

## First Strong 271

### Chapter 271 - Ice Palace

Shen Lang has recovered most of the time, and there is no problem in using God. He immediately inspected it. Outside the hole, it was not the other people in the outside world, but two women.

These two women, one is about twenty years old, and the other is four or fifty. Can have this strength here, no doubt is the Tianshan Ice Palace.

They pushed the stone door in.

Shen Lang received a good job. He was here as a guest. I don't know if this is an ice palace disciple who came back from home, or if he came to him specifically, he must treat him with courtesy, so as not to misunderstand.

Soon, the two of them came in and watched that Shen Lang was waiting for them, and there was no doubt.

The sudden wave is clear, this is to come to him!

"The two are the sisters of the Ice Palace? I am the classmate of Shen Lang, who is in the rain."

Unclear about their identity and seniority, from the age point of view, one should be a sister, and the other is a master. For men, the seniors are called high, and it is always true that women are called to young people.

The older woman stared at the dark waves carefully, but the young one snorted: "You are the girl who is the teacher? It's not so good! What's wrong with her eyes..."

"Ke Ling!" The older woman snorted.

Shen Lang did not directly reveal the unpleasantness. There was nothing for her tone, but the wording was "skull", but it was not so good. It also showed that she was not very close to Rain.

“The Ice Palace invites the moon, and the life of the palace is dedicated to invite the sinking friends to visit the Ice Palace.”

This woman, who is called the month of the month, although her face is not very warm and friendly, but her words are polite and polite, which is to say that their intentions are clear.

Shen Lang is hesitating: “I heard the rain and said that the Ice Palace is not convenient for receiving male guests, so let me be here. The palace owner invited me to be a guest...”

Inviting the month shook his head: “Nature will not enter the ice palace, but the palace owner wants to see you personally. You don’t want to let the palace owner come here to see you?”

Shen Lang only understood this, just called him in the past, will not let the door, then send it away.

He is also a bit speechless. The main shelf of this palace is also a bit big. It is nothing to let him go to see him as a younger generation, but she doesn’t want to run it for herself, let two people run!

“Ok.”

Regardless of whether the owner of the palace is a master of the rain, he can allow him to settle him here. It is also the time when Shen Lang needs it most. It is also necessary to cover him for a while and to thank him personally.

They looked at the cave again, and there was nothing to clean up in Shenlang, so he took him out.

Going out from this cave, in the snow-capped peaks without roads, the invitation to the moon and Ke Ling lead the way, has restored most of the deep waves, although not used to ice and snow, but the display of “phantom meteor steps”, did not fall behind.

After several days of swaying, they walked for a long time, and they stopped on the top of a cliff without a road.

“Sorry, can’t take you into the Ice Palace, you can only wait here.”

“It doesn’t matter.” Shen Lang nodded indifferently.

The Ice Palace is a woman. It is understandable that the men are not allowed to enter and understand that they do not want outsiders to know the specific entrance.

There is no signal here, the road is more difficult to walk, can only be agreed to meet in advance, of course, can not be so precise, directly let Shen Lang wait for half an hour, only a white fluttering figure came.

“The palace owner.” Inviting the moon and Ke Ling are all saluting.

“You go down

Let’s go! “The palace owner waved his hand.

“Yes.” The two of them hurried away. This “going down” is not like the general “retraction, withdrawal,” but the real snow mountain cliff.

“You are Shen Lang?” The palace owner stared at Shen Lang with interest.

After the palace owner came up, Shen Lang also quickly observed it.

The age of the palace seems to be only twenty-seven. It looks like a white dress fluttering and a bun, and it is a lot more beautiful than the previous invitation.

However, this appearance may not be the real age. If it is very young, it will reach a very high level. If you are young, you will at least be much slower than the average person.

One must admit that this palace owner is now a beauty that is not inferior to a star. When she is young, she will be a fascinating person who reverses all beings.

“Thank you for your stay.”

Shen Lang thanked her directly.

“You’re welcome, after all, you brought it back, and you are in the dead forest, first to help us.”  
The palace owner smiled and shook his head.

“I don’t know if the palace owner called Shen Lang, is there anything to be told?” Shen Lang is also a bit embarrassed.

‘Is it because I am too good to give me the rain? Is that promised or not? ’

‘Or I think I’m too dangerous, let me draw a line with the rain? ’

“There is something wrong.” The palace owner slightly decapitated: “You let Xiaoxiao bring back some of the specialties from the dead forest, huh, huh, really have a heart.”

“Should, I am here to bother, but also sheltered in the Ice Palace.”

In fact, the rain has already brought words, saying that after those who turned over to the division, the palace owner asked her to convey her gratitude. I did not expect to express gratitude to him.

However, Shen Lang just had such an idea and found that it was not the same thing!

“In the bones you gave, I found the bones of the golden giant python. It looks like it has been there for hundreds of years. I don’t know if there is any Nedan in it?”

Shen Lang was speechless, it turned out that she was playing this idea!

“Inner? In fact, you can also know that the golden giants of hundreds of years, not what I can kill, is the skeleton that I found.” Shen Lang said half-truth.

“The beasts of hundreds of years are already very intelligent. They will keep a distance from the powerful beasts. How can they die so easily? Where can the skeletons be embarrassed? Besides, I checked, the bones you gave, Probably also died for more than a year with the time you enter into it.” The palace owner did not believe his words.

“A little over a year ago, I was a small character.” Shen Lang’s tone faded.

Originally, he gave the spirits and skins to compensate for the ice palace, but looking at the posture of this beautiful woman's palace, it is a bit insatiable!

When he was half-truthful, he was already an excuse, but she didn't even have the interest to stop, which made him a bit uncomfortable.

The palace still has no meaning to stop. He continued: "As you said, more than a year ago, it was just a small role. Now it is not only able to come out of the dead forest, but it can also kill the Chu family and even Fighting Chu Yuxiong..."

She showed a smile: "How many adventures have you had in this year?"

"The meaning of the palace owner is...?" Shen Lang did not want to deal with her, and asked directly.

"Can the inner giant of the golden giant give us? You should have heard that we got the snow nectar, which is one of the elixir medicines. The golden python is a yang, if there is new
