

## First Strong 243

### Chapter 243 - Iron block

For Chu Yunfei only for his own character, Shen Lang has already experienced it, of course, will not let him succeed!

So when he threw two people out, he really used them as weapons to smash it in the past!

In his hands, he has already used the “Da Shou Mi Long Xiang Shen Gong”. The momentum of such a smashing out is not two people, but the power of two humanoid steels!

And because he is so powerful, they can't bear the two directly. At the moment they were thrown out, Chu Yuncheng and Chu Yuntian, who had been vomited by Tenglong, became seven bloodshed...

This is not finished yet. When he just threw the people out, the blood from the two of them also came to Shen Lang.

Shen Lang waved again, the two bloods, immediately became hail, chasing out faster than the speed of two people!

Since Shen Lang came over at the door, now Chu Yunfei's escape can only be withdrawn from the factory.

He will throw his two cousins, and he is also expected. For them, he has already been treated as a dead person. Will not spend the effort to save them, or to escape.

The result was just before the front, when I was about to turn to another direction, I felt the back was hit!

This made him unable to conceal it up – right! Are familiar routines!

The last time in the dead forest, Shen Lang kicked a large stone and threw it over. The result was a big movement to cover up the real bullet below.

That bullet was directly embedded in his back, but fortunately he had reached the peak of the return to the Yuan Dynasty. After he escaped, he forced the bullet out of the dressing and did not have a life.

Now it seems to repeat the day, he also runs away from the death and death of others, and Shen Lang is covered by two people, this is the real attack!

This time, what surprised him was that after hitting the back of his back, he didn't know what the ghost thing was. In addition to the stinging pain, he even penetrated into his body!

He is really afraid that this is a poisonous insect brought back by Shen Lang in the dead forest. It is better to be a warhead!

But this time he can't manage so much!

The last six people, together with the hot eagle attack of the Desert Eagle, did not kill the waves, but they killed them without leaving them. Let him understand that even if it breaks through the realm, it may not be able to make Shenlang.

Not to mention that Shen Lang is certainly not idle for a year and a half. As long as he has not been eaten by the beasts, he has not starved to death, the cultivation environment in the dead forest, and various resources, but it is much stronger than the outside!

In other words, he has upgraded to a level, and Shen Lang may have raised two levels and still have a fart!

He ran wildly, his ears could hear the sound of the two people colliding on the wall, but they didn't scream, it was estimated that they were dead before hitting the wall.

But he can't look back, he can only escape quickly!

Not far from the front is the door, as long as you go out, at least this environment will be more familiar than Shen Lang? If you go to a crowded shopping mall, you will be safe. Then you can grab a phone call and you will be able to take revenge as long as you come over!

His thoughts are very good, but when people have not arrived, they find a machine slammed into it!

He can not be afraid of a person, he can also ignore a stone, as long as it is faster.

But the size of the machine is very large, and it is all made of steel. When it is hit by the waves, it may really flatten his body!

Chu Yunfei is still quite capable, and it will fly directly. The machine that crashed into it crashed into the wall and crashed into the wall.

And he crossed an arc in the air and fell to the door.

“Go down!”

He has not yet fallen, and the body of Shen Lang has appeared in the air in front of him. He has already kicked his big foot to his door!

Chu Yunfei people in the air, but also under the defense, want to dodge too late, can only be →>, the fastest update of the latest section of the first strong!

Put your hands in front of you.

This time, I was not afraid of being kicked and licked, but my head was kicked!

The foot of Shen Lang is definitely not blocked by his arms. The body immediately fell from the air to the back. The drop was the machine he had just avoided.

The back spine and other places hit the steel, and the taste directly caused him to pout and \*\*\*\* the air.

And this time I can't think too much. I bite my teeth and turn around and rush towards the door!

The direction of the factory door is better, the door is open, there is no need to open the door, as long as he is fast enough, it is relatively safe to rush out.

Regardless of the back, he worked hard and made the fastest speed of his life!

Seeing that the gate is in front, he is almost a sprint, but...

Shen Lang will see him running away?

The speed of Shen Lang is what he can match?

Casting the “Phantom Meteor Step” of the Shen Lang, holding a big iron block from a machine, still one step faster than him, when he will arrive at the door, first arrive, then lifted the iron !

“Hey-!”

A loud noise, Chu Yunfei felt that the whole person was dizzy, he found a black shadow hit, and did not see what it was, the body flew out to the back, and then the front trunk pain into the bone marrow.

“Run!”

After an iron block flew Chu Yunfei, the Shenlang people followed it, and the big iron piece continued to take the second place!

Chu Yunfei’s body was once again hit by the impact and accelerated to fly backwards, and Shen Lang once again caught up, the third time he smashed down!

“Oh!”, Chu Yunfei’s body also hit the wall.

Next to him, the bodies of two people, Chu Yuncheng and Chu Yuntian, fell to the wall and died of bloodshed.

Chu Yunfei also vomited a large amount of blood, just after a continuous attack, he already understood what it is, so hard, only steel.

This makes him very depressed!

Everyone is a monk. How can you hold a piece of iron like this? Is this not bullying?

What is even more depressing is that he found that not only the bones were cut off, but also the internal organs were smashed and bleeding.

‘Yes...I am the first veteran monk who was killed by the iron block? ’

“You can’t kill me, this is in Yunzhou...” Chu Yunfei said reluctantly, reminding Shen Lang, this is the base camp of the Chu family!

Followed by the waves in front of him, his hands were loose, the iron fell and he smashed his multiple toes.

Chu Yunfei was sore and trembled...

“Leaving me in is also your skill; I can come out and find you revenge is also my skill.”

“...” Chu Yunfei can not refute, isn’t it?

A person can actually come out of the closed death forest, it is a skill! It’s a bad day!

“You kill my parents, and I still have dozens of innocent people. Can you kill hundreds of people?”

Chu Yun flew to this moment, knowing that he could not live, just had an addiction, and laughed: “Do you know that your parents are dead? Do you know what they were like when they died?”

“...” Shen Lang clenched his teeth and reached out and grabbed one of his arms and tore it straight away.

“They have become a barbecue! Hahaha... Do you like a few matures?” Chu Yunfei laughed madly, and he was numb.

“Come out!” Shen Lang fiercely turned back, he felt someone coming in from the door.

A figure came in from the door and quickly came over here. The mouth still said: “Let you down, Shenlang’s parents have not been burned!”
