

First Strong 262

Chapter 262 - Tiger mouth killing enemy

This injury is unknown. Shen Lang has already taken the second cockpit down to another direction and squatted on the second Chu family!

Tonight will be a fierce battle. For Chu Xiangxiong, who still has a peak in the virtual world, perhaps he is a devastating battle of life and death. Not to mention that these cores are not weak, so Shen Lang is directly attacking Chu Xiangxiong, to fight against the Chu family masters who have come over!

However, such a trick has the same effect for the first time, and the second time can barely work, and the third time may not work.

So after Shen Lang was flying the second cockpit, the man flew to the desolation of that opponent!

The third cockpit kicked by Chu Yuxiong, squatting on the ground, making a dull bang, watching a pit of one or two feet, then rolling to the side. I found that the blow was not enough, and he did not continue to use this method, but flew directly from above!

Just a short time after the collision between Shen Lang and Chu Yuxiong, the desolation and the Chu family have already played against each other many times.

That person's Tamron technique is divided into many, actually controlling a number of water dragons, and some attacking some defenses, it is like a real person obedient!

The desolation of the body is also very fast and agile, not a sword in hand, so that she is like a duck. When the distance is a little farther, the sword is attacking. When approaching, it is directly assassinated with a sword.

Although blocked by a number of water dragons, she was unable to successfully kill, but it also forced the person to step back.

Basically, the two of them are about the same strength, and the desolation possesses the bonus of weapons and swordsmanship, which has a slight advantage.

At their level, although a little bit of the gap is not enough to see it immediately, it must be fully absorbed. Once the move is made, the consequences will be more serious.

When Shen Lang was attacked by Chu Xiangxiong, the desolation was a little bit distracting, which made the man immediately seize the opportunity to attack.

However, almost in an instant, Shen Lang did not care about the cockpit that Chu Yuxiong came over, and instead attacked him, and immediately made him rush.

Shen Lang can still kill the late stage of the virtual world. Under the attack of Chu Yuxiong, people who use the cockpit to attack them can see that their strength is strong!

Such a deep wave, coupled with the “Zheng Yumeng”, which is superior in swordsmanship, is certainly not an opponent.

There are other people in the Chu family who are coming over. They are also close, but because of the two efforts of Shen Lang, in addition to flying the two scorpions, others have stopped to dodge and defend.

At the moment they are at least a few tens of meters apart. If they want to come and help, it will be too late.

If he wants to wait for help, he might as well wait for the Chu Tianxiong of the Ferris wheel above.

However, from the top of the Ferris wheel, it is a distance of more than 100 meters. Even if Chu Xiangxiong is faster, it will take time.

In desperation, he can only delay the time, hoping to delay for one second and two seconds to be safe!

The water dragon he controlled with Tamron was immediately divided into two parts, one part continued to block the bleak attack, and the other part blocked the attack of the deep wave.

Originally his strength, full force can be used to stop the bleak attack, but also can block the sinking waves, but divided into two, but it does not mean that it can block half of the time!

Shen Lang simply ignored his water dragon, directly relying on the speed, before the water dragon attacked his side, he had already reached the top of his head and grabbed his head directly!

With the strength of Shen Lang now, and then apply the “Da Shou Mi Long Xiang Shen Gong”, this hand is grabbed, it is the stone can also be broken, that is, the steel can also be deformed!

However, in the end, it is still the strongest in the late stage of the virtual world. Even if it can't be evaded and there is no defense, the moment it is attacked to the head, the vitality is also natural—>>, the fastest update of the latest section of the first strongest !

Formed a protection, it is to resist a part of the power, did not directly hit the head.

This is the case, Shen Lang, and almost want to turn him into an idiot!

The many water dragons that had been dancing wildly dissipated quickly, and at the same time, the unsold sword in the hands of the desolation quickly stabbed seven or eight swords on him!

“withdraw!”

When Shen Lang hit the man's head, he had already given an order to the bleak. If it was a bleak word, he didn't need to shout it out, let her feel it directly through the god, and even pointed out the direction.

After the assassination of the multi-sword, I immediately obeyed the instructions of Shen Lang unconditionally and quickly flew in that direction.

Shen Lang is of course also at the same time, both of them are flying fast, almost instantly have reached a row of big trees.

Here is a Chu family master who just came over. Originally, he had to rush to the siege. As a result, he saw two people flying out of the cockpit, fearing that the third cockpit would come over

to him, so he instinctively blocked the back of the big tree. After that, prepare to wait for the cockpit to hit the big tree and then pass.

Unexpectedly, the time of the next time, the Chu family under the Ferris wheel, has been killed under the combination of Shen Lang and Desolation, and two people have already killed him!

At this point he can only choose to escape, or not run away...

Because he didn't even reach the late stage of the virtual world, only the strength of the mid-virtual period, he could only participate in the siege power. If PK alone, such a strong enemy would be enough for him to eat a pot, let alone now. Both come at the same time.

However, he also saw the rear of Shen Lang!

“dead!”

Chu Yuxiong came from the air, the speed is very fast, although because of the distance, just did not have time to save the Chu family. But Shen Lang, they turned to come here, but he did not need to land after chasing, has been directly in the air to chase.

When the sound of the word “dead” came, his body had already reached the back of Shen Lang.

Because I saw Chu Yuxiong, I have already had super confidence in him, let the Chu master, chose not to run away, but prepared to resist!

“kill!”

Shen Lang gave the desolation command, and continued to kill this one, and then chased other Chu masters who came around nearby!

Upon receiving this order, the desolation will of course also know the subtext. Chu Yuxiong is dealt with by Shen Lang himself!

This is actually worrying about the bleak, because she has been through the magical physique of Zheng Yumeng she has made rapid progress in the past year and a half, she is hard to imagine, at the age of Shenlang, it can be strong enough Where to go.

She can be equivalent to the late stage of the virtual world, which is caused by one millionth of the anti-Japanese physique! Otherwise, even if the genius of Chu Yunlong Chu Yunfei, and from a young age, the Chu family resources will be piled up. At the age of Shen Lang, it is just a breakthrough and a virtual reality.

Before she was on the rooftop, she was very worried, so she rushed over. Shen Lang was able to kill the Chu domain without being injured. She suspected that the other side's underestimation of the enemy's intentions and the spurs of the waves were very large.

To put it bluntly, she has repeatedly raised her expectations, and she feels that Shen Lang is at most equivalent to the late period of the virtual world.

Just facing the attack of Chu Yuxiong, Shen Lang chose to use strength, but not hard, but also made her more convinced.

But even so, Shen Lang's order, she still does not hesitate to execute!

In the battle, there is no time to ask and hesitate, you must perform!

What she can do is to kill other Chu family as soon as possible, and then come to help Chu Xiangxiong...
