

## First Strong 235

### Chapter 235 - Revenge plan

Yue Zhennan did not know where Shen Lang went. After he came out, in addition to knowing what happened to Shen Langjia and their own family, they also inquired about the whereabouts of Shen Lang.

Just in his capacity, he could not reach a relatively high level at all, but he only heard a little bit of information from the people who participated in the Super Wu Heroes.

In the circulated information, Shen Lang has disappeared, and did not appear on the Chu family as scheduled, and Chu family did not pursue anything.

But basically everyone's own analysis is that Shen Lang should be killed by the Chu family!

Not to mention the Pingxi side, I know that the Yue family was tired by the Shen Lang. It was the Chu family who had done their own two comprehension and then suppressed it with other families.

Yuejia knows that Shenlang's parents' factory, although the investigation on the bright side is a fire accident, is likely to be Chu's shot.

But Yue Gang has no way. What he can do is to maintain the Yue family as much as possible, and the business and other businesses have been robbed. There are still opportunities to make a comeback. Only people can't be eliminated!

Therefore, Yue Zhennan's older brother Yue Zhendong was asked not to return to China, and he was absolutely understated in overseas.

After Yue Zhennan went back, he was asked by Yue Gang to continue to hide. After a few years of winds, he came back!

The condolences of the students were due to the spread of the parents of Shen Lang. After contacting him, he was also worried about what happened to him.

But then there was no news. Everyone went to college, and basically there was no information.

In addition to these, there is Zheng Yumeng's message, probably the channel of Zheng Yuqing heard, she did not believe that Shen Lang will be killed by the Chu family, and no matter what, she will be crazy cultivation, will one day come back for Shen Lang revenge!

There is also a message, just a message, it is raining.

Because there is only one, the fastest time to collect, so squeezed to the bottom, Shen Lang saw the last to see.

The information about the rain fell after they returned from Death Valley. She said that she had waited for two days in Death Valley and had to wait until Shen Lang came out again.

She said that she would try to collect the Lingshi as much as possible. Once it is enough, she will try to go to Death Valley to open the transmission array and pick up the Shenlang.

She also knew that such a message would not be seen, and she might not be talking about herself at the time.

In the end, she said that she didn't know how long Shen Lang would be sleepy. In order to keep his mobile phone still open, he saved a deposit of 10,000 yuan in his number.

At this point, Shen Lang realized that the mobile phone card did not stop, and it was because of the rain and helping him pay the phone bill.

Looking at this information, let Shen Lang know about the past year and a half — mainly what happened half a month after he left the dead forest.

His heart was filled with anger, and there was an urge to ruin the whole house!

However, the one-and-a-half-year-old sorrowful loneliness has greatly tempered his heart and the integration of his previous life has reached a new level.

He is completely in control, and there is no meaning in chaos!

Parents are dead!

This is a fact that cannot be changed unless he can reverse time and space.

Now it is meaning that he immediately rushed back to Pingxi City.

He is now in contact with the rainy Yuyue Town South, and it makes no sense.

In the eyes of the seven sects at the time, he was left behind in the dead forest, and he probably died in it. So now he is out, but the ghost of the person in the dark, this can facilitate his revenge!

At that time, in the dead forest, not only did the Chu family kill him, but Xie Tongwen and Xie Yunlin also killed.

The death of three people in Haitian Town, only the rain and the voice can guess, they should not be betrayed. But Xie's family is a conspirators of the Chu family, and Chu Yunfei will certainly add fuel!

Therefore, in Yue Zhennan's view, his parents were killed by the Chu family, but in fact, Xie Jia also had great suspicions.

Originally, Xie Jia cooperated with the Chu family to trick him into the dead forest. He would retaliate. Now the parents are killed by them, and it is even more impossible to let go!

As for the Chu family, it goes without saying.

The most direct revenge is to kill Xie and Chu!

But this is not the best practice. Chu Mofeng is the real person who lives in the real world. Xie has also the same level of old monsters as him. If you confront them first, you may not have the opportunity to take revenge.

He only has one life, he must be well grasped!

Parents have never had any good days in this life. Finally, he bought a factory, let them have their own business, and have a head, this has not been a few days, it has brought the killing!

It is estimated that the relatives and friends who have not gotten the money before, as well as the jealous neighbors, will be the sigh of gloating after their death!

Even if the two worlds are human beings, they think that the grace of their parents has not been reported, but they have been tired of themselves, and they have blocked Zhang Lang's heart.

He no longer sleeps, and begins to plan revenge!

He had not touched this level before, and he did not know enough about Xie Jiachu's family. If you can't listen to it, even if you can get rid of Chu Mofeng, or if you really want to get rid of Chu Yunfei, you must first know where people are!

If you want to know more about these giants, you must reach a circle with a high level of comprehension!

But before he started, he was ready to start small!

The cores of Xie and Chu are not easy to reach, but they are big and big, and there are still some that can be investigated.

Xie's first goal is Xie You!

The Chu family is ready to start from Tian Luning!

Even Xie You, I don't know it, but Tian Luning's people are in Pingxi City.

And it is very obvious that for the suppression of the Yue family, it is very likely that Tian Luning is responsible! He knows about the situation in Pingxi City, and can do it without leaking water. He uses the local forces of Pingxi to start the Yue family and will not let the Chu family leave traces.

Of course, Yue Baichuan Yue Bailun's two comprehensions to the Yuanjing may be the Chu family arrange for people to shoot.

One night, Shen Lang was searching through the Internet and related to them. Some companies like them in the world can be queried.

Early the next morning, Shen Lang left the town.

He didn't go to a vehicle like the plane that needed to leave his identity information. When Xie Youyi booked him a ticket, he knew it. Of course, afterwards, it may not be Chu's understanding of airline information. It is directly revealed by Xie You.

But now he wants to kill the first in the dark, and then take the lead!

His bank card, etc., may also be monitored for concern, or Tian Luning directly uses the power influence to freeze.

It's hard to beat the waves. The clothes he bought in Pingxi were enough to wear, and there was a little cash in it. After taking a taxi to a nearby city, he chose a drugstore and was ready to sell something.

In the forest of death for one and a half years, a lot of harvests are available. Many elixir drugs are known for their use in the realm of cultivation, but they are also valued by the secular, such as ginseng for hundreds of years.
