

First Strong 239

Chapter 239 - Forced to ask

Tian Luning's people who came to this position along the way, the psychological quality is still very good. If he only threatened him, even if he pushed him down from the top of the mountain, he could still stand it.

But what he brought out now is his wife and children.

The wife didn't say it first, but the son could already inherit the incense. If he was killed, even if he could regenerate one, he would grow up and grow up.

"You should be very clear. You supported the Yue family at the beginning and pushed down the other factions. When the news of your death came, the other factions rebounded. We can't hold back!"

"The fire situation of your parents, the police investigation is an accidental fire, whether they have done their hands and feet, I can not guarantee. But the Yue family is suppressed by them, it is certain."

"But they are not fools. They use legal means to avoid risks. As for illegal means, they will not leave traces for the police to investigate, so even if we can guess, there is no way."

Tian Luning seems to have succumbed, and the confession of one to fifty.

But there is no doubt that he is telling lies!

Or it is a mixture of true and false.

For his parents' affairs, as well as the situation of Yuejia, Shen Lang certainly believes that Yuezhen Nanhui reported that Chu is the biggest black hand!

However, he himself still has a view that Xie Jia is probably also involved.

Now Tian Luning is pushing all of this to the local cultivating martial art of Ye Family, Daxuanmen, Linghequan, so that he is at most an inaction official, and he and the Chu family are not able to do anything.

Shen Lang lifted his foot and kicked a large stone to roll over.

“sit!”

Tian Luning was a bit flattered, but still doubtful, Shen Lang believes his words so much?

He just sat down carefully and found that Shen Lang had raised a large stone in front of him.

“How did I get rid of the Chu River that night, you are not there, but unfortunately, I will show you it today.”

When Shen Lang spoke, he directly smashed the stone on one of his knees!

“what—“

Tian Luning issued a scream of scream!

Where is the belief in him, where is the good heart to let him sit, this is to torture him!

“I was licking one of his knees first, oh... it seems to be this foot. It's been too long, I don't remember it. The second is the squatting foot, or another knee, I think...”

At that time, the Chu River could not resist screaming. It was because the Chu River was the strongest of the peak of the Yuan Dynasty, and Tian Luning was just an ordinary person. Under the light, he almost shocked him.

Originally, he couldn't hear anything at this time, but Shen Lang's self-talking words were clearly introduced into his ears, and he suddenly became shocked!

Now, this needless to say, one leg has been scrapped. But the disability is still different. The knee is decadent, and it is different from the ankle and the instep.

One leg is abolished, and it is different from the two legs...

“No, no, I said! I said-“

Tian Luning really couldn't accept the consequences of his own legs being crushed, and he also heard that Chuhe had already lost too much blood before he died. The Chu River is so deep, let alone him?

Now that it is not a problem of keeping your legs, but you want to live, you must solve the problem as soon as possible, and then you can go to the hospital.

“It's Chu! It's really Chu's instigation... but I can use my son Tian Jingwen to swear, your parents' affairs, I really know afterwards, →, the fastest update The latest chapter of the first strong!

Is it that they arrange people to do it, I am not sure! ”

“That's true, I don't lie. The Chu family instructed me to suppress the Yue family, let me encourage other martial arts to do it. Yue Baichuan they were killed by the Chu master, I really know so much.”

“I beg you, I am not a core important person. I am just a niece, and I am still an ordinary person. The Chu family's juniors look down on me. I have no role at all.”

In the fear of Tian Luning, a brain said everything he knew.

The reason why it is so fast, in addition to the pain of a leg smashed by Shen Lang, is also because the identity of two people is different.

Shen Lang is a self-cultivator. He is an ordinary person. Therefore, he subconsciously feels that surrendering to the comprehension is not a shame. Even if the Chu family asks questions, he can respond.

I am just an ordinary person, what can I do?

“You said this, I know, it has no value to me.” Shen Lang held the stone and aimed it at the top of his foot.

Tian Luning almost suffocated and you know that I still ask me a fart! Is this not playing me?

But he didn't dare to come out, he could only cry and screamed and asked: “What do you want to know? I know everything!”

“What I want to know is the Chu family's information, all aspects of information.”

“This...” Tian Luning could not help but hesitate.

Just being forced to ask, he can spit it out, because it can all be guessed. He can say that he can't stand it. He can also argue that Shen Lang himself guessed it.

But now this is the information that directly asks the Chu family, that is, it can't be guessed, and Pingxi can't find it here. It's really deliberately betrayed!

He hesitated for a few seconds, and the stone in the hands of Shen Lang collapsed!

From the ankle to the sole of the foot, it was completely deformed!

Tian Luning rolled his eyes and directly stunned the past.

He is an ordinary person, can not withstand such pain, the body's protective mechanism, let him stun shock to avoid collapse.

Shen Lang reached out and poked at his head. He injected a little bit of energy and reactivated him.

When I woke up, I felt the unbearable pain, and Tian Luning almost fainted in the past. The slightest energy of Shen Lang was to help him to support him, so that he could not avoid the pain through coma.

“You, you...” Tian Luning could not speak.

“You have three seconds.”

“I...you have the ability to find Chu family! As a self-cultivator, you bully me an ordinary person, what kind of skill?” The pain is about to collapse crazy Tian Luning could not help but screamed.

Shen Lang was politely smashed again, and another leg was immediately scrapped!

“...”

Tian Luning was so painful that he couldn't speak. He already understands that it's hard to use it with Shen Lang's hard work.

“I said... you have to send me to the hospital right away!” The two legs were scrapped. If you don't send the hospital right away, people will be finished!

“I have to listen to the answer first, three -! two -“

Tian Luning couldn't help but sneak a sigh, but it can't be hard, it's hard and hard to eat.

At this moment, his life was pinched, and he could only tell the situation of the Chu family he knew.

“I know what I know... If there is a fake, let me die soon... send me to...”

Tian Luning has not finished, he saw the stone smashed over, this time is his head!
