

## First Strong 252

Chapter 252 - Double click to kill

A sword shot with a strong strength of Shen Lang, the distance is only a few meters, how fast the speed, Chu domain can be caught in time, and back to avoid the stab wound of inertia, it is very rare.

However, he did not expect that he had just controlled Chu Yunlong's Shen Lang, and he would have abandoned Chu Yunlong and directly came to put him to death.

When the hilt was raised, he couldn't change anything like this, and he could only watch the tip of the sword.

Now his legs must be very strong and strong, in order to support the body of the center of gravity, and the hands can not rush out to attack the waves. As soon as you release your hands, the sword will pierce him!

However, in the end, he is still a strong man in the late stage of the virtual world. Being forced to this position is already underestimating the cause of Shen Lang. Of course, he will not be willing to admit defeat.

When the tip of the sword stabbed in, his feet quickly released, letting his body fall on the roof!

Because he gripped the center of the sword with his hands, Shen Lang grabbed the hilt and was basically fixed. He fell down and could not change the fact that the tip of the sword penetrated.

But after falling to the ground, his back was support, his legs were released, and he kicked straight into the body of Shen Lang!

At the same time, his hands are also filled with strong strength, hoping to directly shake the sword, so that only a little bit, will not threaten him.

In addition to the double action, he also has the third weight!

That is the gathering of gas against the smashing waves!

He erupted a piece of infuriating, two people so close distance, if sprayed on the face of Shen Lang, for the eyes and other facial features, still have a great lethality.

For him to be able to attack in three moments, Shen Lang is also a little appreciated, but he has to deal with three people. The more powerful the enemy, the less he can soften!

At the moment when the Chu domain fell, he pulled the hilt by a little angle and picked the half-inch tip of the sword that had just been pierced from the chest of the Chu domain. Then another hand is slamming on the hilt!

The sword that has not been slanted in front of the sword is a few inches in the past, not the chest, but the throat above it!

The throat was pierced, allowing Chu domain to instinctively loosen the gripped hands and want to grab the throat of the throat.

The sigh of relief was easy to avoid, and the foot did not have much strength. At this moment, his hand trembled, and the blade quickly turned a circle. It was originally a flat piercing, and immediately turned away. A blood hole!

When it was said that it was too late, the scene of the two people's events was actually only one second.

On the other side, Chu Yunfei was suddenly thrown out and there was no room for resistance. Chu Tianwei did not know how his condition was, nor could he directly go away. Instead, he quickly stopped the Dragon and stopped Chu Yunlong.

Looking at his broken arm that was still bleeding, he had already dyed a piece of ribs, and Chu Yuwei had to raise his hand to be rescued.

"Don't worry about me! Kill him!"

Chu Yunlong has realized this time, this Shen Lang is far more dangerous than imagined!

In the same year, one person in the death forest was able to single-handle six people in the Xiejiachu family, including gun weapons, which showed that they had the strength of being in a virtual environment.

In the one and a half years of the death forest, it will certainly be greatly improved. I don't know what other adventures come out, but it is even more powerful than the one he expected in the middle of the realm!

When he said this, Chu Tianwei also decisively turned to Shen Lang.

Then they all saw that the Chu domain sea throat was drilled out of a blood hole!

“Don't you dare—!”

Chu domain violently screamed, this is a blink of an eye —, the fastest update of the latest section of the first strong!

Shen Lang actually killed the Chu domain!

He was full of vitality, and all his clothes were swaying in the wind. Obviously, there was nothing to kill.

At this time, a figure flew from the bottom of the building, and once I saw this scene, I went directly to Chu Weiwei.

“Be careful!”

Chu Yunlong did not care about his own injuries, but under his serious injury, the attack on the front has no effect on Shen Lang, and he is more likely to become a hostage, so he is still waiting for the interest.

As soon as he found a more person, he immediately yelled.

But it is already late!

The figure that just appeared, at a fast speed, was quickly shot after the preparation of the full force of Chu Tianwei, but in an instant, Chu Shiwei was discouraged and stumbled directly!

The figure came from behind to the side of Shenlang. When Chu's body was in the body, he took a hand. Not waiting for Chu Yunlong to see clearly, it has already floated to the side of Shen Lang.

Desolation!

Shen Lang has just taken out the sword, just after some hands-on, and after killing the Chu domain, let him feel that the return to the Yuan Dynasty is not invincible, as long as the opportunity is created, the same can be killed.

Now Chu Yunlong is no longer a climate, and what is needed is a battle with Chu Yuwei.

At this time, he saw the wing of the desolate roof flying, and directly attacked Chu Weiwei as soon as he came up.

He is clear, and the desolation is a delicate sword trick, but she does not have a sword (the modern society does not carry it everyday), just like the Chu family who used to insert the chopsticks, now she is just a meal. Knife!

This is the "weapon" she used to take when she was eating dinner. However, she used to be a sword fairy, even if it was just a short knife, it also played a great effect.

Under her sneak attack from the back, almost every knife has worked. Under the infusion of vitality, even if it is just a knife, it also contains lethality. In addition to piercing, it also cuts the tendon from the leg bend, let Chu Weiwei, who was caught off guard, fell down.

And when she went to the side of Shenlang, the manual one was directly wiped Chu's neck!

Chu Shiwei Tangtang, a strong man in the late stage of the virtual world, is making a big move, and the result is so desolated with a knife to cut the throat!

“Is it all right?” Desperately asked about it, and then he had to take a closer look at the situation of Shen Lang.

Just now she was acting there, Shen Lang created opportunities for her, and dealt with the gunmen. She chased out pierced the neck of the Chu family with chopsticks in the air.

These sinking waves have been seen, so don't worry about her.

But she couldn't see the situation on the rooftop. After the fall, the Chu family was completely unrecognizable, and she immediately rushed over to the building. Because at the moment of flying out, she felt that there was a murder on the opposite side of the building!

When the bleak has not climbed to the rooftop, I already feel that there are at least two strong players in the late stage!

This made her very worried that Shen Lang couldn't cope with it, so when she came up, she didn't even have time to look at it and went directly to Chu Weiwei. And the speed is very fast, the knife is the most important, and finally the neck is directly wiped.

Waiting until this time, I discovered that Shen Lang has not only seriously injured one, but also has killed one before the moment she came up!

“Have you ever been a killer assassin?” Shen Lang extended his thumb and smiled and praised him.

Chu Yunlong also saw this point at a time. The figure of the ghostly attack is not exactly the “Zheng Yumeng” waiting tonight. How could she be so strong!
