

First Strong 254

Chapter 254 - Live strangle

Originally, he was able to threaten through the huge forces of the Chu family, and never stop! Such anger is that the same level of the giants, the famous and decent can not afford, it will be both lose. At the next level, it is basically ready to be destroyed.

But now this threat is useless. Shenlang's parents have been burned to death, and ordinary relatives will not have much affection. Perhaps this is only a threatening effect called Zheng Yumeng, but they are not very meaningful.

In turn, this is a huge threat to the Chu family!

He alone or two people have the strength to return to the virtual world. No, they can kill them in the Chu area. Even if they use any mean means, plus their underestimated enemy, they will at least have more than half of the medium. strength!

In the mid-term of the virtual reality, the Chu family is also counted.

And just after Shen Lang's words have been made very clear, let them protect the old and weak women and children, especially children!

Today, dozens of Chu family have been lost, but they are still basically male, and they have not yet started to deal with the old and the weak. If you really don't die, all the power of the Chu family will add up, and it is impossible to protect everyone!

However, even if the pressure in his heart is huge, he is actually a family member of the Chu family, but he can't ask for mercy, especially now there are other people around him.

When he hesitated, Shen Lang hangs up directly.

Then I started to videotape while lighting, and took the whole body and close-up of the broken arm of Chu Yunlong with the sword in my body. The expressions of the two people in the Chu domain, Chu Chuwei, were also clearly photographed, and there was a wound of death.

Desolation looked around and did not ask him what he meant. Instead, help him to guard and pay attention to the situation opposite and below.

Before Shen Lang called the police, and heard that there was a gun, the police did not dare to neglect, this time has arrived. The Chu family fell to the bottom, and also caused many people to watch and report.

The following is a mess, and the police rushed upstairs and saw dozens of gunmen comatose, which scared them in person, and quickly reported to the bureau, so the situation, let alone they have no experience, Guangren Not enough!

At this time, the police were frightened and scared. They were afraid that these people would get up and shoot at them. They could only disobey the coma.

After Shen Lang finished shooting, I checked Chu Yunlong's WeChat group. There are all kinds of rich, generational, official, investment, school or something, all ignored, and then opened a suspected comprehension group.

I went in and looked at it. The group nicknames all commented on which family came from which martial art.

Shen Lang sent the video directly.

Probably the monks didn't waste so much time, the group was quiet, but because the video he sent out was very hot. Someone opened it and couldn't help but speak.

"What is going on here? What happened to Yunlong brother?"

"The two seem to be the predecessors of the Chu family. How come..."

"The trough! This is what happened!"

"Wait... The video is the Yunlong brother, who made this?"

The atmosphere was amazed. Chu Yunlong was already inserting a sword, broke an arm, blood, and **** mouth. How could there be a mood and time to send a video? Do you want to take a circle of friends!

From their point of view, they should all be young people.

Shen Lang immediately wrote a release: “Pingxi Shenlang, seeking Qiu Chujia, welcome you to witness!”

Just after the message was sent, Shen Lang saw a video call with Chu Xiangxiong who made a note on “Father”.

Shen Lang pick-->>, the fastest update of the latest chapter of the first strong!

Listened: “I still, Chu Yuxiong is it? I thought it was Chu Mofeng!”

Chu domain Xiong Shen said: “Shen friends, you should not solve the problem, you have killed dozens of people. And the big hatred should also be reported, we can talk about how to resolve this grudge.”

“Hey, who just told me that I don’t die? Now it’s a good idea to get rid of it?”

For the fall of Shen Lang, Chu Yuxiong did not hear: “The people you kill us are all people who can’t do anything, which means that you know your own heart. You only have one person after all, and if you really alarmed my father, you There is no way to break! It is not easy for you to have such achievements. Why do you really want to die? I just got a word...”

He should have just negotiated, and he also allowed himself to suppress his son’s anger and keep calm to negotiate.

This is also to clarify the pros and cons, people can not resurrection, have killed dozens, it can be considered revenge, if you continue, wait for Chu Mofeng shot, it will be dead.

“late!”

Shen Lang can't believe his words. It's too good to say at this time, but it just wants to delay the time!

The Chu family is here to arrange a heavy army. Other masters should be protecting other important people. But after knowing the situation here, they must immediately transfer people.

Even if it is not the present, returning to the negotiations is also a crisis. If you talk with Chu Mofeng, is there any talk? It's a dead situation!

After that, Shen Lang switched the video to the rear camera and broadcasted it to Chu.

The sword was quickly pulled out, and Chu Yunlong, who was controlled to hold the body, did not say that he saved himself. He just wanted to reach out and hold the wound. He could only see the blood flowing out.

Chu Yunlong was first stabbed by a sword, and then his arm was broken. It was already bleeding a lot. Now the sword in front of him has a small blood flow, and immediately shows excessive blood loss and visceral failure. Signs.

I can't see it clearly in the video, but Chu Yunlong feels it. The speed of Shen Lang is very fast. It seems that the sword is simply pulled out, but in fact it is turning the sword.

The effect of the rotation is to let the internal organs that he had been pierced suffered a strangle!

"Shen Lang! You are a beast!"

Under the fierce anger of Chu, Shen Lang shut the video. Chu Yunlong will not be avoided immediately, but he can still linger for a while, but the degree of injury and the speed of bloodshed are destined to be saved.

Shen Lang thought about it, wrote down his WeChat account, and changed the password.

After doing all this, Shen Lang and Yu Liang left.

When I went out, Shen Lang had already put the cool and precious things in the storage ring, and in the opposite room, that is, clothing and other ordinary things.

However, Shen Lang was still flying across the air, took the suitcase inside and flew away.

The police officers who disarmed inside and outside the room were not enough. They were afraid that those people would wake up. As a result, they suddenly saw that a figure flew in from the outside and they were shocked.

There are ten or twenty floors outside the window. It seems that someone has damaged the glass and fell to death. How could anyone come in?

Did the ghost of the dead person just come up?

And they didn't see it clearly, they felt like a suitcase flew out.

After waiting for a while, I took a bold walk and looked at the broken floor window, nothing!

They all think that the things tonight are very strange, it should be considered a psychic event...
