

## First Strong 47

### Chapter 47 - Falling rain

After Shen Lang called and said that, Yue Zhennan was guessing what it would be in the past few days. Before he confirmed it, he did not say anything to other people.

In his heart, there is also a rough guess, which is supposed to be similar to the previous jade.

I have seen this small bottle now. He hasn't heard of this "Baobao Relief Soup." Listening to the introduction of Shen Lang, it seems to be a very good pharmacy, let his mind live.

"This thing... it sounds very good, but if it's a bottle, it shouldn't be obvious?"

Since Shen Lang used this as a bait, of course, he would not regret it and throw the bottle directly.

Yue Zhennan quickly caught his hands and was afraid of falling off the ground.

"This is for you first, free of charge. Although the effect of a bottle is limited, if you take it, it will also make you feel the benefits. Confirm that it works, and you want to cooperate, and then talk about it."

Yuezhen Nanran, this is a sample, it is free for him to experience it.

"Then I will thank you. But... give it all, can you give more bottles?" He smiled and spoke.

If this thing is really like what Shen Lang said, anyone can take it. In addition to giving the family, of course, he also hopes that he can take a bottle to see.

Shen Lang glanced at him: "I got this thing, the cost is not cheap. If you want to experience it, you can dilute it and drink it."

This is not to boast, 500,000 to be able to refine five or so, one is three or four pounds, and the weight of this small bottle is about one or two. The cost of the conversion will be two or three thousand in one bottle.

“This is... what did you do?” Yue Zhennan tried again.

“You don’t care how I came.” Shen Lang said proudly, did not answer him.

I have had the last transaction, I believe that Yue Zhennan has confidence in him, or else he will not run specifically.

As for this thing, after the Yuejia family, Yuejia will not find a doctor to confirm, or analyze it through modern scientific research equipment, he will not care.

Yuezhen Nangan smiled a little: “I said Langge, I can’t easily reveal the secrets of our family, but you can guess it. So I will report this to the family. Can you give me a copy?” ”

Shen Lang looked at him, then shook his head: “I don’t know your situation, give you too much, afraid that you don’t drink it, or drink too much to hurt your body. Wait for the next time! If you arrive When I need it, I can give you a few more bottles for free.”

“Oh!” Yue Zhennan smiled and said, he can buy it with money. He doesn’t care much about money. This time, he deliberately asks for it, in fact, it is also to close the relationship.

Then he greeted Shen Lang for dinner. In the process, he also smacked from the side and asked if there was a strong master behind Shen Lang.

The previous explanation can no longer convince him.

However, the experience of Shen Lang and the two can be used by him.

Instead, this Yue Ergongzi has been covered with a lot of information by Shen Lang!

It is the information of Yuejia and Yuezhenan. Shenlang searched and had no value. Instead, Yue Sheng has left a lot of traces. It is indeed Pingxi’s masterpiece in antiques and other cultural relics.

However, I can’t search for more related information. I can’t say that the rich and official who are surnamed Yue are the Yue family.

However, in the county of C County, Yao Houpu's secretary, Pingxi can settle the public events in the antique street, and the attitude of Bai Shenghua, who already has advanced super-armed warriors, etc. These can be combined to outline a general.

As a family with a big head in Pingxi, Yao Houpu's attitude can be so influential in political circles; he can pay two million at a time, and he is also very expensive in terms of property.

Now from the quilt of Yuezheng, I vaguely know the most authoritative core of Yuejia. It is the grandfather of Yuezhennan. I don't know what the name is, but it should be a retired old cadre. With this big tree, it is only possible for the Yue family to go smoothly.

Now his grandfather should be old enough to get to the point where the oil is running out. The Yue family needs this banner to support it. The longer it is, the second generation and the third generation of children can operate more securely, so they will try their best to continue their lives.

That piece of jade is undoubtedly used to have an effect, so that Yue Zhennan is so heart-warming.

This information is not much, but it is to let Shen Lang know. The treasure is still a \*\*\*\* soup, it can't be brought back to life, but in terms of improving the body function, let the Yue family's father live for a few more years, there is no problem at all.

After all, Yuejia nutrition and medical care will be very good in all aspects, and it will last longer than ordinary people.

"Right, there is something I forgot to ask you." At the end of the meal, Shen Lang remembered one thing.

"What?" Yue Zhennan was busy asking. From the beginning, he was not talking for a few minutes in front of him. He was low-posted all the way, and he is used to it now.

"When Liu Zhilong was looking for you, shouldn't it just recommend me?"

"Hmmm?" Yue Zhennan was a bit skeptical, and then seriously said: "This is the case, he found that you are very powerful, I feel that I am a personal talent, and that your family conditions and

academic performance are not very good. I will help you, let You went to a sports university, or you got a comprehensive university, and you can do things for our family in the future.”

He didn't have any concealment at this point. He said it at the beginning.

Shen Lang shook his head: “Liu Zhilong will pay attention to me because our class is raining and classmates. He warned me not to approach her, probably because I want to eat swan meat, and also said that he is not out of love, saying that he is also Not worthy...”

When he saw Yue Zhennan, he understood that Liu Zhilong said that he should be Yue Zhennan. He was watching nearby and prevented other boys from getting close to the rain.

Later, it was Yao Houpu, who defeated Ahu, and counted the sale of jade to him, and forgot this.

Yue Zhennan's face is a bit awkward. “That... you don't say that I have forgotten it. It's true that there is such a thing...”

“Talk.” Shen Lang nodded.

“Cough, I will first declare that it is not my attempt to fall into the rain. Don't be hostile to me... How do you say that?”

Yue Zhennan sorted out the wording and then briefly introduced it, saying that the rain fell a long way, she did not know why she went to school in C County, she was not at ease, let Pingxi Yue Jia helps to take care of it.

The Yue family is responsible for the leadership of the C County and the school. But children who are not just the same age can arrange to go to school here, so they can only find candidates. Liu Zhilong is helping him to look after the rain.

The last time Liu Zhilong also reported to him about the situation of falling rain, by the way, the matter of Shen Lang.

“Lang brother, do you like falling rain? This can be a bit... not easy.” Yue Zhennan looked at Shen Lang and asked carefully.

Originally, he wanted to say that the identity gap between the two people is a bit large, and it is not easy to change the mouth.

Shen Lang shook his head: “Classmates only. I thought that when you were a rival, I can laugh with me now, indicating that your city is not shallow. Once you lick a knife, it will be very embarrassing!”

Yue Zhennan smiled bitterly: “Where can you! You haven’t seen you from eating me from the beginning.”
