

## First Strong 53

### Chapter 53 - Refining profits (lower)

Shen Lang took a sip from the teacup and did not feel that the side effects were offensive.

No medicine can be perfect, even if it is really perfect, different people taking different problems may still have different effects.

Yue Jia's verification is definitely impossible to take their family doctor to try the medicine. Others can feel the effect, but the side effects will not be known immediately.

For Yuejia, young people can bear the side effects, but the father does not have so many functions, and must be very cautious.

"How much can you provide, depends on how much you need, or how much you can afford."

Shen Lang first answered the first question, and his eyes looked directly at Yue Qiang.

Yue Qiang did not have any dissatisfaction, and his expression was very sincere and natural. He applauded: "That's great."

"As for side effects," Shen Lang shook his head: "I don't know."

"You don't know! How can you not know? This is a matter of human life!" Yue Shengyi could not help but be anxious.

Yue Qiang gestured to him not to talk, and then cautiously asked: "Shen brother, you said I don't know, because this soup is not refining, I can understand. Can you ask the seniors of the refining medicine, After all... you should be able to guess too, we really value this thing."

Shen Lang still shook his head: "I said I don't know, it is a more responsible statement..."

“You are responsible for this, this is simply shirking responsibility!” Yue Sheng was so excited that he blows his beard and blinks.

Shen Lang glanced at him and ignored him. He continued to talk to Yue Qiang: “I give an example. My mother is an ordinary person. I dare to let her dilute it and let her dilute it.”

Yue Qiang was also a bit unhappy when he heard that you didn’t know it, and he said that he didn’t know if he was responsible or responsible.

Now that I have heard this, I understand it. I should have found no side effects for this thing, or I would not dare to give it to the mother of ordinary people. But if you don’t find it doesn’t mean it will not be there. In order to be cautious, you still have to say that you don’t know, Yuejia can pay attention to it!

“Understood!” Yue Qiang immediately respected the tea with the sake of the wine.

“In fact, look at your needs. If it is the average person to keep fit and prolong life, there is no problem at all. The effect of strengthening the body can also make the general chronic diseases and the like. But if it is special, it depends on whether there are other A better way.”

“Other better ways...?” Yue Qiang murmured.

“Speaking badly, if there is no way, then you will be a dead horse doctor.”

Shen Lang said this, and let Yue Sheng want to get angry, but this time he resisted.

Yue Qiang solemnly said to Shen Lang: “Thank you! My question has been answered. Now let’s discuss the price and supply!”

Shen Lang nodded, but when he hadn’t spoken, Yue Zhennan had already got up and took a box next to him.

“This is the last time we should give you, not always dragging, we are also trying to get some to get something.” Yue Qiang pointed.

Yue Zhennan opened the box, which contained some herbs.

In this box, the amount of medicinal materials is naturally far less than that of Qiongzhitang, but even if you just take a look, Shenlang can find good quality. For example, there are also ginsengs that are not inferior to those sent by Han Manager. It is roughly estimated that the value of these herbs should be no less than 100,000.

Shen Lang took it unceremoniously. This was originally the content of the last transaction. The value of the incense burner he sent would not be less than this.

As for what to find ways to get some of the best, it is good to say, if it is not for this time let them realize the importance of the medicine to him, maybe he will just get confused.

“I don’t know if you investigated me, I didn’t...”

Yue Qiang was busy waving his hand and wanted to talk, but Shen Lang did not stop and went on.

“My last time in the Pingxi medicinal materials market, I found a batch of medicinal materials in Qiongzhitang and spent 500,000. As for the results, you saw it.” Shen Lang spoke and took out a bottle of treasured soup. And put it on the table.

Yue Qiang quickly exchanged their eyes. They naturally know this. Shen Lang took out such drugs, of course, to investigate the source. The refiner can’t investigate, but the source of the drug can be found.

“Do you say that 500,000 herbs can extract such a point?” Yue Sheng could not help but questioned.

Shen Lang glanced at him. This time he responded to him: “Since it is called Baibao, it is naturally very concise. It is almost less than forty bottles. Now I don’t have that much in my hand. I took a little to my mom. ”

Yue Sheng did not say anything. The little medicinal materials they brought this time were worth more than 100,000 yuan. The number of medicines worth 500,000 is not clear. Refining a small bottle is too exaggerated, but if there are thirty or forty bottles, it is acceptable.

Hearing that he once again stressed that he had to take it to his mother, Yue Qiang also had more peace of mind.

“So, this treasure is also the cost of medicine, it has already reached more than 10,000. It is worth a lot!”

Yue Sheng was snoring. He heard that Shen Lang said that he could afford to buy it. He was unhappy. He felt that it was also a drizzle for the Yue family, but now it is more than 10,000 for a small bottle. It is really not cheap.

“Lang brother, if you sell it to us, how much do you want?” Yue Qiang is only feeling that Yue Zhennan knows that he should ask him about the price at this time, there is a test and buffer.

“Fifty thousand bottles.” Shen Lang said directly.

“Fifty thousand!” Yue Sheng immediately jumped up: “Nervous disease! You grab money!”

Yue Zhennan was stimulated by the jade price of two million. This time, I was psychologically prepared, but it was also a bitter smile: “I said Lang Ge, you also know that we are really sincere and will have a lot of Buy, give you a friend price!”

The cost of Shen Lang’s accounting is two or three thousand. It can sell two or three thousand yuan at ten times the price. It is the profit that he can accept, but the price is certainly higher.

He looked at Yue Sheng pointed to the table: “How much is this table? How much is the cost of the ingredients?”

Yue Sheng opened his mouth and wanted to argue and tolerate it.

He doesn’t know about refining, but it is common sense to use the analogy of restaurant dishes. Basically, it has to be several times the price, like a plate of potato silk, some places a dozen or more, dozens of big hotels, the cost may be two or three.

But everyone knows that the cost can not be used to directly calculate the price of raw materials, restaurant decoration, depreciation, rent, water and electricity, taxes and fees are all costs.

“The Shen brothers have a reason to say. The cost of light medicines is more than 10,000. It is also a time-consuming thing to refine so many medicines into this treasure, and 50,000 is fair.”

Yue Qiang’s words, don’t say that Yue Sheng is incredible, Yue Zhennan is also surprised to see him.

He sighed, the people who refine the medicine, the formula and the technology, these are irreplaceable! And must be willing, with the power to threaten the forced refining where to dare to take the father?

It’s enough to say that people haven’t robbed fire.
