

THE FIRST STRONG

Chapter 7 - Not present

The effect is very good and the harvest is great.

But the hard work is also huge that most people can't imagine!

Although "Yin and Yang Bozhenzhenzheng" has been running, it has been repaired very quickly, but every time the damage is real, both inside and outside the body, it seems to have experienced the pain of numerous needles and needles!

It is said that the breathing is like being pressed into the water by the neck of the man, until the moment of drowning is pulled up, and not once or twice, it is countless times in the afternoon!

Every time the impact on the limit, one second and one second increase, is on the edge of shock!

If you are not the heart and experience of the past, you can't insist on the body and perseverance of this world.

After he got ashore from the water, it was not too late, probably already dinner time.

His skin was blistered with white blinks, but the whole person's spirit is completely different, not weak and soft, but full of power.

Not only the internal changes are huge, but the external body shape has also changed. The flesh dissipates the muscles and the whole body becomes strong and straight.

Simply rubbed the body with a school uniform jacket, put on clothes and socks, returned the same way, and then turned back to the school.

When Shen Lang came to the cafeteria, he finally caught the file, and the other students almost finished eating.

There was a classmate who was still eating, and when he saw him come to cook, he was eccentric, and then he ran away.

Shenlang didn't have lunch, and the consumption in one afternoon was very huge. Although it was supplemented by the aura inside the jade, the body's hungryness was inevitable, so now it is a direct meal.

When the wind was raging, a group of people ran to the cafeteria and rushed straight to his table.

Shen Lang glanced at the past and found that most of them were classmates in class, and there were also several students in other classes.

"Shen Lang! Are you okay?"

The rain fell out of the crowd, asked aloud, and stared at him.

Shen Lang slightly stunned, skipping classes for an afternoon, as a squad leader, she would criticize the teacher on the teacher's criticism, how can I listen to it?

Of course, he wouldn't think that falling rain is interesting to him, and now other students, in the face of falling rain, are "specially concerned" about him, and no one feels wrong, no one is joking.

"I'm fine."

When he replied, the river rushed to him and grabbed his head and looked around. "Really nothing? Rely! Where did you die? We thought..."

The rain fell and I saw it clearly. Although it seemed a bit different, Shen Lang was not injured.

“Shen Lang, why don’t you go to class in the afternoon, why didn’t the teacher call you?”

“Telephone?” Shen Lang shrugged.

In principle, the school does not allow mobile phones to take classes. Although it is not strictly checked, everyone is also carrying a “silent mode” to avoid the class ringing. Shen Lang’s mobile phone is in his pocket. When people are in the river, they don’t know. They just came back to eat in a hurry and didn’t look at the mobile phone.

Everyone was relieved, and then they talked about it, and it was the river that was said to be faster and more.

Shen Lang has not been affected, or continue to eat big mouth, and from their words, roughly understand what happened.

At noon, many people saw the troubles of Lin Yun and Li Rong looking for Shen Lang. The river helped him to have a good meal, and he was ready to comfort him. He had not seen him come to eat for a long time.

The river began to worry, and returned to the classroom to find him. Falling rain is the squad leader, afraid of something, but also rushed back to the classroom. There are also some who have finished eating, but also go back to the classroom to study.

However, everyone did not see Shen Lang in the classroom, nor did they see Lin Yun and Li Rong.

When the rain fell, the last one walked, knowing that they were three, and saw the book of Shen Lang on the ground, as well as blood on the ground and books, guessing that Shen Lang was injured by both of them.

Other people are also the same speculation, afraid of being revenged by Dong Wenbin, and dare not say anything directly, their eyes are on her.

At the time, it was the rivers and other boys who went to the dormitory and other places to find out. First, find the Shenlang to see how it happened.

If it is serious and needs to be sent to the hospital, you need to report to the teacher, if not serious.

It is not her cold-blooded, but she is very clear about the attitude of the teachers. With the results of Shen Lang, it is not enough for the school and the teacher to offend Dong Wenbin in order to defend him. Dong Dawei has a certain amount of energy in the county, and has a good relationship with the school leaders.

It is very likely that he will criticize Shen Lang for a pass, blame him for causing trouble, saying that he has delayed the precious time of others and so on.

There is no better way for everyone, and we can only do this first. But after some searching, I didn't find it in the dormitory, and I found it in the whole school. I didn't find him.

The phone call from Shenhe was able to get through but no one answered, and everyone started panicking.

When the class was officially started in the afternoon, the contact could not be reached. After the rain, the class teacher was notified.

After the class teacher came over to understand the situation, as she suspected, let her not have to take care of it, saying that Shen Lang's uneasy review is his own business.

When the rain fell to emphasize the blood on the ground and in the book, and said that none of them had returned, the class teacher paid attention to it. —

—Although she feels that the teacher is more worried about Dong Wenbin's accident, but she has paid attention to it~ ~ The class teacher called Shen Lang's phone, and no one answered, which made him a little unhappy. Finally, I went to the security room and asked about it. I learned that I saw Lin Yun and Li Rong go out, but I didn't think that Shen Lang had gone out.

This result makes the teacher a little headache. If they really take people out of school, the degree of hands-on will definitely be more serious! In the unlikely event that something goes wrong, it will not be able to get rid of it if it does not happen in school.

After making another call to Shen Lang, the teacher could only contact Dong Wenbin.

As a result, Dong Wenbin complained first, saying that all three of them were injured by Shen Lang. They did not go to school. It was because they were in the hospital and asked the teacher to seriously deal with the waves.

Where can the teacher answer this answer? In a few years, Dong Wenbin's actions, their teachers are well aware, so I feel that the deliberate wicked first complained.

But no matter what, the teacher wants the students to be safe, and the fight is not a big deal. Don't have big problems.

Therefore, on the phone, the class teacher also implicitly warned Dong Wenbin, let him converge a little, do not do anything before the college entrance examination, or his father can not keep him.

After Dong Wenbin confirmed that he had not sent out the information of Shen Lang, the teacher estimated that Shen Lang was being beaten, and he was afraid that he would beat him in the afternoon, so he hid.

He asked everyone to continue the self-study class, he will go to the Internet cafes and other places to find.

Everyone did not have too much influence because of this influence, but they did not see the four of them coming back until they had dinner. They still couldn't help but wonder if Shen Lang was dragged out by the three of them.

The afternoon was also spread, so the students in the next class saw Shen Lang appear in the cafeteria and ran to their class. Some of them had already been in the classroom to prepare for the evening study.
