

## First Strong 298

Chapter 298 - Killing Chu Mofeng (on)

And things that everyone didn't think of happened again!

Seeing the sword net of Shen Lang, it was broken by the sound wave of Chu Mo, and Shen Lang also fell, but he did not fall out to the back, but swept the ground to the front!

Such a strange scene, so that everyone is very surprised when they look at it, and the light of the sword net dissipated, and the awkward angle, let Chu Mofeng form a little visual blind spot. More importantly, he is very confident in his own enthusiasm and is about to stabilize the injury, so he has a little negligence in front.

However, Chu Mofeng quickly reacted, but this time Shen Lang has reached his feet!

Shen Lang people have not arrived yet, Qiu Shuijian has already reached the foot of Chu Mofeng!

Chu Mofeng snorted, everyone did not see what he had, the dirt between the ground, as if there was a statement, quickly rolled up, directly wrapped up the waves, and his body has drifted back Go out.

Between the time and the time, in the mountains of Biyunfeng, the area where the two of them played against each other had already dispersed the sand of the sky, which was just rolled up from the ground, mixed with a lot of dead grass.

And the sediments seemed to be covered by an invisible hood, and did not spread to the outside crowd, but in that area.

The tumbling and stirring speed of the sediment is too fast, and it is immediately a piece of black pressure, which has made it difficult for outsiders to see the inside. At the moment, Chu Mofeng is already flying above the top, looking down at the top.

At the moment, the wound in his chest was reddened, but it seemed to have sealed the wound.

However, in a second or two seconds, Chu Mofeng did not wait any longer. In his capacity, he was hurt by Shen Lang. It is a very shameful thing. If you can't get a uniform, you will only lose face!

At this time, the sand that had been tumbling and stirring was suddenly changed in one direction. It was no longer a shock to the sinking waves. Instead, it was like a command, all of which was going to be pressed down. Come!

The high level of the scene is to see the situation inside, can not help but be surprised.

The change of all the mud rolling just now is that Chu Mofeng has used the unique experience of the Chu family!

Tamron can almost manipulate everything, gas, water, mud, etc., and like the power is fast and flexible, but the material of the entity is even more powerful.

With the strength of Chu Mofeng, the Dragon Dragon technique was displayed casually, and it was both speed and power. It was just a combination of gas and sand, and completely blocked the entire circumference of Shenlang.

Shen Lang also seems to be trapped, unable to chase the legs and legs of the past.

But in fact, he said that the depths of the whirlpool, but it is a calm sword!

In the time of breaking for a second or two, he has already sent dozens of swords, and each sword has a lot of changes. When all the swords are crossed, it becomes a new sword net!

This time, the sword net is no longer just a sword, but all the sand that attacks him. It has become a weapon. Under the sword, it has become countless swords, all to Chu Mo The wind attacks the past!

“Glyphs!”

Chu Mofeng did not stop, just waved his hand, all the sand and swords that attacked him, all of them were dispelled and flew outside the cliff.

But he didn't stop, and Shen Lang didn't stop!

After just pulling in countless swords, Shen Lang personally stood up in the autumn water sword and became one of the swords. He rushed straight to meet the wind in front of Chu Mofeng!

Those swords, including the actual sediment, were easily dispelled by Chu Mofeng, but the Qiu Shui sword that was stabbed by Shen Lang could not be dispelled.

Before the Shenlang sword, it was mainly a surprise attack. It was only at the best level that the sword was suddenly taken out. It is very difficult to complete the killing. The real strength is limited. It depends on the Qiushui sword. Sharp, only pierced his body.

But now it is not the same. Now, after several waves of swords, Shen Lang has already merged into one person, and when it is easy to kill, it is quite stabbing, but it also contains great strength.

At this moment, the distance between the two is also rapidly approaching. If Chu Mofeng does not want to be stabbed, he must dodge. If he wants to dodge, it is equal to Shen Lang to force him back!

At the crucial moment, he still chose a hard right! The hand that just dispelled the sand and swords back to the past, directly on the autumn water sword!

This palm contains a powerful force, the direct infusion of the vitality, the biggest effect is to directly break the sword into pieces!

To take a step back, even if this is a sword, the earthquake is constant, and it is also possible to fly the sword out.

Taking a step back, even if the Shen Lang is very tight, the sword will not fly out, but will also be biased to the side, unable to stab him. And his other hand has been lifted, this time is taken to the front of the chest!

It can be said that the calculation of Chu Mofeng is very strong, basically it will not miss.

It is a pity that he still underestimated the opponent in front of him!

The Shen Lang who is fighting with him is not a small place genius boy who has got the adventure, but a person who has far more experience than the enemy!

Therefore, his shot, his coping style, almost broke the sword, he has already entered the plan of Shen Lang, and already have countermeasures!

Shen Lang wanted to penetrate his body, and under the reaction of Chu Mofeng, he immediately made adjustments, the wrists were directly twisted, and the other hand was also put up, holding the hilt with both hands. .

The crowd on the scene, immediately exclaimed together!

Qiu Shui Jian Ben is the body that stabbed Chu Mofeng. His hand should be shot from the side of the sword. But Shen Lang's twisting of the wrist immediately turned straight forward and turned straight forward!

Also let his palm, not in the blade, turned into a sword!

Take a sharp knife blade or shoot the nails, the tip of the needle, the greater the strength, the greater the injury...

The sharp autumn water sword, under the firm control of Shen Lang, even if it was pushed a few inches away, but the hand that was vigorously photographed was directly cut off, four fingers were scattered and the blood donation was also splashed. It's up!

At this time, the Shen Lang, actually fell to the ground.

It looks a little weird, but it just avoids the other hand that Chu Mofeng is enough to kill him. The sword is still in his hands. The Qiushui sword, which has just been drinking blood twice, falls directly down and squats. Chu Mofeng's instep on the instep!

"Go to death!"

The exclamation of everyone and the roar of Chu Mofeng only rang a little.

One hand was cut off, and the wind of Chu Mo was already unstoppable. At this moment, the intention of Shen Lang, he was also clear, his feet lifted, turned a circle, avoided the fall of the sword, and kicked the sinking wave. Face door.

At the same time, he just had a hollowed out palm, and went down again, directly to the head of Shen Lang!
