

First Strong 671

Chapter 671 - Interlocking

After the third ring was cracked, they had already left the huge pit. According to the distance, it seemed to be deep into the ground, but the specific environment is still unknown.

When I came to the fourth ring, the south water stopped the waves.

“The last time we came over, it was the fourth level. But it is full of sinister, can a small friend be sure?”

I haven’t encountered any other organs just now. It should be their previous intrusion, one by one, or consumed.

The danger after the fourth ring is still not consumed, because they have not broken in, and Nanliuchuan has been injured and has to retreat.

Shen Lang smiled and said: “I didn’t dare to say that I was sure before I saw it. But the seniors had already had an experience. It should be easier this time!”

Nanliushui hesitated: “Do you think that I am coming to open, do you help your brother better, or continue to open?”

Shen Lang understands the entanglement of the South Flow, and hopes that he has a way to pass without a crisis, and that he is still at risk.

If this is the case, Shen Lang will open the array, and he will be afraid of the case, then their brother’s life will be in the hands of Shen Lang. But if he came, he was afraid that Shen Lang could not help Nanliuchuan.

“Or I am coming! If you come, everything is still the same.”

Shen Lang said it is very simple, but the meaning is very clear – the South Water is still not working!

This makes the Nanliushui listen, naturally it is a bit unconvincing. After all, he is the most proficient one in the Nantian family, and is also a rare master of the recent generations.

However, Shen Lang has already proved his strength by opening the first three levels.

Nanliu water took a breath and arched his hand: “There is Lao Xiaoyou! My two brothers are relying on you!”

This statement is somewhat dignified and reveals his slightest concern.

After all, they are only one side of the relationship with Shen Lang. They will make up their minds to choose him because they lack the talents of the law and it is not convenient to find other famous artists.

But trust has not yet been established, and anyone can guess that this billions of ring arrays must be a treasure. And the treasure is the easiest to be greedy!

It is true that one share may be enough, but who can monopolize it, who is willing to share it?

Nanliushui turned on his own to open, and there are some such ideas, to ensure that both of them have a control of the situation. Now let the Shen Lang come, and let them use the cannon fodder for the pit...

Shen Lang smiled and said: “Don’t think so much. What’s in the billions of ring arrays? I don’t know. I need to work together in the future. How can I do people who are not reliable?”

The expression of his rumor made the face of Nanliushui stunned.

Shen Lang did not have more nonsense, directly past, open the fourth ring of the array.

When I first came over, he had already counted the number in his mind by observing the previous level. This fourth ring is not isolated, and the third ring that has been opened, and the fifth ring behind it will be related.

So if you want to open it safely, you must do it at the same time!

In fact, strictly speaking, each ring is associated with others. So after they went out, they came back to re-open, and the formation was not cracked.

This was discovered. When the third ring was opened, the problem of the fourth ring was considered.

As for the previous three rings, they did not show up because they already knew that the authorities were invalid. The formation can be closed by itself, but the trap can't be – for example, a poisonous arrow, no one will make up after the shot, naturally there will be no more poison arrows next time.

Now to the fourth ring, the last time I went to Nanliuchuan was injured, and for the face of the old face, I have not said in detail about Nanliuchuan now, Shen Lang had to take care of it.

When the south stream of the South Stream was ready, Shen Lang began to open the fourth ring.

Nanliushui is really real, his steps are exactly the same as himself, and there is no strange place!

And he himself has proved that it is okay to start.

Now, no matter how much, the two old brothers are ready to wait for the law to open, and immediately rush in and grab time!

At this time, Shen Lang disappeared!

This surprised both people. It disappeared at this time. Will the kid find it dangerous, and he ran first?

Just as they looked for their eyes, they found that the figure of Shen Lang was flashing again, and it turned out to be back.

When they were inexplicable, Shen Lang was the last step to complete, and quickly stepped forward!

The Nan brothers glanced at each other and quickly followed.

They are a bit lucky in their hearts. It is dangerous to enter the fourth ring. The two of them are not absolutely sure. Now Shen Lang grabs advanced, regardless of the purpose, it is to attract firepower for them.

But after they followed in, they were surprised to stop.

Shen Lang did not encounter danger. They did not encounter danger. Instead, they saw Shen Lang standing calmly.

“What’s wrong?”

“How could this be?”

Shen Lang looked at them and smiled: “I don’t know what the danger you encountered last time But to skip this ring, you must start the 3, 4, 5 ring at the same time!”

The South Stream was an expert and was immediately inspired.

At the same time, it is like a multi-touch mobile phone, but it is not absolutely necessary. At the same time, there should be a buffer time. As long as it is completed within that time, it is completed at the same time.

It was like when he came in, he finished the final maneuver, and finally let go, to the stone wall to close, there is still a little time, as long as you can rush to the past there is no danger.

“There is still such an operation...” The south water is a bit awkward.

They are not the first time to come. After going back, they are constantly deducting them again and again. I did not think of such linkages, but thought about how to speed up the avoidance of dangerous institutions.

I did not expect to “open the lights on the fourth floor, go back to the lights on the third floor, and speed up the lights on the fifth floor”...

“That is to say, behind the ring, we can use this way to open?” Nan Liuchuan is excited.

Shen Lang provided a good idea to make him aware of the feasibility.

“So, I just said that we need everyone’s concerted efforts. I just tried this idea just now. In order to be successful, I have to do it myself.”

“Please!” Nanliuchuan hugged his fists at Shen Lang, and he was obviously respectful.

Even his brother’s plan, which everyone did not think of, was not only discovered, but also proved, it can be seen.

The south stream is the speed of shaking the waves!

This is not as simple as pressing the three keys at the same time. When manipulating the fourth ring, return to the third ring to operate, then come back to the fourth ring, and then rush to the fifth ring!

“Shenlang Xiaoyou, Nanmou admire!”

Chapter 672 - World of locks

According to the thoughts of Shen Lang, it is not him alone, but three people working together.

The current one, when it is completed to the critical point, is handed over to the weakest Nanliuchuan against the law, and it is good for him to control it. The former ring that has passed is the South River running back.

Shen Lang is rushing to advanced, and manipulating well before the next ring.

Such a rhythm came very smoothly, and the crisis that had plagued the South Brothers was not shocked.

All the way to the ninth ring.

“Hundreds of millions of ring arrays, not really billions, the more they are arranged, the more complicated they are. It is already very remarkable to the present level. I estimate that this ninth ring should be the last portal.”

Shen Lang looked at the front of the array and felt a sigh.

“Shenlang Xiaoyou, this time thanks to you, or else we have two old bones, not yet able to toss here.” Nanliuchuan sighed.

This is really a feeling of sentiment, the last time he was injured, and the depth of this ring, the latter crisis will certainly grow bigger and bigger.

“At the moment, are you still not ready to talk about the situation inside?”

Shen Lang took a joke and said that the Nanliuchuan brothers were stunned.

“Forget it, it doesn’t matter, it’s already at the door. Keep moving! It’s still the same!”

“...” They stumbled and wanted to explain that Shen Lang had already started to move, and he quickly joined.

The key to the trillions of ring arrays is the “ring”. This way, not only Shen Lang understands the layout of the billions of ring arrays, but the south stream is also deeper.

Although the ninth ring is obviously more complicated, it only makes the south flow water dignified. It is still not a problem for Shen Lang. He directly sees the core.

However, this time, the situation is that Shen Lang is also unexpected!

When the eighth and ninth rings were almost simultaneously opened, Shen Lang quickly rushed in, but there was no way of seeing the scene, but a clear and cheerful space.

A bright green space!

Just came all the way, although the change of a ring, but the whole is the same as that inside the giant pit, it is still relatively dim.

It suddenly appears in a bright green space, making Shen Lang feel a little dazzling.

The two brothers of Nanliuchuan and Liushui also appeared next to him.

“Shenlang Xiaoyou, we are not holding you, we don’t know how to say it.”

“This is a secret that our Nantian family has spread since ancient times. It was not until our generation that we found this place. It is said that behind this one hundred million ring array, there is a door to heaven, leading to the fairy world.”

“So... if we first explain this to you, you will not believe it, you will feel that we are lying to you. Instead, you may not come, or you are not willing to go all out.”

“It has been a long time since we found the entrance to this mountain. And it has not been harvested until the last fourth ring, but it is dangerous.”

Their brothers said one by one, like a heartfelt, rather than a dialogue that was compiled in advance.

“So... In fact, we don’t know what the harvest will be. It’s just a secret that has been handed down for hundreds of years. No matter what is inside, we have to explore it. In general, this is a mission of inheritance. If we finish it. The younger generation does not need to bear the burden.”

“In fact, at the time we wanted you to choose a fixed remuneration, and we will never treat it badly. But if you have chosen it, we will not affect you, and it may make you doubt.”

Shen Lang shrugged indifferently. They had their inconvenience to say, and for him, exploring a secret, the process itself is very interesting.

Not to mention that it is very likely that there is a small world that has never been seen before. It is very rare to have a “Hundred Million Ring” practice with a nine-ring.

“Don’t say anything else, what are you going to do now?”

Seeing that Shen Lang did not blame them, the Nanliuchuan brothers quickly apologized and immediately became serious.

“It is said that this is the gateway to the fairyland. Of course, it is impossible. The hundreds of millions of ring arrays are obviously artificially arranged. The information is also spread out by people. Can people block the road to heaven?”

“So our conjecture should be that a predecessor discovered a brand new hole in the land, in order to enjoy resources, or to protect the mind, so blockade here with the array. Only himself, or his descendants can come in. ”

The possibility of their discussion is similar to that of Shen Lang.

Who discovered a small world and didn’t want to enjoy it alone! The two homes of Nan Qiao, as well as some other big sects, have mastered the methods of entering the dead forest, but they all defaulted to the “restriction rules” of Death Valley, which is a balanced sharing, compared to all monks and all of the big base. Human beings are also very rare.

The last time they talked with the rain, they also tried to protect the dead forest.

The predecessor of this array should be the same mentality.

“That is not known for hundreds of years or thousands of years ago. Since we can be explored in this world, we can be opened up today, indicating that we should be good people!”

“There is such a chance We can’t live up to the grace of heaven. How about exploring?”

Shen Lang almost laughed, the South family apparently planned to develop here, but now it seems that it is not worth a fortune!

“Of course, chances!” After he finished, he asked again: “I don’t know if your ancestors left a map of this square hole and heaven.”

Nanliuchuan shook his head: “Our ancestors also got this information, but they did not find it.”

“Nothing! Even the billions of ring arrays we have come over, and any other problems are not a problem.” Nanliushui full of confidence, this smooth, really makes him happy.

Shen Lang did not expect them to have a map, but now they took out their mobile phones.

“I still have to look at it first, don’t bother, we just came out of the mountain...”

This made the expression of the two people in Nanliuchuan solidified.

Shen Lang is just a lot of thought today, they are hard work!

If this is just from the huge pit in the middle of the mountain to the outside of the mountain, the world is still the world, there is no hole in the sky, then they will really blow up...

“how about it?”

When they asked, they couldn’t wait for the waves, and they quickly took out the phone.

If the phone still has a signal, the answer is self-evident.

“No signal!”

Hearing their a little excited voice, Shen Lang poured a cold water: “Don’t be too happy, I have calculated it before. It was going to the national border, drifting down from the waterfall, the mountain is definitely in the present. In other countries, if there is no intention to open it, it is normal to have no signal.”

“...”

Chapter 673 - Is that Tyrannosaurus?

After listening to the analysis of Shen Lang, the two old faces became ugly.

Shen Lang is only a little effort now. If nothing is obtained, it can be regarded as an adventure tour. They have paid a huge price, no matter time, effort, material and so on.

If it is only now out of other countries, then they will really be a direct blood spit out...

“Go! Don’t just look at the phone, look at the environment first.”

Shen Lang poured cold water just thinking of this possibility. Now there is no satellite signal on the mobile phone, and the possibilities are many.

Not to mention foreign countries, that is, in the country, the signal coverage is only the base station. If there is no deep mountain, there is no base station nearby, and there will be no signal status.

But I didn’t expect the reaction of the two of them to be so big. In order not to hit the two old men, he shut down the mobile phone and flew directly to the front.

In this green-eyed environment, Shen Lang went all the way to the top of the tallest tree nearby.

Two people from the south of the Nanliu River also came along immediately, standing on the top of the tree, and everyone looked in different directions.

“This is definitely not our world!”

Nan Liuchuan murmured.

If you come out of the mountain, you can still see those mountains.

But now it is a very broad forest, but there is a mountain, but I did not see the rocky structure of the previous rock.

“Let’s explore. For safety, it’s best not to separate.” Nanliushui made a suggestion.

“Let’s go ahead!”

After Shen Lang finished, it was a direct flight and fell.

The two brothers glanced at each other and didn’t quite understand what he meant. They could only follow.

When I saw that Shen Lang was carefully observed, I reacted.

Just too excited, forgot to check the billions of rings. In any case, you must first clear the way out.

Just when they came out, it was in this green world. Now I have a careful inspection. I can see what happened just now, nothing!

Nothing, how come back?

Nanliuchuan is not as good as them in this respect, so there is no turmoil, so as not to help out. He chose to fly on a branch, avoiding the influence of their judgment below, and also alert everyone.

The south stream was also searched around with the waves.

In fact, Shen Lang did not panic. Since it is a billion-dollar ring, it cannot exist independently. Just like a door, it must be one, no matter whether it is turned on or off, there will be traces.

It is a one-way glass, and it also uses the environment, or there are traces to find.

After the South Water joined the search, Shen Lang quickly turned to the distance!

When Nanliuchuan looked over from the top, he had already found the start of the formation!

Like the giant pit, here is another mouth of the billion ring array, hidden in this forest. At the beginning they were all looking around, and when there was no result, Shen Lang went far.

Sure enough, the people who arranged the array had such an idea, so the cover of the first ring reached a large extent, and the place to start was in the distance.

After the launch of the Shenlang method, the Nanliu Shuima uploaded the sound.

“Become! Shenlang Xiaoyou, there is an entrance here.”

Shen Lang rushed back and immediately found that in the place where they had just arrived, there was an abyssal crack in the mouth, which was dark and lacquered, and could not see what was going on.

But obviously, this should be the entrance to the back, hidden by the billions of ring arrays.

“I figured out the way back. Now what we need is to remember this terrain and look for an obvious reference.”

After Shen Lang finished, he went back and closed the billion ring array again, and re-hidden the crack.

When he returns, Nanliuchuan is already in action!

The old man is like a knife, and the tallest tree in the neighborhood is from the bottom to the top, and all the branches are unloaded.

Cutting trees with his strength is certainly better than sawing. In a short while, it is already making this towering tree towering into a flagpole-like independence.

It is the strongest tree in the vicinity, whether it is nutrients or branches and shades, it squeezes the living space of the surrounding trees.

Now that all of its branches have been cut, it has left a circle of space, and this bare “flagpole” is more conspicuous.

The tree tops that everyone flies again have been re-observed. This is only a specific positioning. To find it here, you need to have a reference to the surrounding environment.

Then everyone chose a direction to explore.

Because it is a completely strange environment, and it is very likely to be a small world like a dead forest, everyone expects a great harvest, whether it is a beast or a cure.

So they did not fly from the top of the tree, but hurry on the ground.

I walked out for dozens of miles, but unfortunately, nothing was achieved!

To say disappointment, there must be a little bit of it. In the dead forest, even if it has been explored a lot of areas, there are no beasts and beasts, there is no big year of elixir, but all kinds of medicines are not lacking.

I barely saw I don't know if I don't have these species here, or I don't have the survival.

However, one thing is certain. The degree of aura here is similar to that of the Earth and far from being comparable to the dead forest. It is precisely because of this that they will let them doubt whether they are still on Earth when they just came out.

“Maybe I chose the wrong direction.” Nan Liuchuan smiled.

This is not a blame, but a bit of helplessness.

Shen Lang smiled and said: “How far does this go? Before we were in the forest of death, there was no experience of going straight into a thousand miles without the shadow of a beast.”

Nanliuchuan thinks too, “haha, it’s the old man who’s worried, or the little friend is calm!”

“Go ahead! Since there is nothing to gain on the ground, we can speed up a bit!”

Shen Lang is not a suggestion, but a decision. After that, he speeds up.

The two old predecessors unconsciously, the degree of admiration for him has become very high, and at this moment did not feel that something is wrong, followed by acceleration.

After about a hundred miles away, they stopped because they felt the presence of strong species in front!

“Keep alert, slowly lean back.” Shen Lang reminded me, then everyone slowed down a bit.

The two people in Nanliuchuan were also excited and finally got something.

At this time, there was a great shock and sound in front of me!

When they stopped to watch, they were already in the visible range. It was a huge creature, rushing in the forest, swaying and breaking the towering trees.

“That is... Tyrannosaurus?” Nan Liuchuan’s eyes widened, a bit unbelievable.

I saw a dinosaur here!

Chapter 674 - Iron armor

I feel that I have encountered Tyrannosaurus Rex because the shape and physique are too similar.

But in fact, if you look closely, you will notice that it is obviously different.

On the one hand, its front catch is not as short as the Tyrannosaurus Rex, it is still long, and the claws look thick and sharp.

On the other hand, it is much faster than Tyrannosaurus Rex!

From the discovery of an abnormality in front of it, to the vibration and sound it is heard, to see it appear. But in a short while, from the sight of the line, to the front of them, not far away, but only a few seconds!

No need to remind people, Shen Lang and Nanliu Chuannan water two people, are quickly pulling up the body, rose to the top of the next tree, avoiding the sprinting “Treasure Dragon.”

“Roar!”

When they arrived at the bottom of the tree, the Tyrannosaurus Rex quickly stopped the body and screamed at them. Then the body slammed into the side and knocked a big tree directly.

The instigation of its tail broke another big tree.

If the monk is not strong enough, seeing this situation is already scared to death, and it is too late to run and is crushed.

But now all three of them are above the realm of the gods. The ravages of this “Tyrgyzstan” have little effect on them, but they have leapt to another tree.

It ran rampage underneath, and the claws lie directly on the trunk, and immediately the branches shook, and even fell, the leaves were falling.

However, it can be seen that its physique and weight are strength-type players. The speed can be so fast, it is impossible to jump. It is impossible to jump.

Shen Lang, the three of them, of course, are not fleeing above, but a closer look at the close, to see what this guy like Tyrannosaurus is, what the end is.

“Roar!”

At this time, Tyrannosaurus suddenly looked up at the top of the tree, and in the huge mouth opened, it was actually a fire!

The speed of the fireball was very fast and the power was great. With strong energy, the crown of the whole tree was quickly burned.

“Iron armored red dragon! This is the iron armor red dragon!”

The south of the water called out.

Shen Lang quickly recalled and searched for the memory of the iron armor.

This thing was actually heard in his previous life, but he did not see it before, so he was not particularly impressed. The shape just seen, like the two old men, was first associated with the Tyrannosaurus Rex inside the dinosaur.

This is an unknown world. If there are dinosaurs living here, it is not an incredible thing. So before the south water shouted out, he did not associate with the iron armor.

But with this clue, Shen Lang immediately recalled a lot of relevant clues.

There are too many worlds about the legend of the dragon. Tianlong, Shenlong, Feilong, Hailongwang, and Xiaolong... one of the ancient Protoss advocated by the ancients, and later generations generally think that it is a totem developed according to the serpent.

There are also legends of various dragons in the West, which is a powerful image of a beast.

In the realm of comprehension, or the relatively high level of comprehension, for the dragon, it is divided into two. On the one hand, I will not believe that every river and every sea has a dragon king, which is the perfection of the deification system.

On the other hand, I believe that in ancient times, there was a powerful race like the Dragon. In our world, many of the legends left, to some extent, can be seen as some traces of the dragon's residue.

For example, "Longsheng Jiuzi" does not specifically refer to a nine son of a dragon, and it is most likely a hybrid bloodline that the dragon breeds. Because before the more and more perfect myth, it is said that the dragon is so embarrassing, like a fork in the West, the dragon is a fork of many species.

However, there is no blood race left. After all, the stronger and more advanced, the more difficult it is to reproduce. This may be because the dragon is everywhere. If the chance is small, the number and type will increase.

There are very few beastly beasts that are themselves powerful races. After being forked by a dragon, it is impossible to breed a strong race of variation.

There are well-known seniors who have compiled a list of beasts and beasts, and there are close relatives related to the dragon.

Among them, there is a category of "iron armor red dragon". The description of it is that the body is huge, the power is infinite, the scales are like iron armor, and it can spray red inflammation.

The process of the Nanliushui research array method has extensive and in-depth study of all kinds of ancient books, because the array of methods is all-encompassing, not just a skill.

Seeing that it can easily knock down the giant wood, but also can spurt fire, suddenly recalled the iron armor.

“Iron armor Red Dragon... What about it?” Nan Liuchuan asked.

He apparently has never heard of the statement of Tiejia Red Dragon, and naturally he is even less aware of the specifics.

“If it is the iron armor red dragon, although it may be thin, but it also has the dragon’s blood, it can be said that all are treasures.” Shen Lang added a sentence.

“Not bad!” The South Water is also excited.

Nan Liuchuan’s gaze changed immediately, and nothing was achieved, which made him very helpless. I just didn’t have the interest, thinking that this is a dinosaur, and that scientists have scientific research value in terms of species genes, and they have no meaning to them.

It is now found that this may be a powerful beast with a dragon’s blood. If it can be successfully hunted, then this trip will be worthwhile.

“Do you do it?”

In the time they just observed and communicated below the iron armor Red Dragon did not give up their attack, in addition to hitting the trunk to affect them, it is also a continuous fireball.

“dry!”

Shen Lang also made a decision immediately. There was no gain in a large area before, perhaps because this is the site of the Ironclad Red Dragon. It is too much trouble to get out of this site and look for other things.

Since it’s here, let’s talk about what you’ve seen before.

“Good!” Nanliuchuan immediately applauded, and quickly said: “I said it first! Since it is all treasures, it is well distributed, and everyone can gain something. But Nedan, who is the one who killed it? !”

“...” Shen Lang is a bit speechless. This old boy is really not at all polite. If he hasn't started yet, he will first plan to share the interests.

“it is good!”

Looking at him, it seems that Nedan is inevitable, and Shen Lang has not refuted anything, and directly agreed.

At this time, Nanliuchuan was polite: “We are old, we should let the children. Shenlang Xiaoyou, you should try it first! If you can kill it, Neidan will be yours.”

This is a sincere statement, in fact very fake.

This is a Tiejia Red Dragon, who can be sure of a person to get it? There may be pressure on the three people together. Let Shen Lang try it first, but he wants him to think that he can't do it.

That way, their two brothers joined together and they were justified. Even if two people can't get it, then it is called Shen Lang to help, which is to help, but not the first.

“Good! Then I will come first!”

Shen Lang did not want to grab this Nei Dan, but Nan Liuchuan had to be cheap and want to sell let him directly agree.

Chapter 675 - Giant

According to Shen Lang's original idea, when everyone comes together, they will work together, and there may be other gains in the future.

Even if there are no other beasts in the back, you can get rid of this iron armor, and there are many gains. You can still divide a lot.

Unlike the last time in the dead forest, when he had the pressure of a lord, it is much easier now. If Nanliuchuan needs this inner dan, then let them.

He used to give three to them!

But now the words of Nanliuchuan are not enough. You really want Nedan, and you can't use this way. Let him try it alone, don't change them, and show that there is only one person to bully others.

In this case, Shen Lang will come by himself!

Nanliuchuan was ready to listen to Shen Lang's resignation. He did not expect to agree with an opening, which made him stay a little.

"Well, then Shen Lang Xiaoyou first, we will rush for you, if there is a need to help please open." Nanliuchuan still maintained the grace.

Regardless of whether he is still in the south, he does not believe that Shen Lang can get a tight armor.

Although limited to weight, the armored red dragon can not leap to attack them, fireball attacks can also be avoided. But fleeing dodge, and attacking and killing, that is two different things.

They are waiting to see the jokes of Shen Lang!

As long as he fails, he will be embarrassed to open his mouth afterwards.

At this time, Shen Lang did something that they didn't think of...

This cockroach quickly flew to a tree in the distance, avoiding the edge of the armored red dragon, leaving them both under the fireball attack!

This is not the key. As their eyes look over, they see that Shen Lang is actually undressing!

Do you want to show off your small body and attract the attention of this iron armor?

This is not a human woman. It is a good figure. It falls in the eyes of the iron armor and is just a fresh meat.

Shen Lang was a quick effort to peel himself off, including shoes and socks, all placed on the branches, and then flew over here.

Nanliuchuan is speechless for a while, is this OK?

However, Shen Lang did not come directly to the top of their tree, but flew down and went straight to the iron armor of the ground.

Iron armor Red Dragon, also found that Shen Lang is rushing over, just a burst of attacks have no results, so that it has been anxious, now watching the Shen Lang came, immediately stepped on the past, opened the blood basin and bite the past !

“This... what is this...”

“How could this be!”

On the top of the tree, the brothers of the Nanliuchuan South River are watching the following fights. At this moment, the eyes are almost out of the eye, and they simply suspect that they are wrong.

The deep waves flying from the distance to the ground, the closer the body is, the bigger the body is. When it landed, it has turned into a few meters high!

When the iron armor red dragon flew past, Shen Lang turned a corner and the body had slipped past it.

And his body, which continues to grow taller and bigger, has quickly reached a height of more than ten meters, which is no less than the iron armor of the Tyrannosaurus Rex.

Sliding to the sinking wave beside the iron armor, and slamming his armor on the back of the armor!

“Roar!”

The armored red dragon quickly turned to the Shenlang bite, and the huge tail, even more stunned, came to the front of Shen Lang.

Shen Lang’s body continued to grow taller and bigger, and then he did not see him dodging. He directly grabbed the tail of the Iron Armor Red Dragon with his hands and smashed it out!

Because he got bigger and bite into the big mouth of his body, he left the side of Shen Lang because his body was thrown out.

“Hey!”

The body of the armored red dragon was smashed by several waves of towering trees, and the branches burned, and the branches that burned on it continued to fall.

The two brothers of the Nanliuchuan, affected by the impact, quickly rushed to the distant branches. Their bodies are flying backwards and they don’t want to leave for a moment.

Seeing before, it is simply subverting their 90-year experience!

Shen Lang is a person!

Now it is directly turned into a giant!

When he flew over to the ground, he had not yet reached the iron armor, and after he was wrong, he was almost as tall. When I wrestle, it is already a lot higher...

If it is not that Shen Lang has finally stopped getting taller and bigger, they really have to be scared!

But even so, now they look in the tree, the same wave of the iron armor that fights with the Tyrannosaurus, like the average person with a dog.

Iron armor Red Dragon is obviously also wise. It was just a full-strike attack. But after being shackled, I immediately saw the changes before and after the swell. The body today is not the level at which it can be crushed.

It quickly folded and bite into the arm of Shen Lang, forcing him to release his hand.

“Roar!”

Re-facing the sinking waves, it lifted the sharp claws, the legs are also a strong support, speed and agility, far from being comparable to Tyrannosaurus Rex.

With a scream, it spurted another powerful fireball!

Before hitting it, it is because Shen Lang is small and easy to dodge. But now the block is bigger than it It should be easy.

The number of sinking waves has increased by N times, and agility and speed have natural influences. However, it is still not a problem to evade the attack of this iron armor.

After he avoided the side, he immediately reached out and directly broke a towering tree to the waist. Then he used this giant wood as a “dog stick” and slammed it directly against the iron armor!

The armored red dragon quickly moved to the side, avoiding the giant wood’s blow, and went straight to the deep waves, once again biting his body.

The body of Shen Lang has become so big, it is also a good thing for it, because the target is easier to confirm. In addition to the sharp teeth, its front catch is also caught like the wind, and immediately the space around the Shenlang is blocked. .

Its claws seem to shatter the body of the sinking waves!

At this time, the sinking wave was that the giant wood in the handle was placed directly to the side, and it was stuffed into the mouth of the iron armor, let it bite the giant wood, and he actually went forward and kicked. In front of the iron armor of the Red Dragon.

The huge “beep” sounded, and the bitten giant wood was instantly torn by the teeth of the iron armor. At this time, the foot in front of the body, the huge impact force, is also letting it almost roll out, and successively hit several large trees.

And Shen Lang went on to jump over the past, sitting on the armor of the Iron Armor, a huge fist, punching the head with a big punch!

When was the iron armor red dragon so ruined by this intertemporal period? Immediately turned to the head of Shen Lang and bite it!

Shen Lang is a hand stretched out, grabbed the huge mouth of the armored red dragon directly with one hand and the lower jaw, firmly opened its mouth, and then slammed its head to the ground!

Chapter 676 - Jane Dragon Slayer

Two people in the south of the stream in the south of the river saw the trepidation and stunned.

Who has seen such a fight with a senior beast?

I don't know if I thought it was Wu Song playing tiger!

Even if Wu Song is a tiger, there are no such huge people and tigers!

There is no one in this fight, but it is not easy at all. Every struggle of the Ironclad Red Dragon directly causes the surrounding soil to splash, the trees that are touched, or broken or swayed.

And its tail is also very flexible, try to rush to the past on the back of the ride.

It is a pity that the arms of Shen Lang are not only strong, but also like steel, iron tightly holding its big mouth, not giving it a chance to bite. Every time he wants to shoot him, he kicks back and kicks.

“Roar!”

With a bang, the Ironclad Red Dragon squirted the fireball again!

But this time it is a bit different. It is controlled as much as possible, so that the fireball is only sprayed on the edge of the mouth, not far away.

The purpose is very simple, that is, to force the sun to let go.

However, because its mouth was greatly opened, it could not be controlled. The fireball squirted and went out, and slammed into the trees next to it.

“So what... Shen Lang Xiaoyou, don't play it...”

The south stream of water was on a distant branch and could not help but remind him.

He just noticed that the giant waves of the giants had a smile on his face. This way to directly grab the mouth of the iron armor, it is obviously a thankless thing, just want to verify his strength.

“it is good!”

The response from Shen Lang is also a huge sound.

And his hands quickly loosened, and then the iron armor Red Dragon had not had time to bite it, and quickly punched it over his head!

The current Shen Lang is like a mixture of swallowing a scorpion and a giant rhinoceros beast. The power of each punch can break the rock and transform the steel.

However, the head of this iron armor is also very hard. Even if it is beaten constantly, it does not break it, or even stun it.

But Shen Lang played very cool!

Now his two fists, like two big iron balls, are constantly squatting on the head of the iron armor.

He also wants to see how much “iron” is in this “iron armor”. It has already used the “big whisker dragon statue”, and each punch has a huge power bonus!

When it was said that it was too late, although the volume of Shen Lang was huge, it affected the speed of punching, but it was still very fast. When the iron armor did not have time to bite him, he was pressed to the ground, but for a few seconds. I was slammed into the dirt by my fist!

The two claws in front of the armored red dragon are very flexible, but they are very flexible. However, because they are pressed on the ground, they have limited space. To the deep waves.

Dig a hole, let it get more space to get rid of the head, and because of the looseness of the body, let it struggle to break the waves!

When Shen Lang was opened, the homeopathic station stood up, then quickly reached out and copied it to its tail!

It was only a few tens of seconds before and after, but finally got the free iron armor, but it was immediately desperate to go forward!

Now that it has no direction, just hope to rush forward, you can avoid the waves that make it crazy and let it chill.

However, it has just stepped forward and the tail has been caught by Shen Lang!

The other hand of Shen Lang has already grabbed the giant wood that had just been bitten by the iron armor, and immediately knocked on its head.

Iron armor Red Dragon is really being mad by Shen Lang!

With its defensive power, the tapping of this giant wood is not enough to explode its head, or even beat the power of its own fist before.

However, it has already been beaten up by Shen Lang, and then continued to tap, it really makes it crazy.

It turned around in spite of everything, and sprayed a series of fireballs against Shen Lang!

Some of these fireballs are smaller, some are bigger, some are faster, some have a wide range of coverage, and they are completely covered behind them, including their own bodies will be burned by fireballs.

The taste of being grilled by the fireball can be uncomfortable. At this moment, the volume of the deep wave is very easy, and he can only loosen the tail of the iron armor and evade it.

Finally, it was considered to force the Shenlang to open, and the Ironclad Red Dragon rushed forward!

However, after only a few steps, I found that Shen Lang had already stopped it in front of it!

Probably continuous fire, let it also a little too much supply, seeing that it is already in front of it, open his mouth, and bite the past with a sharp fangs!

Its power, its teeth, and its claws are all unfavorable means of attack. Today, it has been frustrated, and it has only wanted to escape, and has no intention of fighting. This is an instinctive bite attack.

This time, Shen Lang did not get close to the mouth that grabbed it in the past, but the giant wood held in his hand, quickly smashed the past!

In fact, the whole process is very fast. To be precise, Shen Lang rushed to the front of it and rushed directly into its mouth. At the same time, I saw Shen Lang

Ever since, when it has not bitten into the deep waves, the giant wood has directly penetrated into the depths of its throat, and then with the force of the Shenlang, directly inserted into the belly!

At this time, the rapid advancement of the armored red dragon is equivalent to a strong collision.

Shen Lang pierced accurately, and his hands firmly grasped the giant wood. This is a big tree broken, and the distance is really long enough. The momentary work has been completely pushed into its belly.

At the same time, the opposite side of the collision, Shen Lang also added a force, the whole tree towering trees can not be inserted into the box, and then the hard hit the trunk punch!

The role of this boxing is to quickly shake the giant wood that has been inserted into the abdomen.

This is already a fatal injury, but because the iron armor has a strong vitality, it will not die, and the struggle will be a big move.

But the tremor of the giant wood is the wound that goes down the throat, completely swaying, and directly spread the already huge wounds.

The internal hardship is that the armored red dragon has a armor-like defense and it does not help.

After Shen Lang was in a fist, he then joined hands and quickly turned the giant wood and stirred a crack in his throat!

The process is shorter, and the struggle of the Ironclad Red Dragon has just come out, it has already died, and the body has remained the inertia of the remaining impulse, and then there is no movement.

Squatting or changing state, Shen Lang directly broke its body, and found a big inner Dan.

Seeing that the body of Shen Lang began to get smaller, the south of the stream was busy taking the clothes on his tree, flying over to his side and offering the clothes.

Chapter 677 - Harvest loot

The hand that Shen Lang revealed today, both the Nanliuchuan brothers were shocked.

With the foundation of their millennial family, the reduction of the body is limited to the legendary immortal method, and the realm of comprehension is not so recorded.

In addition to the details of the clothes before the transformation, Shen Lang also let them believe that it is not an illusion.

The clothes on the body will be enlarged and reduced with the transformation, which itself indicates that there is a loophole in the “Fairy Law”, or it can only be regarded as a blind eye.

The magical power that Shen Lang has cultivated is a real physical change. Physical training has reached this level, so they have to admire.

At this moment, they also understand, it is no wonder that Shen Lang can kill the masters of the Master League. It is not surprising that the magical ability of this body is to kill them!

I thought it was awkward before I thought about it.

Then they also understand that this should be the same speed as the previous competition with Shen Lang. Originally, people did not have the idea of forcing them, and they forced people to show them.

At this time, don't say that he said loudly first, that is, did not say, and did not dare to compete with Shen Lang for the inner Dan.

After Shen Lang put on his clothes, he smiled and said: “As the predecessors just said, I will accept Nedan. As for other things, I will not be polite. I will not take this many.”

“Good! We are not familiar with the environment here, or everything is as fast as possible!” Nanliushui agreed.

Shen Lang has just broken the iron armor, and now they can pick the parts they want.

And he is not polite himself, first collect all the marrow fluid.

For this expedition, the South has been prepared many times, and the storage magic weapon is finally coming to use today.

The two people in Nanliuchuan are all visceral parts. The so-called “dragon liver phoenix” is very valuable.

“It’s a pity! This iron armor, the most distinctive one, is the armor of the armor.”

The water in the south is a bit awkward, and of course he wants to peel it out.

Shen Lang understands his mind, just like the last time he swallowed the skin of the scorio. Everyone else wants to bring back the martial art family. This is made into a soft armor, which can be very defensive and can be passed down.

“That’s peeled off!”

When Shen Lang said, he immediately condensed all the blood, dissipated the water, and condensed it into a solid blood cell.

The whole process is not as fast as Dorothy, but basically the same principle is completed.

I was still picking the Nanliuchuan who cut the internal organs, but I was surprised to see it, and then I was not innocent and regretted.

Neydan said that the waves were good, and the marrow fluid was the first. Then they can only retreat to the next, choose the internal organs and so on. Now, watching Shen Lang put the blood in this way, I will react.

Although it is not a real dragon blood, this iron armor is also a high-grade beast at all, and the blood is still extremely valuable.

With the passage of blood and moisture, the entire broken iron armor also appeared to dry up a lot, and the volume was significantly reduced. Nanliuchuan immediately made a decision.

“Good! Then we will strip the skin away!”

Originally not prepared, one is time-consuming and laborious, staying too long is not good. The other is that the storage space is limited. Even if the two of them have prepared for the storage magic, they are filled here. What if there are good things behind?

But after seeing that Shen Lang has collected so much marrow fluid, he has not let go of the blood. They also feel that they can't be so greedy, so let's talk about it.

Looking at the two old men began to get busy, Shen Lang was pondering.

The armored red dragon is a treasure, not exaggerated, such as its minions, better than the giant rhinoceros beast and swallowing the sky.

Just consider the price/performance ratio, even if he has several storage magic weapons, he can't waste it, or he has to get some more precious ones.

“It is said that the iron armor of the iron armor relies on drinking iron water and smelting magma to cultivate, and thus evolved into a body like iron armor. The iron and the magma should be just an analogy of the ancients. I guess the place where it lives may have special crystal ore. The existence of Lingquan.”

The two people who are busy, watching the words that Shen Lang didn't do it again, are relieved, unloading the skin, and can pick out the ribs.

At this time, when I heard the words of Shen Lang, my mind was also alive.

The armored red dragon has the blood of the dragon, and it is still a relatively large component of the mythology. If it is said that it is a long time to swallow and absorb some of the Lingquan, crystal mines, and evolve into this level of high-level beasts, it will be more reliable.

But they did not stop, but accelerated the speed of hands-on.

Going to the search may not have the result, or you should look ahead.

“Shenlang Xiaoyou, or you... or help us to guard, after we finish, how do you go and search?”

Nanliuchuan wanted to say that he wouldn't let Shen Lang first check it out, but he immediately remembered the suggestion that Shen Lang first hunted the iron armor, and then let him alone get the biggest benefit...

Shen Lang naturally guessed his mind and immediately smiled.

“Alright.”

Shen Lang flew up and extinguished some of the still burning crowns and sat down in a distant branch.

However, after all, it is a bit boring. The situation here is unknown and cannot be cultivated here.

After thinking about it, he transferred the function of the sacred armor.

Although it was damaged, he did not dare to use the defense and flight functions of the sacred armor. However, in reconnaissance and other aspects, it still had very good results, so before he came out, he was still wearing it.

After I changed my body, I also wore it in the same way as the bottoming clothes.

Opening the holy armor, that is, using its reconnaissance function, can collect the detailed situation in the vicinity without the need to concentrate too much on himself.

And Shen Lang himself is beginning to recall the process of transformation.

Today, I will choose to use the transformation method to fight the Iron Armor, just want to verify the effect. This is the first time, and there is no previous experience to help, you need to find out your own summary.

Careful recall of feelings, compared to the feelings of cultivation in Xu Yuyue Dongfu, on the one hand, it is now more mature, and this time, the body has also been adapted and strengthened, which can be controlled much faster than that.

But when you change quickly, stretching is very painful and uncomfortable. If the speed is not so fast, it is much better. However, in the battle, a certain degree of pain can make people more awake and inspire morale.

Another experience is that after he has become a huge man, his strength has also grown. With the “Da Shou Mi Long Xiang Shen Gong”, it is simply the momentum of moving mountains and seas. However, the speed is obviously too slow, which makes him quite unaccustomed. It is easy to miss the fighter and not even be fooled by thinking.

Just as he thought about the summary, he heard a voice from the Holy Grail!

A hint that surprised him!

Chapter 678 - I will stay first

Shen Lang started the holy armor, but used the function of reconnaissance. In fact, it is to replace him, the surrounding really has to be close to danger, he will still find out immediately.

But the sound that has just come from the holy armor is not a dangerous reminder, but an update reminder!

The Holy A reminded him that he had completed the latest update and retrieved some damage and reminded him of hardware repairs.

This is not a big deal. The average mobile phone and computer can be updated automatically.

But all the premise is networking!

Whether it is a mobile phone or a computer, upgrading the system, software updates, or automatic updates, the premise is to be in a state of networking.

The holy armor is the black technology product of the river city. It can't connect to the technology network on the earth, and it can't connect to the dead forest. There are many functions that cannot be used. Only the body can be used without the function of network support.

But now in this newly arrived small world, the holy armor has actually been updated!

That means it is automatically networked, that is to say... This is actually the world in the basin city, and it should still be in the basin.

I was surprised because I didn't think of it. I thought it was a small world like a dead forest.

But after confirmation, Shen Lang will not feel incredible. After all, that time overseas, the A-class superpower Costner spent decades chasing the forbidden land, leading to the watershed city-state.

There is a connection point on the earth and there is a second connection point, which is not surprising.

Knowing that this was after the river city, Shen Lang put away his mind and paid attention to the top of the holy armor.

Since coming, how many should also say hello to Bihai, the last time people gave a lot of medium Lingshi to him.

However, he did not hold too much hope. The last time he went online, Bi Haihuan found out and took the initiative to contact him. This time, it was automatically updated and there was no contact.

Think about the space from the Earth, these two points of contact are separated by half of the Earth. The city roads leading to the rivers do not know how many miles are separated.

Moreover, Bihaihuan is not a child who plays every day. Last time, he was trained in a base receiver and a warship.

Because it was impossible to connect to the Internet, Shen Lang did not explore more functions. The last time Bihaihuan contacted him, but now he wants to contact Bihaihuan.

Still in the holy armor is the intelligent black technology that connects the mind, and does not need him to explore the complicated operation, and this is the sacred armor of Bihaihuan.

“Bold! Who?”

Just connected, what I heard was the scream of Bi Haihuan, so that Shen Lang was speechless.

Ok... When I saw her last time, it was only a few months away from the death forest, but now it's been a year away. She probably forgot it!

There has been a holographic picture in his vision. The blue sea is not the same as it used to be. It seems to be in the mech, and it looks solemn.

“Teacher? Are you here?”

Bi Haihuan also saw him, and immediately changed into a pleasant voice and expression.

“Sorry, I thought I just...”

“Haha, I thought you forgot who I am.” Shen Lang tweeted.

He is reacting at this time. Probably this is Bihai's own relationship with the Holy Grail. Therefore, when you contact, you don't need to confirm it, you can connect directly, just like she appeared directly last time.

And now she was in the task, suddenly cut into a picture, just like the average person is in class, or a meeting, suddenly a phone came in and automatically connected, of course, will be annoyed.

“Sorry, teacher, wait a moment, I will contact you soon!”

Bi Haihuan’s face was apologetic, but she still cut off the contact, but the situation on her side was very urgent.

The picture that Shen Lang saw was her. She could only see that it should be in the cockpit of the mech, but it was not practical to practice, test, or practice training.

Last time she was trained at the base, she could go directly to the spaceship to find her. It can be seen that it may be a practical assessment now, and it cannot be interrupted and affected in advance.

Shen Lang is not in a hurry. The speed of the spacecraft here can be very fast. Even if the distance here is farther apart, it will be a little more time.

Now he needs to consider how to send Nanliuchuan and the South Stream.

Of course, this secret cannot let them know. It is best not to know the state of the world. He is going to see Bi Hai Huan, he can’t let them go, it is best to let them go back as soon as possible!

Looking at the two old people who are still struggling to peel in the distance, Shen Lang is slightly awkward.

This is not a heavy-hearted friend, but a big relationship, and from the perspective of friendship, of course, it is also the blue sea happiness that saved him. It is heavier than the two of the first group, and they can only be thrown away.

Shen Langfei returned to their side and looked at the process of their peeling.

“The skin of the iron armor is really hard as iron! The hard friend is piercing directly from the mouth, or else it will not be able to hurt it.” Nanliushui smiled and complimented, lest the waves are dissatisfied with their speed. .

They have actually figured out that it takes more time to cut the skin. So now it is to peel off the flesh and blood, prepare it to curl up and take it away, and go back and slowly cook it.

However, because of the large size and the fact that the dried flesh is more difficult to separate, the whole is still relatively slow.

“Shenlang Xiaoyou, if you become a giant again, help us to tear it off a few times.” Nan Liuchuan said half-jokingly.

Shen Lang said in a positive color: “The two predecessors I have only shown this in front of the two exercises, but also hope to keep secret!”

Hearing that he said, the two people in the south of the stream were immediately serious.

“This is natural, the guilty of the guilty of the guilty, the sin of the world is so rare, the rumor is rare in the world, and it may be ravaged when it is passed out. We are old, and this is still known.”

Shen Lang said that he only showed it in front of them, and they all had some pressure. This is to say that if they are passed out, it is their business.

“Right, don’t worry, pick up slowly. I am not going to go back. I am here to find a place to practice and see if I can refine this Nedan.”

The words of Shen Lang, let the two people in the South Liuchuan face each other, can not help but suspicious.

If the aura here is too aggressive, at least this piece is normal. Moreover, there are iron armor red dragons active, and there may be other high-level beasts. It is very dangerous for a person to stay and retreat.

“Oh! Then take care of yourself. With your ability, one should be able to turn back the billions of rings. We will not wait for you when we get there. If we finish it, we will go back!”

Nanliushui made a decision on behalf of their brothers.

In their view, it is very likely that Shen Lang would like to explore the “iron-water magma” that the iron armor has been devouring evolution. For this legend, they are also heart-warming. But I also thought about it just now, even if there is such a crystal mineral spring, it is not taken away.

The iron armor red dragon must be absorbed by a hundred thousand years, and it can evolve into this kind. People can’t stay and absorb it. If it is taken away, it is limited, but it has no price/performance ratio.

Besides, Shen Lang really explored it, and everyone has the possibility of the next cooperation. So at this point they don’t have to keep up with the mind.

Chapter 679 - War secret

After telling them clearly, Shen Lang would say goodbye to leave first.

He can walk freely, and Bi Haihuan can locate it. But in order to go back and find the way, he still has the opportunity to leave regularly, to ensure that the cracks in the array can be found.

However, it is determined that the world is a city in the basin. Shen Lang is not worried about going back.

It’s not good to say that even if the south stream of the South Stream ruins the hundreds of millions of ring roads, and does not let him go back, he still has a way!

Tallo City could have returned, but after that returning, in order to avoid the invasion of the two circles, Shen Lang was directly destroying the transmission method, and it is impossible to return from there.

But Bihaihuan can enter the dead forest, and at most it will come out through the dead forest.

However, the South does not know how many hundred years of family secrets have been opened. They will only open up a few times. They will only come in a few times and will not break.

Do not let Shen Lang share, the South is dominated by this entrance and exit, such a mind will have. However, the strength of the array of waters in the south can not be modified to the realm of this billions of rings.

They will leave without waiting in the vicinity, in order to prevent Nanliuchuan from seeing the existence of the spacecraft.

However, this time, Shen Lang was far away, and he got a reply from Bi Haihuan.

It can be seen that she is very pleasantly surprised and happy, but the mental state is a bit wilting, obviously overworked.

She was very happy to contact Shang Lang for almost a year, and she is very willing to see Shen Lang again. However, it is said that the current situation is a bit special, and it is not convenient to pick him up and express his apology.

Recalling the last meeting, Bi Haihuan, as a child of the Bihai family, still has a right to speak. This time she can't get away, naturally the situation is not very good.

Shen Lang thinks that there is nothing to do this time. What needs to be worried outside is the high injury from them, but the medicine has been sent back, and they will rely on themselves in the future.

They have returned to Nanliuchuan, and they can also feed back Zheng Yumeng's information through Nanyiye's safety retreat.

So instead of leaving in a hurry like last time, this time he became active and asked for a seaplane to pick him up.

The help of Bi Haihuan has played a very important role in both of them. Although he also taught her how to cultivate, and helped her to ascend to the Yuan Dynasty, she became the master of the world.

But compared to other friends, Shen Lang feels that her feedback is still not enough. Not to mention the direct help, just the gift of the black technology of the holy armor, also in the past year, provided him with help again and again.

If there is no time for Bihai, or if he doesn't want to see him, he certainly won't be boring, but from the holographic image, she can be seen, she is very happy, but very sorry.

Combining the previous communication with her current status, Shen Lang suspects that she may not be a practical assessment, but she is really on the battlefield!

If this is the case, then he must insist on it. The world situation here is not known, but in terms of the degree of science and technology, once on the battlefield, the degree of death and injury may also be large.

Counting it, Bihai yelled at his teacher, but it was much earlier than them.

For the requirements of Shen Lang, Bi Haihuan hesitated and agreed.

The conversation with Shen Lang has not been maintained for a long time, once again confirming that she is taking time out.

This time of waiting, but it has been a long time, far from the above-mentioned Bihaihuan direct driving machine fly over.

Finally, I waited for a dish-shaped spaceship to come and directly locate the seat of Shen Lang.

Shen Lang looked at the landing UFO and walked over.

The hatch door opened, and a person who came out from the inside actually saw it, but it was not the usual reading brother of Bihaihuan. It was the commander of the base, Feng Yuegu.

“Respected Master of Psionics! The order of Miss Bihai from Fengyuegu is specially greeted by you.”

The last time Feng Yuegu was cleaned up by Shen Lang, this time there is still a heart, a respectful salute, and I dare not have any disrespect.

Shen Lang nodded and followed him directly to the spaceship.

Maple Moon is also a person, no other soldiers, no automatic flight, personally maneuvering the spacecraft.

He and Shen Lang are not familiar with each other. They can even say that they have had unpleasantness. If they concentrate on driving the spacecraft, they can avoid boring.

Bihai Huan will let him come, because there are not many people directly contacted by Shen Lang. It is not unpleasant to read frequently. It is a person who directly offends him more. Feng Yuegu is still used.

“You look a little unwilling.”

“Ah? No! No! For the Master of Psionics, I admire very much. I was offended by the last time.” Feng Yuegu was shocked. Does this psionic master still want to calculate the old account?

“I didn’t mean before, I mean now. It seems that I am arranging you to make you a little... I feel wasted time?”

“No, no, I can come to welcome the master, it is the honor of Fengyuegu!”

Shen Lang said coldly: “Don’t deny it! Tell me what your situation is now. I insist on going over the past, but I don’t want to entertain you. It is to see that Bihai has trouble and wants to help her.” ”

Upon hearing this, Feng Yuegu was silent related to military secrets, please forgive me. ”

“After the arrival, Bihaihuan will not hide from me.”

“...” Feng Yuegu has no choice: “That is Miss’s choice, I can’t interfere.”

Shen Lang bluntly said: “You obey the military order, but you are afraid of responsibility. Since I will know sooner or later, I know in advance that I can think more about the time, maybe I will recover the time you waste back and forth.”

I don’t know what to do with Fengyuegu.

Disclosure of military secrets is not only a matter of fear of taking responsibility, it is absolutely not allowed. But what if it helps? Is it pedantic to insist on military regulations?

After hesitating for a while, Feng Yuegu slowly turned and set up an automatic voyage.

“Do you really want to help us?”

“nonsense!”

Although nothing was said, this sentence gave Feng Yuegu more courage. He took a deep breath and walked over.

“Master of Psionics, the last time you gave me a lesson.”

Shen Lang looked at him like this.

“I once felt that the personal strength of the psionic masters is very powerful and should even be described as strange. But in the face of powerful technological weapons, it is also small.”

“You made me understand the difference.”

Shen Lang remembered, at that time, Feng Yuegu said that he had the equipment of the entire base? That is a weapon that can destroy a city! He said that he does not need to be stronger than all the weapons, he only needs to kill those who manipulate these weapons! And revealed a hand.

“I used to be a resentful psionic master to participate in the war. Although I must admit that the warrior can have more powerful maneuvering ability through spiritual training, you gave me another idea...”

“Don’t talk nonsense!” Shen Lang interrupted his courtesy.

Chapter 680 - Entering the military camp

Under the reservation of Fengyuegu, he revealed the current situation to Shen Lang.

This time it was really a local war. It was a battle with another city-state in the fall of the mountain. As for the cause of the war, from his point of view, of course, it is the invasion of the city-state.

The Bihai family is an important gatekeeper for the power of the city. The army of the Luyu Mountain Range is under the control of the Bihai family.

Therefore, this war has little effect on the river-states, but it has directly affected the Bihai family.

In order to train the family’s children, including the women’s Bihaihuan, have been sent to the battlefield!

For families of this level, it is not a bad thing to be able to experience the war. It is to enable children to grow in a peaceful era.

Of course, in terms of safety, it will also maximize the protection, to ensure that the ladies, just to quench and guilt, rather than really fight blood.

Before the maple moon, he was in charge of the training base of Bihaijia. Recently, there was training in the sea. So this time, Bihai was on the battlefield, and he was also one of the arranged close-knit guards.

He was a bit unwilling to see it by Shen Lang. It was because he had to delay a lot of time. If there was any problem with Bihai Huan, he could not explain it.

But later he also figured out that a psionic master can't control the battle, but if he can protect the young lady, it is more effective than the military generals!

He is also a general level, can get the heavy responsibility of the Bihai family committee, in charge of the family training base, but also can be regarded as a close family. Naturally, there will be no political enlightenment, and there will be many channels of information.

Regardless of the original reasons, the final result of this war will inevitably be the end of negotiations and will not be magnified.

Therefore, on the basis of protecting the good lady, he can further participate in the war personally, which is a great help to them.

Just ask Shen Lang to protect Bi Hai Huan. He said that it is outside the scope of the military aircraft. After all, the background he said can be obtained by anyone.

If Shen Lang is not in the depths of the uninhabited forest, he even has to wonder why he is not aware of it.

Knowing these situations, Shen Lang is relieved.

Bihaihuan is so serious and serious because she takes it seriously and treats herself as a warrior, not a big lady of the Bihai family.

But in fact, at the level of the Bihai family, this battle can be played, perhaps in itself for training!

For the superpowers like them, the destructiveness of the war to the people and the environment is just a set of numbers. It is more important to let your own children grow and to train the military.

With the promise of Shen Lang, Feng Yuegu excited a few points, and he was more respectful to him, and then he returned to the spacecraft by himself.

In the absence of the Luyu Mountain Range, the light and shadow control panel of the spacecraft cockpit has already demonstrated the situation on the scene. There is no mech fighter flying, it will be dark, and the two sides have temporarily stopped fighting.

Although I don't know much, but by looking at it, Shen Lang can also be sure that the range of the Luyu Mountain Range is very large, and the place where they fight is just one of the fortresses.

The place where the spacecraft landed was the command base of the river city. It should have been a place for the soldiers. Although it was on the edge of the Luyu Mountain Range and away from the city, it was also very spectacular.

When he walked down the spaceship, Feng Yuegu said a low voice and said to Shen Lang.

"Miss is still in a meeting. I have already reported the situation. I will take you to her dormitory first."

After a few steps, he sneaked again and said that this is a real military camp. Unlike the last training base, the rumor reminded Shen Lang to pay attention.

Shen Lang did not agree with him. While walking, the gods have completely scanned the entire military camp base, and have a general understanding of the status of each sector.

Fengyuegu with Shenlang has been to the dormitory of Bihaihuan. The inside and outside conditions of the dormitory here are certainly far from being like the private training base. But she still enjoys special treatment and can see that this should be the dormitory area of the officer.

Has been delayed for a lot of time, Feng Yuegu can not continue to accompany the Shen Lang waiting for Bi Haihuan to return, he is also a general.

So after instructing Bihaihuan's dormitory, he took him to a nearby lounge area and gave him a drink after the self-service machine.

Of course, from the time of the next spaceship, I will not forget to give Shen Lang a pass permit, so that he can always stay in front of him, so as not to be suspected.

But even so, when Feng Yuegu left, it would still be sneaky if Shen Lang was alone here.

He is incompatible with this military camp in all aspects, and anyone who has passed by can see that he must doubt him.

This situation appeared when he waited for the tenth minute.

A few of the officers who talked to the dormitory and went to see the strange stranger in the rest area immediately exchanged a look and then went straight to question.

Shen Lang showed them the pass on the coffee table, too lazy to explain to them too much.

“If you have a pass, you can’t prove anything. First, take out all your documents and tell you the purpose of who you are coming in. If you don’t know, you should first take care of you!”

One of the officers directly ordered it, and the other two were ready to be vigilant. If there was any change in Shenlang, they would not hesitate to pull the gun. People in the military camp, others have this requirement. It is also normal, not a deliberate attempt.

But how can Shen Lang have the documents of the city-state?

“I came to Miss Bihaihuan. It was just a person named Fengyuegu who came over me. He left beforehand and asked me to wait here.”

Shen Lang’s tone is very polite, and it’s true.

These words immediately made them a little more serious.

“You said that General Feng Yue received you from there, can there be evidence?”

Shen Lang pointed to the pass on the coffee table.

“This is a unified, and can not prove anything, you can now let General Feng Yue contact me!” He put forward a request that is not excessive. As for the proof of contact with Bihai, of course, I dare not.

But I can't know how to contact Fengyuegu, he can only contact Bihaihuan, and Fengyuegu said, his knowledge is also detected, Bihaihuan is really in a very confidential place to meet, this time It should be impossible to contact.

“You contact Maple Moon, as long as you ask, he should explain it to you.” Shen Lang signaled him to contact himself.

They are all officers and they can definitely get in touch with each other. As long as Feng Yuegu speaks, he can avoid conflicts.

However, in the eyes of these officers, Shen Lang is obviously a dodge.

“It seems that we can only ask you to talk to another place first!”

With the officer's words, the other two men pulled the gun and aimed at Shen Lang.

Shen Lang slightly frowned, turning these officers over, it was easy for him to do, and it was no problem to kill. But Bihaihuan is also exercising in the military camp, which will not affect her.

At this moment, his gods noticed that there was a person coming to this side, it was the usual reading.
