

First Strong 251

Chapter 251 - Three battles

After they came up, they had already approached the Tiantai in three directions and did not give the opportunity to escape.

Even if Shen Lang can jump off the building directly, they can chase it right away.

Now that Shen Lang is talking, he immediately starts to act, and the target of the attack has chosen Chu domain!

It was learned that Shen Lang was the murderer of the murderer who killed their son, and Chu Quhai and Chu Yuwei both immediately attacked Shen Lang.

The two of them used the Chu family's stunts and dragons, but the power and the Chu Yuncheng they showed up, I don't know how much!

On the top of the rooftop, there was a small wind and a violent wind. The two men drove the dragons, and the spirit of the two came out like a substance. It was faintly visible that two white air swiftly swept to the waves!

And these two dragons seem to follow the missiles, and follow the movement of Shen Lang's body!

Chu Yunlong is in the center direction, he is a little slower, and he is not a dragon, but a sword is pulled out.

Their battles have obviously been negotiated. The two are stronger in Chu, and they form a suppression and encirclement of the enemy. Chu Yunlong is a key blow to the opportunity.

The target of the Shen Lang attack is the Chu domain, the counterattack of the Chu domain, and the "Tenglong" chased by Chu Yuwei, which can form a joint attack on him. Once successful, it will be greater than two separate attacks.

Chu Yunlong, who is also following, even if Shen Lang can avoid it, he will be filled with a sword.

The speed of their three shots is not fast enough, so the Shen Lang is faster than them! And in fact, Shen Lang is still the first to shoot. Even under the attack of three imaginary powerhouses, the first opportunity is still in his hands.

Chu domain is not his real goal!

When it was said that it was too late, when four people were moving, Shen Lang disappeared from the front of Chu's sea at an incredible speed, and slanted away from Chu Yunlong's sword.

The two "Tenglong" are closely following, but now it is the first to bear the brunt, not the Shenlang, but the Chu Yunlong who just attacked the failure!

The slanting flash of the slanting wave suddenly appeared a sword in his hand, and then quickly stabbed out!

Chu Yunlong was originally guarding the Shenlang from the side of the pinch, but did not expect that he did not escape helplessly, but the original plan came to his side.

So even if his sword is attacking, it is still a bit worse. The method of Shen Lang's body is even more unbelievable.

However, he is the best in the third generation of the Chu family. The experience in all aspects is also very rich. When he was flashed away, he immediately ignored the two "Tenglong" that followed in the past, and did not turn around. The sword swayed to the side of the slope!

The reaction was good and the speed was fast. Unfortunately, although Shen Lang wiped his side, the body leaned out to the outside. Therefore, his swaying sword is still lost.

The sword that Shen Lang stabbed was directly immersed in his ribs!

As he came to the front of the sword, Shen Lang continued to move forward, and the sword backhand went out to the top.

In the Chu area, the sea Chu domain was two, and it was discovered that the figure of Shen Lang disappeared, and the operation of the dragon was pursued. The head also turned.

Then, in the blink of an eye, they saw Chu Yunlong's blockage and defeat, and then saw Shen Lang's inexplicable sword, and then Chu Yunlong's quick reaction to the swing...

>, the fastest update to the latest chapter of the first strong!

/> At that moment, their hearts are full of expectations, Chu Yunlong's sword, should be able to slash on the head of Shen Lang!

Although the family is going to bring people back, but knowing that this enemy is a deep wave, they only want to kill and avenge their son!

Only a slight change, that is, the time of the brain transmitted by the eyes, there is another change. The Shen Lang is not only not smashed, but the first step into the rib of Chu Yunlong!

Then, they all clearly saw that Shen Lang had already passed the Chu Yunlong's side, but when he pulled out the sword that pierced the ribs, his wrist turned quickly and turned into a backhand, and the tip of the sword quickly turned. Chu Yunlong's arm is cut off!

Originally, they still have the strength of the late stage of the virtual world. They are able to control the Tenglong technique calmly. The two "Tenglong" spirits can be bypassed from the side of Chu Yunlong and continue to pursue Shen Lang.

After Chu Yunlong blocked the failure, he did not control whether the "Tenglong" in front would be accidentally injured, but immediately slashed the sword to the side of the sinking wave, just because he understood this.

I just saw this scene, so that the two people in Chu domain have been slightly affected. The dragon is in operation, and the reaction is a little slower, which leads to two substantial enthusiasm. Not enough, basically rubbing the body of Chu Yunlong.

Chu Yunlong is a little better on the left hand side, but the arm on the right hand side is stretched out and cut off. This wipes the impact of the exposed half of the arm directly, causing the blood of the broken arm to continue to spurt!

Of course, Shen Lang did not stop. After the sword was succeeded in the reverse hand, the others turned quickly, and the unskilled sword in the palm of the hand was thrown, and then shot behind the hilt!

At the same time, he quickly moved forward with his left hand and seized the head of Chu Yunlong!

Two Tenglong enthusiasm continued to pursue, and he turned to Chu Yunlong behind him, to hit him again, you need to change direction.

At this moment, Chu Yunlong had a certain influence on the state of the whole person because the ribs and the right arm were simultaneously bleeding. However, he remained calm. When Shen Lang reaches the rear, it will make him very passive.

So he immediately jumped forward and went!

It's a pity that it's still a slow step. When the body hasn't moved, it's got a huge force on it, and it's so hard that he can't move. The power from the top of the head made him have to fight all the way, or the neck would be broken.

Both Chu Shuhai and Chu Yuxiong have already turned around and quickly rushed to the nearest while continuing to use Tamron, but found that the cold light flashed, a long sword has arrived!

Chu domain does not take advantage of the dragon, and quickly put a hand to the front of the folder, while the body quickly leaned back to the back, with the support of the waist and legs, the upper body completely flattened back.

He reacted fast enough, his strength was fast enough, and he caught the sword in time. But as he expected, because of the speed and the length, it might still be inserted into his body.

Therefore, the back of this body, successfully avoided the tip of the sword.

At this time, Shen Lang's hand was forced to the side, directly grabbing Chu Yunlong's head and smashing it over Chu's body!

He himself quickly flew to the side of the Chu domain, grabbed the hilt of the sword, and quickly lifted it up!

The Chu domain is holding the sword with both hands. At this moment, the sinking wave raises the hilt in the back, and directly changes the direction of the sword. The sword tip that is almost parallel with his back is turned downward and directly tied. Into his chest!
