

First Strong 241

Chapter 241 - Killing the chain

Standing at the entrance of Yunzhou University, Shen Lang is a bit stunned.

If there was no such thing as last July, he should have returned home after a long journey, and then enter a university with the comfort of his parents.

He didn't have any obsession with going to college. He really went to college, and he rented a house outside to practice.

But this is the wish of his parents!

Now not only is this desire deprived, but even their lives are deprived!

Thinking of this, the anger immediately rose.

Shen Lang took a breath and let himself suppress it. He was ready to go in and inquire about Chu Yunfei's several situations.

Tian Luning only knows that they should be studying here, but it is not clear about the specific departmental profession. However, they are all coquettish brothers. Even if they don't know the Chu family in the realm of comprehension, they should know that they are from the Dachu Group.

It is not difficult to ask for their information, at most, to give some money.

What Shen Wang should pay attention to now is that you must try to get all three of them out at once, or else you can't continue to lurk.

He did not rush to find someone to ask, but used God's knowledge to investigate a wide range. See if there are any female students who are crazy about them, it will be easier to get started.

I didn't expect things to be so coincidental!

He has been inspected for a while, and he has mastered the conversations and chats of many students, and did not involve Chu Yunfei.

But at the end of the day, it was just a good discovery that Chu Yunfei and Chu Yuncheng and Chu Yuntian came out from the school!

They are not walking, they are in a luxury car.

Shen Lang will pay attention to them, it is found that there are comprehensions, pay more attention to it, did not expect that is actually the goal he is looking for!

This unexpected situation allowed him to lock the car immediately and prepare to track them to a place where there are few people to do it directly.

The three people in the car didn't talk, the expression was a bit serious, and it seemed that there was something.

Before the car came out, Shen Lang had already prepared in advance, kept a certain distance, locked it with the gods to prevent it from being lost, and then used the "Phantom Meteor Step" to track.

He is not only fast, but also very natural. Even in the streets of many people, others will only feel like a flash of people, or the person disappears in a blink of an eye, and he can't see his trace.

The car directly brought them to a factory. From the signboard at the door, it should be a factory of the Dachu Group.

Shen Lang has been following.

After parking, three people got off the train and quickly walked to a factory.

No drivers were on the side, they started talking in a low voice.

“The third time! It happened in these days, it is impossible to be such a coincidence, there must be someone who wants to engage us!”

“Yes! Let me catch it and see that I don’t kill him! I don’t dare to come to us, just look for some ordinary people, indicating that these levels are limited.”

The words of the two people in Chuyun Tianchu Yuncheng are all angry.

Chu Yunfei is still cold: “Look at the scene and say. Although the accident is now ordinary people, but all three are true Chu family! If someone is deliberate, the goal is clear!”

“It’s for us! Who do you guess?”

“Will it be Tiandong Xiejia? They always think that Xie Tongwen and Xie Yunlin are exhausted by us...”

“Don’t talk nonsense!”

The Shenlang gods perceive it and can’t help but be a little surprised.

Come here because of an accident here and someone is dead. And it is the third time in these days, although the dead are ordinary people, but they are all Chu family!

Of course, this ordinary person should say that they have not reached the return to the realm, and the level of the super-wu people should still be there.

This is actually the strategy of Shen Lang. One by one, the children of Chu’s family hunted and waited until the level of Chu Mofeng’s awareness. The following has already died. It doesn’t matter if you die two or two, they won’t care. It’s not the same when you die a lot.

But now it seems that the Chu family has been taken seriously!

When they spoke, they had already arrived at the scene inside the factory.

The scene has been blocked, and there is no tampering. The workers have left on holiday. Chu family probably wants to train their young people, so let Chu Yunfei take them both to check.

Several security guards were on the scene and saw them coming over. The captain immediately waved to let others leave, leaving him alone.

“The three sons came, Manager Chu... The scene looked like the organic oil on the ground slipped, just let the iron strip be inserted into the neck.” After the security captain said hello to them, he immediately introduced the situation.

“Playing a fart slippery! Lao Rui Shu Hao also has a super-wu four-segment, this slip, can make him unexpectedly killed? You brain damage!” Chu Yuncheng directly smashed.

“Cloud City!” Chu Yunfei snorted, and then appease the security captain said: “Captain Qi, Yuncheng is a little excited, you are your own, so you have no control, you don’t see.”

“I understand and understand, I am also very angry.” Captain Qi quickly said.

He is very clear about his identity. These three are not only the sons of the deaf, but also the self-cultivators who have come to the fore. It is the dead Chuhuan Rui, also the real Chu family.

However, he was a little bit afflicted with the Chu family and was treated as a cronies.

“I believe that before we came, you have already done things, is there any gain?” Chu Yunfei asked directly.

Captain Qi smiled bitterly: “No, the monitoring here was broken last night, and I haven’t had time to reinstall it. I have confirmed with all security guards and workers, and no one has seen suspicious people coming in.”

Chu Yunfei nodded: “You go out first!”

“Yes!” Captain Qi knows that someone has something to say, or what means is not convenient for him to see, just like he just dispelled other security guards, and quickly left.

“How do you think?” Chu Yunfei asked.

“What do you think? It must be someone who has been a ghost. I have planned it for a long time. I first broke the monitor, and then I killed the old Ruishu here.” Chu Yuncheng called.

“Do you find anything?” Chu Yuntian moved.

Chu Yunfei squats down Look carefully! This is not the first scene, and Rui Shu was brought here after being killed. It looks like the worker came over to the office when he was out of work for lunch. In fact, he was killed and moved here! ”

“I said that it would not be caused by skidding!”

“This iron bar is not accidentally inserted into the throat, it is more like... Swords! A sword wears a throat!” Chu Yunfei said while observing.

“Will there be fingerprints on the iron bars?”

“You can think of it, others can think of it.”

“No matter what, it proves one thing. These three are not accidents. Some people are actually targeting us!”

“Would you like to report it?” Chu Yuntian immediately asked.

Chu Yunfei stood up and sneered: “This is so small! We can deal with it. Let us look at it at home, it is to test us!”

“You said...” Chu Yuncheng suddenly observed it around: “Will the murderer stay at the scene waiting for us?”
