

First Strong 79

Chapter 79 - 1 punch into gray!

The name of Shen Langlian's current system is known from Yue Zhennan and Ye Shiguang. Of course, it is not clear what strength he is equivalent to.

However, according to his own analysis, it should break through the scope of the extraordinary warrior and reach the broad scope of the comprehension. But what is the realm of the situation is not very clear.

Today, I met Yuan Cheng, and the other party's formula behavior of grabbing the treasure and returning to the soup has already made him angry. But it still suppressed the anger, because this is the first comprehension he encountered, even if only the strength of the early days of returning to the Yuan Dynasty, there can be a reference.

When Yuan Cheng shot, Mo Qi had time to retreat. How could Shen Lang be too late to dodge or preemptively attack? Of course, it is intentional, and I want to see what the level of the monk is.

I learned the power of the "wind and cloud" spell, and indirectly let Shen Lang understand the strength of Yuan Cheng, and then calculate the level of the initial level of returning to the Yuan Dynasty.

For more information, he began to counterattack, broke the whirlwind package of "wind and cloud", and then took the initiative to attack, further testing the strength of Yuan Cheng.

I have to say that Yuan Cheng's return to the realm of Yuan Jing's monks is indeed not comparable to that of the super-martials. It is only at the speed of movement, there is a big gap. If it is a while ago, Shen Lang may not be able to hit.

But he has now cultivated the "Phantom Meteor Step". When he first shot, it was the first time to combine the "Phantom Meteor Step". The effect was very good, and he immediately followed Yuan Cheng.

And the punch of this temptation, of course, is also a hegemonic punch that contains the "Da Shou Mi Long Xiang Shen Gong"!

Originally, he also wanted to see what kind of magic Yuan Cheng would use to attack him. You can find more information. I did not expect that this cockroach decisively escaped, even the apprentice did not care!

From the past, I admit that putting down the old face to grab the formula, and now the selfish escape, shows the nature of Yuan Cheng. Shen Lang's past life has too many experience against the enemy. It is very clear that some enemies can be let go, and some enemies must smash the roots!

Yuan Cheng is the latter, let him escape, and will definitely disappear immediately, but it will be a big hidden danger in the future. Maybe when he forgot his existence in a few years, he suddenly killed it!

Now Shen Lang is not afraid of him, and certainly more disdain in the future. But Yuan Cheng is not a gentleman, but he will find him directly? Of course, it is more likely to find his parents and friends!

In order to prevent the aftermath, Shen Lang almost did not hesitate. When Yuan Cheng pulled out, he also displayed the "Phantom Meteor Step" and rushed to catch up!

It is not uncommon for the monks to return to the Yuanjing. However, the reaction of Shen Lang is very fast. The speed of the "Phantom Meteor Step" is faster, and quite a bit later, it catches up in the air!

Yuan Cheng is not an ordinary person. He has already observed the surrounding terrain just before he came in outside. This is a house built on the edge of a large river. The direction of the gate of the yard is opposite the road. The wall on this side is also the way out.

This is the place where the waves are rushing. If you run out along the road, you will definitely be caught up in this unfamiliar county town!

So he decisively chose the other side and jumped out into the river outside. Although falling water will be more embarrassing, but with the cover of the night and the river, it will give him a greater chance of escape!

He only needs to close his breath in the water, sink the riverbed, or let the river wash down the river. It is difficult to see signs from the surface at night. It is impossible for Shen Lang to blow

him out. Even if it can be done, the impact of the collapse of the river will be too great, and there will be concerns.

Yuan Cheng can consider such an exhaustive moment in an instant, which shows that his thinking is agile, and he can see the decisive power of his thoughts!

Unfortunately, his enemy is Shen Lang!

Based on the experience of past lives, Shen Lang knew that the consequences, without any hesitation and embarrassment, immediately followed. The speed of the “Phantom Meteor Step” is even more so that Yuan Cheng can’t escape after the injury.

While leaping into the air, Shen Lang has already run the “Da Shou Mi Long Xiang Shen Gong”, condensing all the power, and completed the full blow for the first time!

“Master is careful!”

In the following Mo Qi, this night is really shocking. I could have seen Master use the spell, and I feel that it is worthwhile. I didn’t expect it to be broken by the waves in the instant. I didn’t expect it to hit Master again!

I didn’t even think that Master would run away!

These shocks, so that he has not had time to digest, watching the Shen Lang flying chasing, instinct to shut down the police.

In fact, not waiting to hear his warning, Yuan Chengren also looked back at the situation in the air, and found that Shen Lang still catch up, and immediately turned back!

He does not ask for hurts, and he can stop the sinking waves and let him fall into the river below. And he also calculated very well. If he is against the Shenlang, he will not hit hard, but by the strength of the other party, he can fall faster below!

It is good to be able to take Shen Lang back to the yard. Even if he can’t, he can stop the speed. He can use his power to speed up. It is easier to escape.

But this wishful thinking has just started, it is found that Shen Lang's punch has already arrived!

The power of his hand is still very large, and the wind is screaming, but the speed of Shen Lang exceeds his expectations. He has not reached the swell of the waves, and he has not blocked it in advance. Although the palm of the hand makes Shen Lang's face hurt, but Shen Lang has made a full blow and has already hit him in advance!

After Mo Qi's warning, he also unconsciously ran from the door to the center of the yard. He looked up to see if Master would be caught up. As a result, he saw a scene that made him unforgettable and let him shake his body and mind!

Yuan Cheng, who was attacked by Shen Lang, did not fall quickly to the center of the river. It was not vomiting blood, but it burst directly!

His whole body from clothes to flesh, from hair to muscles and internal organs ... actually shot into a slag!

Broken bones and **** rain, together in the river...

After Shen Lang has re-cultivated the "Da Shou Mi Long Xiang Shen Gong", it is also the first time to fully exert its actions. This effect also makes him a little surprised. This is a comprehension, a monk who belongs to the Yuanjing, so a punch. Gray ashes!

However, he did not have the time to feel that he saw that there was something that did not become scum, and when he fell, he grabbed him. His body also fell more than a meter, then a turning point, quickly retreating from the air and falling into the yard.

Because his full-powered punch was too overbearing, not only shattered Yuan Cheng, but also dumped it in front, and there was no flesh and blood on him.

Mo Qi had not had time to think that Master had abandoned him to escape this layer, and he saw that Master was smashed into **** by Shen Lang, but he was a master in his mind, even a half-sense master!

When Shen Lang fell in front of him, he seemed to see the death of God... Unconsciously, he fell to the ground.
