Chapter 82 - The secret of the tomb of the king

The letter is given to Yuan Cheng by others, and the above content is precisely the reason why Yuan Cheng came to Pingxi City a year ago!

Perhaps in Mo Qi's view, Master came here and traveled outside. He happened to be at Pingxi's home, and he came here to be hosted by him. But in fact, Yuan Cheng is here to prepare for it in advance!

In Pingxi, there is a legendary tomb called the Tomb of the King. It is said that there are rich funerary objects, but this is not a treasure that makes the world coveted, such as gold and silver treasures, but there are many resources such as secrets of martial arts, medicinal herbs, and weapons of arms!

This legend is in the realm of comprehension, and everyone is also strictly guarding the secret, and does not extend it to the whole country, so as not to be robbed by more people. Therefore, since the first generation, it is only near Pingxi, and at most, it is known to a few martial arts families in the province.

In the reality of the Tomb of the King, there are two places. One place is open, and now it has also been developed into a cultural tourist attraction, which was repaired by the government. The legend of the realm is the tomb of the king in the dark.

The tomb of the king of the darkness is said to be opened once every time a child is opened, and the opening time is also very short, only one hour in the middle of the night. If it is not natural, the outside world cannot forcibly break open, but after the time has passed, after the closure of the Tomb of the King, it is impossible to come out from inside.

It is also a dead end – no one can persist until sixty years!

This is a rule and taboo that has been passed down from generation to generation. In the last century, some people considered using modern explosives to blast it. On the one hand, this will be very big, and it will inevitably make the government look at it. On the other hand, no one can be sure whether there will be a self-destruct mechanism in the tomb of the King of the King after the bombing.

Even if there is no self-destruct mechanism, it just collapses, and the things inside may be completely destroyed!

The resources in the tomb of the King of the King can be preserved for a long time. It is said that there are many reasons: the location of the feng shui is excellent, the aura is full; and the structure of the tomb is very special, plus the method of blessing, so the goods can not be rotted.

In order to avoid being destroyed, the violent destruction was forbidden by everyone. In a sixty year, although an hour is shorter, it is still an opportunity. Even if you can't get much, you can leave a little legacy to your children and grandchildren.

This year is the year when the Tomb of the King of the Kings was opened. Yuan Cheng did not have this foundation. The news was that he paid a lot of money to buy it.

There is a family sect who knows this secret, but sixty years ago their family was trapped in the tomb and did not come out, directly causing the family to be badly hurt. Time has passed, and now, sixty years later, this family cultivation has been reduced to a small degree, and it will be able to produce a child of the extraordinary military level.

They are jealous of the tomb of the king of the king, do not want, and no strength to drown, but it is still a little unwilling to watch others enter the expedition to win the treasure. One of the younger brothers, I learned that the time for the resurrection of the Tomb of the King was coming. I thought that if I missed it, it would be sixty years later. At that time, I didn't have anything to do with him. I sold this secret to Yuan Cheng.

Afraid that the mobile phone and the network were leaked, he personally handwritten the way to explain the original reason, which is this letter. Then he traded face-to-face with Yuan Cheng and sold five million in cash.

For this person, guarding this secret can not bring the slightest benefit, missed is sixty years later. But for Yuan Cheng, it is a huge opportunity. If you can gain something in the Tomb of the King, you may have a big leap!

However, this person can only provide this information, and can not give any authorization, so he can only sneak a family transaction of 5 million. And Yuan Cheng's news does not mean that he has the right to enter, so he will be laid out one year ahead of time to find a breakthrough.

Although this person has not experienced it, their family is still legendary, especially when the owner of the family was trapped sixty years ago, so it is very dangerous to reveal this tomb. And said that in addition to the danger in the tomb, artificial danger should be more cautious!

After all, only one hour can be opened. If you want something to gain, you must race against time. If you spend this time on someone else, you might be faster than you can find a treasure!

In other words, they also suspect that the owner was trapped inside, not trapped in time.

After carefully reading the contents of this letter, Shen Lang will understand why Yuan Cheng will come to ***** the prescription of Baibao Rehabilitation Soup.

On the one hand, the ready-made treasure can also be used as his emergency supply. If it is injured, it can be effective on the spot. On the other hand, if there is a greater gain, when the sniper is hit, this prescription can be used to lose the car!

Look at the specific time, it is the full moon night after half a month!

Shen Lang needs more resources now. “Yin and Yang Bozhengzheng” plus the current environment, the speed of cultivation has been much faster than when he got started in the past, but the aura inside the jade can let him quickly lay a foundation. A solid foundation, with the help of the treasure and the ***** soup, can even be more effective in practice.

And to get Lingshi, it is better than Baibao.

He is not short of Dan, but the equipment materials needed for alchemy are not so easy. In this tomb of the king, if there are well-preserved ready-made medicinal herbs, of course, much better, and there may be other resources such as Lingshi.

Although there is no direct source of resources in Yuan Cheng, it is good to get this information.

In addition to the time, it also shows the address of the real king's tomb, just in the mountains outside the city of Pingxi.

After remembering the contents inside, Shen Lang hands together and crushes it into pieces. This information does not need to let Mo Qi know.

Shen Lang took out his mobile phone and searched the tomb of the King of the King. He also learned the details of the tomb of the King of the King. He also learned that the cemetery in the Ming Dynasty was in a park in the city.

Mo Qi is in the bedroom, not only rummaging through the cabinet, but also disassembling the bed, pillows and quilts. If he didn't get something, his life would not be saved. If it weren't for the building, he would have to dig three feet.

"Found it! This old guy is too embarrassed, too careful!"

Shen Lang heard the sound went over, only to see the sweaty Mo Qi, was flipping the mattress over, and there was a piece of it underneath that was hollowed out, stuffed with a bag.

"Look at He can hide like this, what good thing should be." Mo Qi wiped his sweat with his sleeve and handed the bag he took out to Shen Lang. He is not tired and sweaty, but nervous.

Shen Lang had already got something of value, but looking at him, he still took a look.

Open and look at it, Shen Lang is satisfied.

Let Yuan Cheng hide in the bag at the bottom of the mattress, it is actually three Lingshi!

He usually has one on his body, and he wants to cultivate and absorb it. This is his most important thing, so he is well hidden.

"How?" Mo Qi couldn't see what was in the bag, wiped it off with sweat, and asked carefully.

"Let's do it!" Shen Lang closed up. "You are fine."

"Thank you, thank you..." Mo Qi took a long breath and felt that his body was hollowed out. But he didn't dare to care about it. He added a sentence: "But you don't have to help me to unmark it! I will follow suit after I am dissatisfied. Even if Mr. disdains me, I must be admired!"
