

First Strong 208

Chapter 208 - Yan Lingquan

This is to plunder the resources, and there will not be too many things on the body. If it is the last day, it will definitely gain more.

However, Shen Lang was not wasted, and Xie Yunlin and several other Chu family members were searched. The mosquito legs are also meat. Compared with other treasures, this is readily available.

After cleaning up, Shen Lang did not pay attention to their bodies, simply check it out.

There are not many things in the three Chu family, and there are only one or two spiritual stones for daily practice. Xie Yunlin is similar.

The things on Xie Tongwen are obviously more. In addition to that map, there are some medicinal herbs, mainly for healing and detoxification.

There is also a magic weapon inside, which is a fake sky umbrella. Tianqi Umbrella is a defensive magic weapon, and its power is still very large. However, this is obviously counterfeit. The time and number of defenses are limited and cannot be compared with real sky umbrellas.

This is what Xie Jia gave Xie Tongwen their dependence. When necessary, they can defend it. But that can only be anxious and cannot be supported for too long. He did not use it just now. It is because of such concerns. As long as Shen Lang is consuming with him and there is no assistance, the effect of Tianqi Umbrella will still hang.

This thing is not very attractive to Shen Lang, but it is also collected casually. What makes Shen Lang a bit surprised is that in the items of Xie Tongwen, in addition to a few Lingshi, there is also a medium Lingshi!

Up to now, Shen Lang has harvested all the first-class Lingshi, and he has harvested more than 100 pieces in the palace of the King of the Tomb, plus several compensations for 50. Now they have five people plus almost ten, nothing. So excited.

But a medium spiritual stone is different, and that is the biggest gain.

A medium Lingshi can be exchanged for a hundred elementary Lingshi. This is not to say that the energy contained in the medium Lingshi is one hundred times, and may be several times. But whether it is portable or absorption speed, it is far better than the primary stone.

It's like a mobile phone, a flagship machine of 5,000 pieces, which may not be ten times more than the entry-level features of 500 pieces, but it is faster and the quality of all functions is better.

Xie Tongwen actually carried a medium Lingshi with him. Shen Lang analyzed it. He felt that this was not his personal thing. He should have been given to him by Xie, and he should be given to him temporarily. Perhaps for security reasons, if you encounter an ambush from other teams, if necessary, hand over this thing, you can buy a life.

Then he thought of the thousand-year-old Yangshen that Xie Yunlin said. Perhaps this is really their top priority, but it cannot be made known to outsiders. When necessary, the medium spirit stone can be given out for a peaceful departure.

In fact, Xie's family also has pressure. Although the number of places is three, Shen Lang is going to be concealed. In fact, it is two. Not only are the four Chu family members unable to resist, but others like Haitian Town have three people. It's no wonder that you have to be very confidential and be prepared to lose your car if necessary.

However, how Xie Jia planned, it has nothing to do with Shen Lang, now at this stage, can harvest a medium Lingshi, it is timely rain for him, more confident to impact the "Yin Yang Bo Ruozhen" third.

Holding the map of Xie's home, Shen Lang immediately left there. Although there are many places in the inside, there is no indication, but when I look at this map, Shen Lang is a little familiar.

Going deep into the edge of the map of two hundred miles, the thing that is said to be like a temple is the key to making Shen Lang feel familiar, so now he is going to go there directly, then what is the first year of Yangshen, he is too lazy to look for.

Chu Yunfei let him live for two days, and has escaped far away. The large scope, a person can not search for carpets, it will be very time consuming. But when everyone will go back, as long as they wait in the vicinity of the transmission array, they will always see it.

Now, when Shen Lang is alone, letting go of speed is much faster than when they come together.

As we get deeper and deeper, we can see some grasses and occasionally traces of the beasts. The waves don't stop, just blindly rushing.

The reason why he had to go to the temple was that there was a spiritual spring in the vicinity of the memory!

Lingquan and Reiki and Lingshi are a class of substances. Because they are liquid, the concentration is far better than the aura of the air. Although it is not as portable as Lingshi, the absorption speed is far better than Lingshi.

Shen Lang is coming in to find opportunities. This is a chance to replenish with Lingquan. I hope to spend two days and two nights to break through the third weight of "Yin and Yang Bo Ruozhen".

Because of the limited time available here, he must speed up and return to the same speed.

Xie's map is still very simple, and the distance is too big, there is no positioning, a little deviation, and may have been biased in the end. Shen Lang must also be constantly calibrated according to the map and recalling the memory of the long time.

This is the case, and it is only at five or six in the afternoon before arriving at the destination. This is a place I have been to. Although it is a long time ago, it is still a bit of an impression. After searching for a few times, I came to where Lingquan is.

It is said that Lingquan is not a flowing spring. Instead, there is a small pool in a cave. Because the rate of seepage is too slow, it may be a drop in a day, so if it is taken, the pool will be full for thousands of years.

Once again, I came to this place that I had been here for a long time, and Shen Lang could not help but succeed. This is not like a world, but a real one. He did not expect to be here.

When the last world came here His repairs were not high enough, and the Lingquan here helped him a lot. Now come here again, let him be very grateful for this Lingquan, it is very good.

Between the dense vegetation, Shen Lang found the entrance to the cave.

Going inside, the light immediately dimmed, he turned on the charging light and went on. This cave is not long and will soon be inside.

When I was in the last world, I was still lacking in my experience and it was a mistake. Now it is different. When I came in, I found out that this is a very good place. It should have been a cave house where a great power can be opened up!

Furthermore, the origin of this spiritual spring can also be speculated. It is not a true natural spring, but the power of the great spirits is arranged, and the rich aura is collected into this small pool and preserved in a liquefied state.

Not yet in the past, the small pool, Shen Lang saw a plant in the cave – the first Yangshen!

This discovery makes the waves clear without words. Is the temple above the map just a scorpion, and the real purpose of the annotation is this cave? This is the millennial first ginseng discovered by Xie's predecessors decades ago?
