

First Strong 221

Chapter 221 - Powerful beast

The “Phantom Meteor Step” was performed, and the speed of Shen Lang was only slightly slower than this mysterious power, mainly the gap between the realms.

At the moment, it followed the past, which was a little slower to arrive at the scene.

The night has already darkened, but the basics can still be seen clearly.

Near the wooden house built by the man, there was a change at the moment, and the trees fell down!

The mysterious powerhouse is standing next to it, staring at the fallen trees.

Shen Lang fixed his eyes and saw a cave hidden there! Not observed before, there are trees blocking the door.

These trees are not so tall, and compared to these towering trees that do not know for thousands of years, they may only be several decades old.

The concern of Shen Lang also fell in the cave. The stay time was very short. Now I feel it. In the cave, there should be a powerful beast!

He suddenly understood, dare to love this mysterious strong, is here to guard this beast!

Just driving him away, it's not that he is afraid to ***** it, but he is afraid that he will disturb the beast!

This discovery also surprised him again.

If they are like the entrance to Death Valley, if the transfer is over 20 years old, isn't this the one who has come in and has not gone out?

Look at the age of his face, if this is the case, at least live in this forest for twenty or thirty years!

But this is not a problem. As a comprehension, the dependence on the grain of meat is greatly reduced. This forest is so vast, as long as there is time, there is no problem in finding water.

In addition, wild fruit beasts can be fruitful. Not to mention a lot of elixir, the beast.

To live here for decades, the biggest problem is not food, but loneliness!

But this person looks like a foreigner, identity is still a fan...

“Roar-!”

With a violent scream, a figure came out of the cave.

This is an animal that is bigger than the lion and tiger. The image looks like a dog. The eyes are dim and sparkle with yellow light.

With the barking, it is also staring at the mysterious powerhouse in front.

It seems that the fallen tree is the one that the mysterious powerhouse has just broken. The purpose is to find the giant dog.

“do not come!”

When Shen Lang was trying to get close to the past, he heard the words of the man ringing, and the voice was still sharp.

Before they played for a thousand times, they didn't say anything. His man said a few words “rolling” at the beginning, and Shen Lang was constantly “returning.”

Hearing this, Shen Lang's heart was warm, and it was still out of protection for him, fearing that he would be hurt in the past.

This giant dog is a general beast. He has seen it in his previous life. The name is called the golden giant, and it is a famous beast. It is also very rare.

He spent a day in the dead forest today, and he also saw many beasts, but there is no gold giant level.

Look at this, this mysterious powerhouse is kept for a long time.

“Roar!”

After one person and one beast looked at each other for a while, the golden giant screamed again, and the fierce breath directly forced it to the side of Shen Lang.

At this time, the golden giant smashed out from the cave and directly rushed to the mysterious powerhouse!

It's also lightning fast, and the claws are very sharp.

Shen Lang once saw the golden giants confronting people, and the claws can directly shred the people who have cultivated themselves!

The life of this golden giant is estimated to be one or two hundred years, and it is the peak period.

The mysterious powerhouse, while the golden giant rushed over, also flashed quickly, directly to its back!

Shen Lang faint smile, it seems that he wants to surrender this golden giant. Is it to be a mount?

The golden giant scorpion twisted his body in the air, and his mouth quickly bit the past on the person, and the sharp teeth flashed cold.

The mysterious strong man quickly kicked a kick on the back of the golden giant, and took the opportunity to fly higher.

“Roar!”

The golden giant who was kicked out of the ground made a roar, and looked up at the mysterious powerhouse in the air, directly squirting a fireball!

The mysterious strongman made a quick turn and stepped on a tree next to it, approaching the golden giant.

The golden giant has wisdom, and after discovering that this human speed is not slow, it has been changed into a continuous fireball attack!

For a time, the mysterious strongman was forced to the left and right, and there were trees that were hit by fireballs and burned in many places.

Shen Lang looked a little frowning, although the gold giant is very strong, fast and powerful, the claws are sharp weapons, and there is a natural fireball attack. But the mysterious strongman said that this should not be the case, it seems that he is quite a bit afraid of the flame?

Soon the man has re-approached the gold python, but the next two attacks are nothing to it.

So the battle of one person and one beast was deadlocked. The golden giant wanted to tear the person away, but the fireball was not attacked, and people could not catch it. It is also difficult for the mysterious power to knock down the golden giant to surrender.

After watching it for a while, Shen Lang began to move around.

His excitement has not been calmed down yet, and it is a refreshing thing to fight with a fierce beast like the golden giant. The man can dodge, and he has confidence that he will not be shredded.

When he did it, he quickly reached the side of the cave. No sword appeared in his hand, and he swung quickly. He instantly cut off the trees that had just fallen, leaving the tree branches, leaving only the trunk.

“let me help you!”

“Retreat!”

“Play a dog with a stick!”

Shen Lang ignored his swearing, put away the sword, and directly grabbed the “stick” of the thickness of the washbasin, and slammed into the golden giant!

The length of the trunk, so that he does not need to be close to the golden giant python, but for the gold giant squirting a fireball over, did not pay attention, the trunk is on fire, does not affect his attack!

“Hey-!”

The golden giant python was smashed into the body with a fire trunk directly swept out a dozen meters away.

Its eyes immediately stared at the side of the waves, and then rushed straight to him like lightning!

Shen Lang has a “big whisker dragon like a magical power”, waving such a large trunk is as easy as a stick. One step ahead, poke directly to the belly of the golden giant!

At this time, I saw the golden giant scorpion paws, and actually fell on the trunk, and then quickly climbed along the trunk!

by! Shen Lang did not expect it to react so quickly, even climbed.

In this way, the trunk is not only without the effect of “dogs” across the distance, but rather the channel that allows the golden giants to quickly come over. He can only use his hand to throw the trunk into the air.

When the trunk was thrown up, the golden giant had already passed most of the time. Of course, he would not be overturned in the air, and he would become a condescending man and directly rush to the sinking waves!

Its claws and teeth in the limbs can already block a large area and open its mouth. If he flees, spray a fireball directly!
