

First Strong 286

Chapter 286 - Deep in the sword

Qiu Shuijian returned to his hand, and Shen Lang's heart has settled a lot.

This is really the same magic weapon, it is helpful to confront a real person.

Otherwise, in his current realm, even if he is to display "blood arrogance", it is not enough to see.

However, the magic weapon, but also depends on the strength of the people who display. With his current ability, he can't fully play the strength of Qiu Shuijian.

Jianling was a place where he and Gao Hanqiu were banned.

He wants to see it now, is it all the same?

It is a huge matter for the Sovereign to succumb to death. But the Sovereign can still speak, and the elders are away from personally, and no one dares to have any doubts.

Gao Li was quickly arranged and returned to the cave.

"Go!"

Two people came out of the cave, but they did not take the test of the waves, and took him directly to the Jianling.

Jianling is not far from the cave, but also at the end of the valley.

However, this Jianling is not placed in the ground, nor does it have a tomb, but exists in the middle of the mountain!

Because of this relationship, it has not been discovered by ordinary disciples for many years.

It's like the outside looks like this valley doesn't exist, and the half-mountain Jianling is also invisible.

Gao Li took the Shen Lang and flew directly to the mountain wall of the Mid-Levels.

"If I remember correctly, it should be here." Gao looked at Shen Lang.

Shen Lang is more in line with the terrain, carefully distinguishing it, and confirm that there is nothing wrong with the place.

"I will open it!"

Gao is carefully gazing at the mountain wall. For the array here, they have actually studied it. Although the ancestral ancestry is forbidden, it is not allowed to enter, but the more it is forbidden, the more attractive it is.

Why didn't they see it and couldn't open this array?

He estimated that the former teachers and seniors had tried it, and there was no way. So the more people feel mysterious, the more they feel that there may be some great treasures inside.

Shen Lang did not directly touch the mountain wall, but flew to the opposite side of the mountain wall dozens of meters away!

Gao Li is staring at Jianling. He did not expect Shen Lang to run to the back. When he came back, he had already completed a series of handprints quickly!

Is the key to opening the array method is actually on the opposite side of the mountain wall!

Gao Di is a bitter smile, they have studied this mountain wall very thoroughly, and they have nothing at all. I even suspected that the ancestors made up such a place and let them think more.

I have never thought that the key will be on the opposite side of the wall dozens of meters away!

But he looked at it, and there was nothing unusual about the opposite side of the mountain wall. Maybe some of my predecessors have tried this way, and it should be nothing.

Under his sullen eyes, Shen Lang did not stay in the air, and after finishing a round of handprints on the opposite side of the mountain wall, he reached the side again. The side is the end of the valley.

He is a bit puzzled. What is this doing?

Waiting to see, Shen Lang is a string of irregularities, he can not see any intentional handprints, one by one shot above the mountain wall at the end of the valley.

Gao Li feels inexplicable, and even a little doubt whether Shen Lang is playing him.

At this time, the place of the Jianling, suddenly open, an entrance on the mountain wall!

“This...this...” Looking at the deep waves that flew over, Gao could not speak.

“I haven’t seen it yet?” Shen Lang pointed.

Gao left to the entrance, carefully looked again, only to suddenly find out that this mountain of Jianling is not a casual choice, but with the opposite side of the mountain wall, with the inner side of the mountain wall, are tens of meters. It is probably an equilateral triangle.

I don’t know how this method is handled. Put the key to the opening, and wait for the third

The other two points of the angle.

So no matter how they study the point of Jianling, there is no way, even if it is the opposite point, it has no effect.

“The cold autumn is high!”

Gao can't help but praise a cold autumn.

Shen Lang smiled and didn't say much to him. He flew straight in, and Gao Li quickly followed.

After they entered, the entrance was closed again and it looked like it was before.

“Jianling this is...”

After Shen Lang went deep into a cave, Gao Li found that there was no road ahead and it became a circular depression!

Now this should be regarded as being in the mountainside. Just the cave passage, like a man-made excavation, can be a huge depression in it. Is it artificially excavated?

Shen Lang did not respond to him and flew directly.

Although the high distance is higher than the Shenlang realm, but now it is like a student, dare not ask more, and quickly follow the back.

The distance to fall is about one hundred meters. According to the estimate of the high distance, it should be the height of the valley bottom.

With that entrance closed, there was almost no light inside, and the high distance was dependent on strength, barely able to see a little.

Just when I landed, I found out that it was bright and surprised him.

He saw that Shen Lang didn't know when he had an irregular stone in his hand. The light was just from the stone, and the whole space was illuminated.

In fact, the light is soft and not bright, but the eyes adapt to the darkness of the moment, and the sudden contrast between them is very bright.

“Come on, this is Jianling.” Shen Lang smiled.

This stone, when he seized Ke Ling into the ice palace, he smashed a piece and placed it in the storage ring.

Although the brightness of a single block is still limited, it does not require charging, which is very convenient.

The high distance is clear, and this huge depression is almost empty. There is a small otter in the middle, probably wet, or stagnant water left in the rainy days.

When he looked at it again, Shen Lang had picked up a stone and he hurried over.

Under the stone, there is a groove that is obviously opened, about a foot square, and there are not many things placed inside.

“Why will you bring it, the key is this.”

From the inside, Shen Lang took out an ancient book.

“This is the book written by Gao Hanqiu and left to future generations. If there are some exercises that have been lost because of the age, this will allow you to complete.”

Hearing the words that Shen Lang said, he was about to pick up the high separation. He stumbled over the stone and carefully picked up a few heads and then picked it up from both hands.

“Thank you for the cold autumn gift!... Thank you Mr. Shen As the elder, he knows best. Tianshan Jianzong is very low-key, not because everyone is good, but because many things have been lost, no Once the best, for the preservation of the long-term, it was low-key in remote areas.

The secret of this book is really what they need most!

“There are still these, it is to prepare for the fall of the sword after the fall of the sword.” Shen Lang pointed to the side, probably piled up about a hundred Lingshi.

No elementary, they are all medium spirits.

For the Tianshan Jianzong, Gao Hanqiu can't move everything over, just leaving a start-up capital for a comeback, not very rare, but it can also play a big role.

"This... we don't need it most now, we don't take it away."

There is no greed for high separation. The practice of trying on is the most important thing. Lingshi is enough now.

Then he looked at Shen Lang, what is Shen Lang wanting?
