

First Strong 242

Chapter 242 - Are you a sinking wave?

Chu Yunfei immediately denied: "The murderer will not be so stupid! From the goal he chose, he wants to move us on the outside, and has no strength to face us. It is because of this that the family will let us come."

"What do we do?" Chu Yuncheng said with no anger. "Look at the body of Lao Rui's body like this, nothing can be done!"

The deceased Chu Huanrui is an uncle who is closer to his family, so his reaction is even bigger.

"No! We don't just want to act, but we must be fast, we can't let them kill the fourth, or the face of Chu will be lost! Their purpose will be reached!"

Chu Yunfei is not only stronger than the two of them, but also has a bigger picture!

He is only from the other side of the Chu family who can't cope with the return of the Yuan, guessing that the other party may want to play the face of the Chu family in this way. Although the wounds are broken, but the dead are all Chu family! Face is important!

"Who will their next target be?" Chu Yuncheng and Chu Yuntian are also nervous.

As far as the current goal is concerned, as long as it does not reach the goal, it is easy to become a target, because it is easy to start. Although they are strong, there are still some uncles who can't do it.

Chu Yunfei is not a ***** operator, he can only guess a direction. If you want to know who the next target is, you can only check and filter, which will be easier to become a target.

At this time, a sound sounded up.

"The next goal is three people."

“Three? How is it possible!”

Upon hearing this, Chu Yuncheng thought that the team leader who had just left had come over. After he blurted out, he wanted to blame the captain of the team so boldly that they dared to listen to them.

I didn't expect to look back, but a young man with long hair appeared at the door.

Chu Yunfei and Chu Yuntian also immediately looked over, are surprised who is so bold.

Then Chu Yunfei immediately woke up, three people! Are they not three people here?

“He is the murderer! He brought us over!”

He just called out this sentence and found that the other party had reached a very close distance and then saw the face.

I didn't think of Shenlang before because it was that he personally left Shen Lang in the dead forest. If he didn't open it again, he could never escape. It's very likely that he was already starved to death or was beasted. Swallowed.

In addition, the hair that sees the sun is now longer. Although it has not reached the level of the shawl, but the hair has not been cut for a year and a half, and the short hair of the original is also very different.

Now that I was close, I immediately recognized it. After all, it left him with a face that was unforgettable.

“you you you.....”

Chu Yunfei became like this, so that Chu Yuncheng and Chu Yuntian are a bit inexplicable.

Because the two of them just saw each other with Shen Lang, and it has been so long, it is not so clear.

“Several men lost, don’t you know that I am sinking?”

Shen Lang taunted the two idiots, Chu Yunfei has been scared like this, they can still understand ignorance.

“Shen Lang!” When they heard this, the two of them screamed and then they quickly guarded.

“How did you come out? You can actually come out! I am a little girl!”

After the horror of Chu Yunfei, he immediately recovered calmly and calmly.

“Small my price will be the same as your other cousins - die!”

The fear of Chu Yuncheng and Chu Yuntian is because they have had the experience of being directly stunned by Shen Lang, and later -->, the fastest update of the latest chapter of the first strong!

I also heard about Chu Yunfei’s description of adding oil and vinegar, so I was naturally afraid.

After Chu Yunfei came back, in order to show that he was not incompetent, of course, he tried to exaggerate the power of Shen Lang. He said that Shen Lang could easily kill six of them. If he did not use the magic weapon of escape, he would also hang it inside.

In fact, it is basically a fact. I think that the cousins who are better than them are all under the sway of the waves. Chu Yuncheng and others have also had a shadow. Fortunately, Shen Lang has been left behind in the dead forest.

Now they mention a few of their deaths, and they also evoke the hearts of their enemies.

“Shen Lang! When you don’t look at the three days, do you think we are still at the original level?”

“Tell you! Both of us have already broken through the peaks of the Yuan Dynasty! And Yunfei is now a strong man who is still in the virtual world. You can still let it go!”

Breaking through the peak of the return to the Yuan Dynasty, this shouted out, in fact, just to give yourself a courage.

Because a year and a half ago, when they were at the end of the Yuan Dynasty, they were stunned directly, and the Chu River, which has a strong peak and actual combat ability, was also killed by Shen Lang.

They have improved, and it is impossible for a wave to stand still for a year and a half!

The key to relying on, or Chu Yunfei who has reached the virtual state!

This is also the foundation that Chu Yunfei can calm down after the horror.

“Is it? It’s already in the virtual world. You still need to call for help?”

Shen Lang taunted a sentence, the hand lifted, and Chu Yunfei’s mobile phone, which was preparing to secretly call for help, sucked it and directly smashed it.

Was caught a current, let Chu Yunfei burst into a while.

“It turns out that you are still alive, but it doesn’t matter. I didn’t have enough strength to kill you at the beginning. I admit. Now you are coming to the door yourself. It seems that you are destined to die in my hands!”

Chu Yunfei looked solemn and solemn, and he opened his mouth to delay the time, secretly running, and secretly preparing a big spell that can only be displayed in a virtual environment.

“is it?”

Shen Lang raised his hand and directly took one hand and grabbed Chu Yuncheng and Chu Yuntian.

The two people in Chuyun City have already been on alert. When they see Shen Lang reaching out, they will immediately attack in advance. But I didn't expect the surrounding area to be enveloped by the powerful invisible power, so that the two of them could not move at all!

Oh! Depressed!

Originally, it has improved a realm and made them feel comfortable in the recent days. I did not expect that in the younger hands of Shen Lang, still can't move! Still caught directly!

"Go to death!"

Chu Yunfei grabbed this opportunity and pushed his hands forward!

This is the Chu family's "Tenglong technique" at least to reach the virtual environment can be displayed, the power is not the same.

With his violent screaming, a stunned general spirit is like a raptor, and quickly comes to the sinking waves, it seems to directly swallow people!

Shen Lang is a combination of both hands, directly blocking the body of Chu Yuncheng and Chu Yuntian!

"puff--"

After Tamron hit them, they couldn't stop them with their two bodies. They once again spit out a big mouthful of blood donation, and people quickly swollen.

"Hey, you are still so hot, killing the brothers, not at all soft!"

When Shen Lang satirized one sentence, he had already smashed both of them to Chu Yun in the past!

Chu Yunfei was able to ignore other brothers and allies in the dead forest that day, and now it is the same. When I found that Tamron did not hit the Shenlang, I knew that there would be no second chance, and then the body quickly flew back!
