

First Strong 225

Chapter 225 - Dracula's gift

Shen Lang recalled, there are indeed a few doubts!

The first is the gold giant fireball attack, so that Count Dracula is a bit tied, he is not afraid of fire, but the feeling of instinct.

The second one is the sparkling stone in the cave. It is really fearful, so he dare not go in!

Why didn't you attack when the golden giant evolved, why should you wait for it to wake up and lead it out. The key to so many of these moves is the fire spar!

In the end, Dracula would rush in, probably because he had included the spar in the storage ring.

This is a little weird, but it can be understood if it is linked to the legend that the vampire can't see the sun.

"You are jealous of the flames, and you are more jealous of the stone in the cave. But why do you want to **** its blood? It will not affect you indirectly?" Shen Lang asked.

Count Dracula nodded, and Shen Lang really guessed the key.

"I came in here, I don't know how long it has been. It may be years, ten years, or even longer. I was looking for a beast like the Hells, and I didn't expect to see this..."

"Golden giants."

"Golden giants?" Dracula continued to say, "Even if you haven't tasted it, it has a fatal appeal to me. I can feel it, sucking its blood and curing my fault!"

Shen Lang silently analyzed the problem. He said that there are three kinds of problems. One is the old disease left by the strong man in the past; the other is the defect of practicing the exercises.

The last one is based on the vampire legend. It is said that the vampire can turn the bite into a vampire after biting!

This is the same as the zombies in the movie, and the last zombies are generally set as the host of virus transmission control.

If he needs to cultivate himself like an oriental monk, it may be the second case. If there were other vampires at the beginning and turned him into a vampire, it might be the same “virus” defect.

Shen Lang is more inclined to the second, because there are some yin and cold exercises in the East, which will ruin the body and hurt the body. It needs a very yang medicine to guide, and blood can be considered as one of them!

“It has the stone in the cave, not only to make me jealous, but also because I think it will work better for me after it has been strengthened and strengthened!”

This further confirms the speculation of Shen Lang, the pure elemental energy of the cryolite makes Dracula frightened, but the golden giant can absorb the energy. After it absorbs and converts it, he can absorb the blood of it, and it can withstand it, and the effect is better.

These three kinds may be subdivisions, and in general, they are all a situation, that is, the physical problems that Dracula said.

“You have already drained its blood now, can you fix your problem?”

“Not bad!” Dracula said with confidence.

“The stone in the cave needs to be given to you? After all, this is something you have guarded for a long time.”

Things have already entered the hands of Shen Lang, he really does not want to come out. But Count Dracula is now stronger than him, and if he doesn't, he may even **** his ring.

Although it may not be killed, it does not want to get to that point.

“No, I can’t stand it.” Count Dracula shook his head directly, then pointed to the golden giant on the ground: “My purpose has been achieved, it has no effect on me. What is the bone marrow? value.”

“Give me all? How do you feel so good?”

Shen Lang is really a bit embarrassed, although he just helped, but this is a reward for his dedication to Dracula before, after all, he does not like owing to humanity.

This time Dracula sucked up the blood of the golden giant python and has achieved its goal. And he got a piece of fire spar, which is also a huge gain.

“Hold! I don’t need these!” Dracula said in a tough tone, then hesitated.

“Well, I am welcome.” Shen Lang had to promise.

“You helped me, met one, and it was my friend. I will send you a drop of blood!”

It turned out that this is where he hesitated!

A drop of black and red blood that did not scatter appeared in his palm, and then directly gave Shen Lang.

“If necessary, you can save a life, but it is a price to pay... In addition, if you have a hard time, burn it. I can sense it within a certain range, maybe I can come and save you once.”

Shen Lang reached out and then sighed: “You will be a little uncomfortable with you.”

“Ok?”

“Should the vampire be inhumane? We met each other and didn’t ***** me up, but instead took care of it.” Shen Lang expressed gratitude in a joke.

Count Dracula dismissively said: "I am acting in the Earl of Dracula, and I have to follow the concept of the world. I am not good at it, there is no reason to kill it directly! I look at the eye, let him be rich. One word!"

"Yes, this is the style that an old ghost who has lived for hundreds of years should have. I want to learn from you!"

Shen Lang said that the truth is true. He is a human being. Although it is a fusion of people, sometimes there are still some entanglements of conflicts of ideas. It is necessary to learn from such an old blame.

But when the Earl of Dracula heard it, the young man forced it.

"In other words, are the vampire novels and movies that are your main character made by the people you arranged? Or do you think that if you don't paint well, will you kill the author and the director?"

A wave of gossip in Shen Lang, let Count Dracula directly eyes.

"Do not bother me!"

When he finished this sentence, he had already sneaked into the wooden house.

Shen Lang understands so many gold giants' blood goes in, this is beginning to work, Dracula is going to refine these blood refining.

Of course, this process cannot be disturbed. It is best to help someone protect the law.

He had to spend the night near tonight, and of course he would not leave, helping to keep one night.

The golden giant is still there, this is already for him. For this level of beasts, most of the body is baby!

The Count of Dracula is not rare, the blood is especially precious to him, he has got the best. It's been hundreds of years, and he doesn't know how many treasures of wealth he has accumulated.

And he may be another form of evolution, unlike the practice of the East, the other aids have no effect on him, naturally these are tasteless.

Shen Lang is also welcome, and directly began to divide with the sword. The first thing to dig is the most important one – Nedan!

The spirit beast also needs to reach a certain level in order to condense the inner dan, which is the source of their abilities, contains very powerful energy, and has great help to the monks!
