

First Strong 227

Chapter 227 - Time trap

Shen Lang was a little helpless.

He is faster than others, and others should be more tired today. I thought that I came back one hour earlier, enough to ambush, I didn't expect anyone else to advance.

Still not experienced enough!

These family sects can all come in and don't know how many times. There is a complete plan, and each time it will be corrected according to the actual situation.

Everyone has already arrived at the transfer point. He wants to kill Chu Yunfei, it is not so convenient.

The Shenlang will not be hidden any more, and it will go straight ahead and appear outside the transmission point.

"Everyone is coming back very early."

Shen Lang glanced at it, and all of them came back to the center of the transmission array.

It is estimated that in addition to waiting for the transmission array to open, together in the most central, it is also avoided to be attacked by other people.

It is dangerous to drop the order at this time.

At first glance, I saw both the rain and the voice, and Shen Lang was relieved. Whether they get the snow Linguo, he doesn't care, he can go back alive.

After a few more details, in addition to the two of them, Chu Yunfei, Ma Yansong, who erased his memory, is also in the Xuan Lingzong and Liu family.

There are two Xie family, three Chu family, and three Haitian towns. Apart from the eight that Shen Lang himself killed, they have not lost any more.

In fact, it is normal. The biggest ambition of this time was the Chu family. After killing three, Chu Yunfei became the dog of the family.

There is also the Haitian Town that has come to the horse to send horses to the rock. In addition to them, everyone else is conservative and relatively safer.

“come here quickly!”

“It’s quite early! Just waiting for you! I am leaving soon!”

In addition to the rain and hurriedly calling him, the voice was also screaming with anger.

In fact, in addition to the Xie Jia and Chu family five people can confirm that the first day was killed by Shen Lang, Hai Tianzhen three people do not know.

Even the Tianshan Ice Palace is not clear. They just asked Ma Yansong, but they found that Ma Yansong was inexplicable. If there were other situations, there would be no more questions.

The two of them do not care about the whereabouts of Hairui Hairui, they are better, and the worry is Shenlang.

Now that I see Shen Lang coming back, I am relieved. It doesn’t matter if Haitian Town can’t catch up.

“Isn’t it just six o’clock?” Shen Lang walked over.

Another hour, he did not worry at all. For the anxiety of the two of them, the guess was that there was pressure between Chu Yunfei and they needed more than one of his allies.

“It’s six o’clock now!” Rain said, helplessly.

“Are you wearing a watch? No time concept!” The voice was straightforward.

“Six o’clock?” Shen Lang glanced, and looked at the watch involuntarily. No matter whether it is an electronic watch or a pointer watch, it is impossible to regard six points as five points!

“Look at the hidden weapon! Shen Lang, you are going to die!”

When he saw Shen Lang coming back, Chu Yunfei, who was sullen, looked at his watch and waved his hand and directly pulled out the same object.

“Be careful!”

“what are you doing?!”

The rain and the voices were hurriedly called.

The voices of their speeches are actually mixed together. I just found out that he shot, and when they fell, they called out.

Shen Lang only looked at the watch a little, and for the attack of Chu Yunfei’s hidden weapon, he sneered at it, did not put it in his heart, and directly reached out and grabbed it!

Whether it is a poisonous or very sharp weapon, he can grab it by a few inches!

At this time, he found that it was wrong. Chu Yunfei threw it at his side. It was not a vandalism weapon, but a paper-like thing. When he was controlled by him, it immediately changed.

In an instant, the “paper group” spread rapidly, turned into a whirlwind, wrapped up the Shenlang directly, and then quickly swept out to the distance!

The one-time magic weapon that Chu Yunfei fled before!

When Shen Lang knew it, Chu Yunfei didn’t want to use the hidden weapon. It was very clear that he could not hurt him. It was the magic weapon he used to escape.

This time the goal is to sink the waves, not to escape to the distance, but to send the waves to the distance!

On the first day, Shen Lang saw it. This thing can only be regarded as a one-time magic weapon. Although it is fast enough, it is estimated that he will send him out for dozens of miles.

What is the significance?

Combined with the rain, they said that it is now six o'clock, it highlights the meaning!

After sending it out for a few miles, he can still return, just delaying his time.

But if it is not five points now, but six points, it means that the transmission will be opened soon, and there will be no time to come back!

Xie Xun gave them three people's watches look the same, but just like the other Xie Tongwen prepared a walkie-talkie, in fact, the waves are still different.

They didn't slow down for an hour, but the modified watch, and it took an hour to slow down in three days!

An hour is amazing, but after careful calculation, every minute is only one second less, one hour less than one minute. In the strange forest of death, there is no reference object that can be seen everywhere in modern society. The difference between seconds and seconds is really not. Will be aware.

It is no wonder that it is necessary to collect mobile phones. Unfortunately, Shen Lang also feels that the mobile phone with no signal in the forest is a burden, and he has earned the storage ring.

I didn't expect the other party to even make a ghost!

This is preparation. If it is not successful, use the time difference to trap him in the forest of death.

If Shen Lang does not return in advance, but returns at six o'clock... then the transmission array has left and closed!

When the whirlwind wrapped him and quickly flew back, the shocking Shenlang also responded quickly, reaching out to the whirlwind and grabbing the trunk of a tree passing by!

He used the “Da Shou Mi Long Xiang Shen Gong”, which caught the palm of his hand directly into the trunk. And this can only stop the speed, it is difficult to stop.

So his hand was hooked hard, the rotation was adducted, the body was followed by the fit, with the arm as the fulcrum, letting the body turn around the trunk for 180 degrees!

Then I took off my hand and let the cyclone fly with him.

In this way, the power of the one-time magic weapon will send him back to the transmission array here!

Shen Lang also cooperated with the sinking down, letting himself stop at the transmission array.

When he returned, he had already seen the situation ahead.

The transmission array is outside the Death Valley in the control open, so several people in Haitian Town will not come back, no one will control, Shen Lang is in front of you, no one will know.

When the time is up, the outside has been reopened, and a group of people in the center of the transmission array will be sent back to Death Valley!

So Shen Lang was watching that a group of people disappeared instantly. When the rain fell, he saw that he had returned. He had reached out and tried to catch him, and then disappeared...

Nothing! It's a little late!

Shen Lang is not desperate, because when it comes, it is entered in batches, which means that the transmission array can last for a while!
