, we know!"

Shen Lang also understood later that they could let him see the Xie's map of the dead forest, not because Xie Tongwen was kind, but thought he was dead.

"No." Shen Lang shook his head directly.

“You should listen and decide! It’s too big. The area we explored on the map is still too big. It won’t be much for one person in three days. So we – the other sects are the same, have a choice. The goal, the other is by the way. I can tell you the goal of our thank you this time...”

“No interest!” Shen Lang refused again, and then the sword in his hand rose.

Xie Yunlin couldn’t help but get nervous. Originally, he felt that he could save his life by selling the secrets of the family. I didn’t expect that Shen Lang was not at all heart-warming!

“I understand your thoughts. You think you can find maps from us, but it’s useless to have maps. The family has considered that the maps may be stolen, so the key things are oral!”

Shen Lang frowned. “If you can’t get anything of value, I really have no patience.”

“A thousand-year-old Yangshen!” Xie Yunlin was helpless, and he could only throw out the core of the secret.

Seeing the movement of Shen Lang’s hand stopped, he was relieved a little, he did not want to talk, and he had to explain it quickly.

“A few decades ago, Xie Jia discovered a first yang ginseng that was close to the millennium. Because there is no best time to pick it, I have been waiting for it. It is also secret. This time our core task is to pick this one. Plant head Yangshen.”

The first yang ginseng is not a ginseng variety that grows in the ground, but a kind of elixir, which means that it is a kind of ginseng that can make the white-headed deceased return to the sun. This thing can’t be met, and it may take several hundred years to blossom. In general, the longer the result, the better the effect.

The first year of the golden ginseng means that it takes a thousand years to bloom. This is of course a general calculation, and it must be a great exaggeration. According to the estimation of Shen Lang, some places have blossomed once in a few decades. In this dead forest, there is plenty of aura. It may be a few hundred years, and the effect will be very good.

Seeing the waves, Xie Yunlin quickly hit the iron: “I am equal to selling the family to guard the secrets of decades, just to survive! I have already been like this, the same text is estimated to be a

waste, you can be considered revenge, just throw us Where the transfer array is, I will tell you the exact location!”

Shen Lang stared at Xie Yunlin’s eyes, silent for a moment without speaking.

Xie Yunlin was holding his breath. He didn’t expect to be a genius of Xie’s family. He still had a day of sigh! Not long ago, they were still among the people!

“No need!”

When he waited for Shen Lang to promise, he heard a blue-eyed answer!

“You, you... I am telling the truth I will never lie to you!” Xie Yunlin was anxious and almost swears.

“No interest, compared to killing you more real.” At the same time as Shen Lang spoke, the long sword in his hand waved, and Xie Yunlin’s arms were cut off in an instant!

Before his legs were cut off at the knees, he has stopped bleeding, and then he has to make up a sword and cut off from the thigh!

Xie Yunlin’s pain has been paralyzed, and his eyes are full of despair: “Why... the family should not solve the problem, why should there be no interest, do we have to put us to death?”

He now understands that Xie Tongwen estimates that he has just encountered the same treatment.

“Because from the beginning, what you have tried is my life!”

After the cold wave was finished, the tip of the sword picked it up and dug a stone on the ground and flew into his mouth. The two genius children of Xie’s family have to watch themselves die slowly! In comparison, the Chu family are really dead enough.

There is also a Chu Yunfei! Shen Lang will not let him go.
