Chapter 212 - 2 programs

When I heard the rain, Shen Lang suddenly reacted.

Just now, his embarrassment, just because the two beautiful women drank his “bathing water”, now realizes that he is not wearing clothes.

He immediately jumped back into the pool and soaked himself in the water, just showing a head.

“Oh, I am not going to scare you, because I don’t wear clothes, so it doesn’t look good.”

Seeing him into the water, falling rain, put down his hand, and then looked around: “What about your clothes?”

The voice is also looking at him with suspicion. “You are the one who came home with Xie, you know? Why are you here? Are you being lighted?”

For their doubts, Shen Lang still smiled a little awkwardly.

“There is a cave nearby, my clothes are inside. It is not convenient to talk like this. I also asked the two to turn around. I went back and changed my clothes.”

The rain fell and raised his eyebrows and turned around.

The voice is still skeptical: “What do we do if we turn around and attack us?”

“Do not worry! Sister, he will not, he is my classmate.” Rain fell whispered.

“Well? Classmates?” The voice looked at Shen Lang and then turned around.

Shen Lang immediately leaped from the water and ran away.

Back in the cave, he quickly put the clothes on, and then took out the food and water from the storage ring.

When he got out of the cave, they both came over. Just a little while, Rain has already explained her and Shen Lang's understanding with a simple voice.

"Sorry again, I heard what you said, there is something to eat and drink here."

Shen Lang first handed a bottle of water to the past.

"Thank you." I took the water, and the rain fell silently, and the voice was a blind eye.

Anyway, the water is already drinking, and at this time vomiting, it is also through the mouth. Compared with the water that has bubbled the body, it is only the living person inside, and the acceptance is good.

"Go in and say it." The voice pointed to the inside.

"This is my sister, voice. We are... you already know, disciple of the Tianshan Ice Palace." When I went in, I fell into the rain and introduced it to Shen Lang.

After entering, they observed the cave and asked about it.

"You stayed here last night? Why did you go to the water pool just now?"

Shen Lang shrugged: "I can have a cave, it is better than the outside of Lulu. As for the light out, I didn't think there would be people here. I am afraid of dew, just a set of clothes."

This explanation allowed the voice to accept, but she still stared at Shen Lang.

"There is nothing to ask, because of the rainy relationship, I can't be hostile or malicious to you like everyone else." Shen Lang is very calm.

The voice smiled slightly: "Of course, I believe, or else we will leave, or else we will not drink your water."

This is a big truth. Come here and step by step, and the food and water that others have kindly handed over will not dare to drink. She doesn't know Shen Lang. This trust comes from the guarantee of falling rain.

"Haitian Town and the people of the Tamar are together. They are following us. We can't stay here, or we'll be found, it's a slap in the middle. Are you going with us?"

Although the voice is a sister, but the relationship between her and her, has not yet reached the point of absolute obedience, so she directly said the problem at hand.

The voice looked at her and looked at Shen Lang. She did not refuse to invite Shen Lang to discuss with her.

"I heard what you said before. They not only robbed your food, but also chased you all night. It should not be too far apart."

Shen Lang said that he also analyzed it in his mind.

The 18 people who came in here had the most Chu family, but the four had already died three, and Chu Yunfei was also the dog of the family. Xie Jia, Xuan Lingzong and Haitian Town each have three, Xie's own two are also hanging at this time, and one is Shen Lang.

In other words, there are only 13 people, and the largest number is Xuan Lingzong and Haitian Town. Listening to what they said, the one who stepped the horse was also with Haitian Town. They had four people.

Liu Jia and Tianshan Ice Palace are two people. Under such circumstances, any party can add an ally, which can affect the situation.

"So it is not appropriate to stay here for a long time, we still have to continue." Raining nodded, they also understand this, if not looking for water, they will not come here.

"What do you think?" asked the voice directly.

She doesn't know about Shen Lang, but she needs allies, even unfamiliar allies. If they have three people, even if Haitian Town and the Tamar are coming, they will not be under the pressure of the previous one.

Shen Lang said slowly: "There is no meaning to avoid. We only have three days. Now it is a day, and we can't spend time with them."

"What do you mean...?" Rain asked and asked.

"Two programs, one is with me. You don't have to worry about meeting them. They have to look at it. This is of course the safest, but with you, it may be inconvenient..."

After Shen Lang had not finished, the voice snorted: "Thinking more, you have just seen the picture of the whole fruit, what is inconvenient?"

"Oh... I am not talking about this. Your sects must be arranged for you. I may not be suitable with you, right? Right?"

Shen Lang said this, neither of them spoke.

This is a costly purchase. In addition to the exercise of the disciples, I hope to bring back some resources. This is a source of contribution for the sects.

To put it bluntly, if Shen Lang is with them, what kind of treasure is it, do you want to separate him? If there is only one elixir, how do you divide it? If you find a deposit that can be slowly mined for a long time, how do you divide it?

"Another plan?" asked Rainy.

"That is, I will lead them away you do your business." Shen Lang himself is actually more inclined to this.

Although his purpose has been achieved, but for a trip, you can do more resources. A person is free and unconstrained. Besides, they will worry about giving things to him. He can actually gain more!

It is not an alliance, it is to take care of them!

“No! This way you are in danger.” The rain fell and shook his head.

The voice hesitated a moment: “It is not impossible. It is said that ... you are very powerful, the people of Chu family are overcast, and the people of Xie’s family are also pitted. It is no problem to protect themselves.”

In one sentence, it is clear that the relationship is different. The rain is considered to be his safety. The voice is considered to be most beneficial to them.

“Oh? Where did you hear about it?” Shen Lang did not deny it, but faintly asked.

The voice did not hide: “The people in Haitian Town said that they said that they saw Chu Yunfei of the Chu family. Chu Yunfei personally said that Xie Jia led the wolf into the room and asked all of us to be careful.”
