

First Strong 256

Chapter 256 - I am coming to expose

Young people are always keen on gossip, and there will always be people with better news. For example, in this group, there are the people of Xuan Lingzong and Liujia who entered the dead forest last year.

When they watched everyone preaching last year's past, they couldn't help but come out and exposed the truth.

Last year, the matter about Shen Lang was led by the Chu family, which led to the death of the Chu family and the death of the two families. So after they came out, everyone was silent and did not talk much.

As for the news released by the Chu family, no one has discussed it, and he has returned to his own martial art to report it.

Now that Shen Lang has returned, and all kinds of news are messed up, at this time, they can't help but want to force them to make a first-hand information.

This Shen Lang is not known as the first strongest in Pingxi. In the dead forest, actually under the siege of the Chu family and the Xie family, they actually killed five and injured Chu Yunfei!

Such a big loss is not mentioned before the Chu family. Xie's family is of course eating a dumb loss and has never said anything.

Shen Lang was not killed by the Chu family, but at the moment when the transmission array was started, Chu Yunfei used the flying implement to send Shen Lang to the distance, which was a sinister wave, and it was only Trapped people in the forest of death!

Shortly after Chu Yunfei came out, Shen Lang's parents suffered a fire death, and the Yue family, which had a relationship with Shen Lang, was also devastated.

All this, let everyone in the group begin to re-evaluate this “ant”, it is not a “bottom frog” in a small place, even a year and a half ago, people’s strength is stronger than most of them!

Such a monk can live in the legendary death forest for a year and a half without dying, and can come out from the inside, can you simply get it?

Ever since, everyone thought that Chu Lang could kill the Chu Yunlong in the middle of the virtual world, and he would not feel so incredible again.

Ever since, everyone has started to have a new problem... Can this vengeful Pingxi Shenlang challenge the master of Chu Mofeng?

After all, this is only the enemy of the Chu family. Now it’s not theirs. When they look at the excitement, they still want to be a little bigger, especially if they have some envy of Chu Yunlong or a bit of competition with the Chu family.

They began to speculate, what is the realm of Shen Lang now, is there any strength to fight with Chu Mofeng?

Even if they are not the same people, they are all young people. If Shen Lang can really fight the masters of the Chu Mofeng who live in the real world, it is still very exciting.

If it is not enough to fight with Chu Mofeng, then Chu Yuxiong?

Undoubtedly, in just a short while, the name of Shen Lang has spread, and others are in Yunzhou, but the name has spread all over the world!

This is just a group, no one will have only one group.

This is the group with Chu Yunlong, and there may be other people in the Chu family, so it must be relatively convergent. In the absence of a group of Chu family members, or a small group temporarily pulled, the discussion is definitely more intense!

For the reputation, Shen Lang did not care too much, he cares about the open influence!

Just returning to Pingxi's hands on Tian Luning and the revenge killing of so many people in the Chu family today are all carried out in secret. It is also intentional to kill as many as possible.

This is the first step in his revenge plan, first to kill enough to say. Then the second step is to expand the influence, we must let the people of the world know that the Chu family has been miserable!

That's why he will make a hot video and announce it publicly.

Looking at these group chats, Shen Lang was satisfied, and he was expected to have let go of it. The rest of the communication did not require him to participate one by one.

Before he was ready to log out, Shen Lang swept to a group and made him a little surprised.

Because many groups have a lot of information to discuss, he just did not check one by one, and now it is discovered that this group is the family of the Chu family!

There are many people in this group. It should be the clan of the entire Chu family. Many of them are emotional, count the things that happened today, and announced the enemy of Shen Lang!

Everyone was looking for revenge for Shen Lang, but later came the message that Chu Chuhai Chu Chuwei and Chu Yunlong both died, and it shocked everyone's enthusiasm and became trusted and supported by Chu Yuxiong. Called Chu Mofeng to shoot.

After reading these findings, they are mainly based on the middle and lower levels. Killing them is of little significance in combating the Chu family.

Looking through it again, I saw another family group. The information about Chu Yunlong was removed from the group chat. Apart from the historical records, I can't see the group members and new information inside.

This is the group of core members, they estimate that Chu Yunlong WeChat has been changed password.

However, Shen Lang does not want to rely on Chu Yunlong's WeChat to inquire about Chu's information. Real secrets are not likely to spread through WeChat, and it is necessary to meet and discuss in person.

After thinking about it, Shen Lang decided to take another look.

He wrote a message in the comprehension group: "Hello everyone, I am Shen Lang!"

This statement, of course, let the group cold down.

Everyone thought that Shen Lang used the mobile phone of Chu Yunlong. I didn't expect Chu Yunlong's number to be in his hands.

I thought that he might be diving in the screen, just said something, but also sneaked and quickly changed the group of business cards...

"Don't worry. I won't be because of your message to you. I am coming out now, just want to tell you, I will go online from time to time to expose!"

"Of course, if you are afraid of me, you can also retreat."

A "fear" word makes many young people can't help but look forward to it.

"I am not afraid, I am innocent with you, what are you afraid of?"

"I am not afraid, I do not believe that you will kill me because of my words. Besides, I am not a soft persimmon."

"Shen Lang, what are you going to explode now?"

A lot of people have reactivated and asked to expose him to the first hand.

“From the past! In the dead forest, the Chu family and the Xie family united to yin me. Xie family invited me to be a foreign aid, but it was a worry for me to go to them then six people Start me.”

“But they are all soft eggs. Six people, including the use of magic weapons, have not killed me, but they have lost five.”

“But do you know why Chu Yunfei can escape?”

“Because he pushed Xie Tongwen’s Xie Tongwen as a meat shield to me, thus delaying the time!”

“Three people in Haitian Town entered the dead forest and did not go out. They actually died as early as the next day! Chu Yunfei left another person and was injured, so that the three people in Haitian Town did not doubt him, and he was fooled. I went to find the thousand-year-old Yangshen, who was said to have been waiting for Xie’s family for decades. The result was killed one by one!”

“I will know because I have been chasing him!”

“The Tamar has one originally been with Haitian Town. Finally, it seems to be alive. It is estimated that Chu Yunfei has eliminated some of his memory, or else he has already been wiped out.”

“I didn’t succeed in chasing, because he has a flying magic weapon, he can let him look at it once, and I can only track it all the way. He finally trapped me in the forest, relying on that thing!”
