

First Strong 266

Chapter 266 - Rapid beat

Using the icicle attack, it is only a matter of expediency for Shen Lang. I want to rely on this cumbersome big guy to hurt a strong person who is still in the virtual world.

But what he needs is also to fight for time!

From the time I just came to this Yunhu Park, Shen Lang's insights have already seen the structure completely.

This is a green park for ordinary people. But in fact, both the shape and size of the artificial lake, including the depth, and the direction of the water into the water, have been designed and modified.

The surrounding trees and buildings are also regular. It is an entertainment facility like the Ferris wheel, and it is not casually placed.

From a secular perspective, this is a Feng Shui Bureau. From the perspective of comprehension, it is a gathering of spirits!

There is no doubt that this is the work of the Chu family. They donate money for sponsorship. Of course, they will not just do public welfare. Through such a transformation, Yunhu Park has become a prop to help the Chu family gather aura.

This is not to win the feng shui gas transportation of Yunzhou City. Instead, it complements each other and uses the street trend of the whole city, the popularity of passengers, etc., which is used by the formation method. Yunhu Park will also promote the ecology of Yunzhou City. And Feng Shui.

The Chu family used this large-scale Feng Shui Bureau to gather a spiritual array, which is to let the family children have a better cultivation place, or to cultivate the elixir, or have other purposes. Shen Lang is not known, and there is no time or interest to know.

What he values is that this is both a Feng Shui Bureau and a tactical approach, and that is not just a gathering of aura!

The layout of the park is designed to be more open to the outside, and then to the streets. The agility is gathered in all directions, but it is also accompanied by suffocation!

This array of methods has a sturdy design, so it will never hurt ordinary people, nor will it have any disadvantages for Yunhu Park and even Yunzhou City.

The layout of Shen Lang began from the discovery of Chu Yuxiong, including the triggering of “blood madness”, including the use of the suffocating here!

He is really not yet capable of fighting with Chu Mofeng, but Chu Yuxiong is inseparable. In the end, he does not need to wait until Chu Mofeng returns, and Chu Yuxiong will also chase after him.

Therefore, he would not run away at all. What he had done before was to deliberately let Chu Xiangxiong misunderstand. Otherwise, under the “blood madness”, he can go to the other side before the formation of countless water dragons.

It seems to be wrapped up, and then to attack with icicles, he is delaying time, creating opportunities!

The opportunity is on the surface of the water, because the inflow of helium is resolved through the Yunhu Lake. The scope of the lake and the role of the water all make the helium weaken and then dispel the direction through the water.

Shen Lang is using the violent winds and waves of Tenglong to cover up and use the spells to gather the clouds and lakes!

The Chu family is so designed to resolve the suffocating gas, and of course it will not store a strong suffocation. However, Shen Lang is now a traction, not only the Yunhu memory, but also spread out through the Yunhu Park, and the suffocation of the streets has quickly gathered.

The recent attack, including the smashing of the icicles, gave Chu Yuxiong the opportunity to attack him, all in order to create the opportunity of this attack!

Although it was only a moment and a half, but the suffocation of as many as half a city gathered together, the power was still unusual. As he pointed his way, from the lake, he attacked Chu Xiangxiong.

This is the use of the earth to form the suffocating gas. Although Chu Xiangxiong is very powerful, the process of being penetrated through is still a slap in the face, and the whole person feels a little embarrassed.

However, the suffocation is not enough, so it will only make Chu's body uncomfortable, and there will be sequelae, but it is still difficult to kill it. After all, this is a super strongman who is about to break through the realm!

However, for Shen Lang, Chu can be attacked uncomfortable,

And to get a little time, I am already satisfied. This is just a part of his plan, not a full reliance.

He believes in his own fist (power)!

This is also why he will take "blood arrogance" as the last resort, and that is to say that the overdraft of the body is also the exertion of his personal strength, which is controllable.

Chu Xiangxiong, who was continuously attacked by suffocation, suddenly slowed down as if it were held in the air by the wind. And the speed of Shen Lang did not slow down!

Under the body of "King Kong is not bad spirits", although the ice residue is still stinging, it is not enough to hurt him, and it does not affect his speed.

When it was said that it was too late, Shen Lang was almost at the time of Chu's stagnation, and he had already arrived at him. Under the state of "blood-induced madness", he exhibited the "Da Shou Mi Long Xiang Shen Gong" to the maximum. Power, fist bombardment in the heart of Chu Xiangxiong!

One punch, two punches, three punches... one hundred punches!

Other spells are too late, and Shen Lang relies on the body's overdraft status, with the fastest speed and the greatest strength, as many attacks as possible!

Under the night, even if someone looks at it at the moment, he can't see his fist shadow at all, and at most he will feel a residual image.

He also surpassed the speed of several times in normal times. In less than a second, he played at least a few hundred punches!

Although this is the effect of "blood-induced madness", Shen Lang is still very grateful to the "sportsmanship" of Count Dracula. The stronger man than him has made his body instinctive to speed. Beyond.

At this moment his speed is estimated to be much faster than the Count of Dracula. But the other party will not give him more time, he must be fast, fast, faster!

The key time that Shen Lang won was more than a second. When the heart suffered continuous damage, Chu Xiangxiong dispelled the role of suffocating, and the whole person was angry again!

"Dead! Dead! Dead!"

All the attacks of Shen Lang are not scattered, all are hitting the heart! But at such a crazy speed, in addition to the previously practiced bodywork, it is impossible to have other defenses such as dodge and block.

So when he hit a few hundred punches, Chu Xiangxiong was also in the palm of his head!

Shen Lang only felt that his head was screaming, and his consciousness was quickly blurred. His hands still did not stop, it was the rapid attack of the death command, he had only one purpose, the heart of Chu Xiangxiong!

madman!

Chu Yuxiong has only one thought...

He didn't want to attack Shen Lang quickly. Now everyone is fighting in close combat. His strength is definitely better than Shen Lang. It should be no problem to break the neck of Shen Lang.

However, Shen Lang is now several times stronger than usual, and with the magnifying effect of the power-type gong "Da Shou Mi Long Xiang Shen Gong", in fact, pure power is no less than him, every punch can also blast stones, so Hundreds of punches are in the heart, there is no continuous blow to stop for a while... He is not an iron man!

His protective body exercises have already been broken, and the heart has also been hit hard or even burst...

After Shen Lang and several consecutive fast breaks of dozens of punches, Chu Yuxiong also took the second palm of the shot in the head of Shen Lang!

The head is also a very important core, which directly makes Shen Lang completely unaware!

But before the loss of consciousness, he faintly felt that his fist was contaminated with blood, and he had already penetrated into the body of Chu, and hit the heart directly!

Explosive!

Shen Lang lost consciousness and fell from the sky to Yunhu.

At this time, from a distance, a shimmer, at an incredible speed, flashed to Yunhu Park...
