

First Strong 299

Chapter 299 - Killing Chu Mofeng (below)

The sinking wave that had been thrown down quickly rolled over. When the person came to the side, he just avoided the kick that had been kicked to him, and the sword in his hand went up!

Chu Mofeng was dragged to such close combat by the sinking waves, and it was already irritated, let alone just cut his palm in half. This is really to kill the Shen Lang, it is not double insurance, but three insurance!

With his strength, kicking the face of Shen Lang, he can directly kick his head. And after chasing the palm of the hand, you can also take your head off the neck.

The third insurance, he is running the Dragon Dragon, a lot of mud and gas, from the back to the sinking waves!

The counterattack of Shen Lang is not beautiful at all, it is actually a rolling posture.

But it is so beautiful! Directly avoiding his first attack, and even stabbing his sword into the palm he photographed!

Although the strength and sand under the manipulation of Tamron was swallowed up quickly, his palm was shot on the tip of the Qiu Shui sword, and it seemed to penetrate the entire back of the hand like a singer!

In these few seconds, there have been such great changes, so that all the breath watching the monks are extremely energetic, and some have a cold sweat on the back – in exchange for their words, no matter which one is the opponent, this It's already dead!

Everyone's attitude towards Shen Lang has also changed in the heart.

Originally, he felt that he dared to come, it was very great, even if he died, it would make many people remember him. And now, in just a short while, I have already injured the three swords of Chu Mofeng!

It seems that the deer is not necessarily the one who is dead.

The situation on the spot is urgent, and the ending should be quickly separated, leaving no opportunity for discussion. Otherwise, there will be people who will bet on who wins and who loses.

The Shen Lang, which was wrapped in mud, quickly shook his sword, not only to pull out the sword, but also to cut it in the middle of the wind.

One hand was cut off the palm of your hand, and the other hand was pierced by the palm of your hand, which made Chu Mofeng a little crazy. Tamron will almost kill Shen Lang, so that all the sand will penetrate the waves.

But for the crazy sword of Shen Lang, he also had to fly away from the ground.

Now that he has been injured in three places, now there are one or two hundred different martial art monks watching, this is already a big loss!

He quickly sealed his hands and wounded, then screamed, and the fierce items appeared in front of him.

This thing just appeared, it was just a bell size, but it quickly became bigger. When he threw it out, it had already become a big clock. He waited for the waves on the ground and covered him directly on the ground!

“Heavenly Bell!”

Someone called it up. This is the magic weapon of the day. It can become bigger and smaller as you like. After you cover people, the bell is a small enchantment that people can't break through.

“go to hell!”

He is a master of the real world, and he is not as good as his junior, but he was injured by three swords. Now he is still trying to use the treasure, of course, it is very faceless. But it has reached this level. If you can't kill the Shenlang, you can't lift your head.

So he flew down to the top of the Tianling Bell, and his feet were continuously smashed.

In addition to being able to become bigger and smaller, the Tianling Bell has an effect on the enchantment that traps people, that is, it will expand the sound.

Like him, he knocked on the clock body, and the sound produced outside was not very big, but it was transmitted to the inside, but it would be too big to know how many times, and it would directly make people feel dizzy!

“Chu brother is careful!”

The young people watching on the spot are the most excited and most want to see clearly. They can hinder the relationship of strength, and some of them cannot be completely seen.

Now the audience has to say who has the strongest strength, and it is undoubtedly the Xie Dao Ling who lives in the real world.

Xie Daolin is not only a good eye, but also a bystander. Just Chu Mo Feng Shi Bao, let him be a bit strange, but then I also understand that Chu Mofeng both hands have been seriously injured, it is difficult to have patience.

But he saw it clearly, and Tianling Zhong did not cover people!

Although it has already covered the scope of Shen Lang's original, it is even possible that the clock will cut off his legs, but it is just a good expectation. The real situation is that the waves have stirred up the sand and the people have been out of trouble.

That is to say, the cover of the day is only a pile of sand that was manipulated by Tamron.

At this moment, Shen Lang has arrived at the back of Chu Mofeng, directly stabbed the sword behind him!

With the strength of Chu Mofeng, of course, there is no need to wait for the warning of Xie Daoling. Even under the wrath, after rushing in the waves, he immediately responded.

Immediately after the foot hook, the Tianling Zhong was directly smashed, and then the dark waves covered the past.

At the time, around the mountains and over the sky, countless airflows were manipulated by the Tamronian technique, as if the nature was holding the Tianling Bell, and the sinking waves from the sword were blocked and covered, and the back was forced to push him into the clock. Inside.

The Chu Mofeng is also stepping on the Tianling Bell, and quickly pushes it over. After directly taking the Shenlang, he pushes it out of the cliff outside, and then presses him down to the cliff to fall!

It disappeared from everyone's face, and a super-powerful person like Xie Dao-ling, of course, can be sensed by God. The younger generation is rushing to the edge to catch up.

Chu Mofeng's Tenglong technique is that Chu Xiangxiong is far behind, and the numerous airflows that are manipulated are really squeezing the Shenlang into the Tianlingzhong, and it is difficult to get out of it.

The Tianling Bell is also a magic weapon. It is difficult for the Qiushui sword to puncture or open it directly. It requires a stronger force.

But Qiu Shuijian has to break open the outside, but it is easy!

Under the control of the surging waves, Qiu Shuijian flew out, and turned a circle under the clock, quickly flew from the back, and the wind of the wind, the wind, quickly came to a pair!

The people who have just chased out, I saw this scene, I couldn't help but be shocked.

Chu Mofeng master, actually passed by a sword!

Shen Lang did it!

If you are not afraid of bad influence, some people will almost be applauded.

Qiu Shuijian's blow is just like the smashing of the lord in Tianshan Jianzong. Chu Mofeng did not think that the Shenlang, who was trapped, could still do so. This piercing made him directly hit hard, and it was difficult to seal the wound.

The spiritual autumn sword, after a sword succeeded, turned a circle and quickly returned!

Chu Mofeng can only give up the Tianling Bell and the sinking waves below. With a slap in the air, the body quickly rises high and flies over the cliff. The following changes are big, at least there are Xie Dao Ling, these old friends can rely on it.

The double attacks of Tianling Bell and Tenglong were immediately broken. Shen Lang immediately got out of trouble, in addition to manipulating the Qiushui sword to continue chasing, he is also rude to directly collect the Tianling Bell into the storage ring!

At the same time, he opened the holy armor and quickly flew back.

Look at the lively people above and quickly return to the original onlookers.

Chu Mofeng just landed, but I haven't had time to call Xie Daoling's helper, and the Qiu Shuijian, which has been chasing him, once again brought him a hole!

This time, the heart is broken and broken, and it is directly killed!
