

Chapter 13 Addicted to playing dead?

Robert always does what he says.

Early the next morning.

National news coverage.

The original Smith Group now had a complete shutdown. The construction team to demolish the building was surrounding it, only waiting for Robert Adams to give the order.

Robert dialed Julia's phone over and over again, but still, no one answered.

Good, you're addicted to playing dead, aren't you?

"Go."

With that one word of his, the Smith Group building burst into flames and fell to the ground.

What Julia left to Robert was destroyed by his own hands, not even a crumb remained.

There were media digging out Robert and Julia's marriage, and there were many different opinions out there.

How much of a grudge was there to demolish the only property left by one's ex-wife?

The outside world did not know.

Robert was even more unaware of it. He was standing at the top of the highest building in the

city, overlooking the ruin of Smith Group, his heart somehow hurting fiercely.

Julia, are you really not coming back to apologize to me?

Next, it's your sister...

"Mr. Adams, we found it," the assistant hurriedly came and said before resting, "the reason why Lauren and Adam Shaw divorced is that she had an incestuous relationship with his brother, which was discovered by Adam Shaw and he forced her to divorce."

"After the divorce, Adam Shaw's brother refused to marry her, so she..."

The assistant did not dare to continue.

Robert's tall body trembled slightly, with monstrous anger hidden under his eyes.

Adam Shaw's brother refused to marry her, so she came back to him?

"What about the incident four years ago?" Robert asked, forcing down the anger in his heart.

"Lauren's parents said that because the Adams family at the time was not worthy of their family, and Adam Shaw happened to be pursuing Lauren."

"Lauren was too embarrassed to break the engagement with you and Julia happened to like you at the time, so she drugged Julia and you."

The assistant's words crushed the last nerve of Robert. His head exploded, only to feel his heart was torn apart in pieces, and his eyes reddened for the first time.

He really misunderstood Julia.

The night four years ago flashed in his mind in a trance.

At that time Julia was a young girl, and he took away her virginity, leaving her sobbing and helpless.

But instead of blaming him, she explained and apologized to him over and over again, telling him that she really didn't know what was going on.

She really didn't know why she was suddenly lying in his bed.

Perhaps it was her apology that gave him the peace of mind that it was her fault.

The next day, when the Smiths forced him to marry her, he was even more convinced that everything was planned by her.

Now thinking of that, she didn't even know the sex at the time, so how could she have planned so well?

Why was he so stupid as to trust Lauren and her parents?

"Mr. Adams."

The assistant's voice pulled Robert back from the past.

For the first time, he was frustrated, and he looked at his assistant and asked in a deep voice: "Does madam know this?"

For the first time in four years, he called Julia, madam.

His assistant was also surprised that he paused for a second and answered back, "She knows. From the time Miss Laurent came back, Madam knows."

"Then why didn't she tell me?" Robert didn't know whether he was asking his assistant or himself.

The assistant did not answer, he thought Robert should know this answer better than anyone else.

If you love someone, how can you bear to hurt him?

Julia is the most resilient woman he has ever met and the one who loves Robert the most.

As an assistant, he knows best how Robert has treated Julia for four years.

When Julia married him, there was no wedding, and as for the marriage documents, he handled them for Robert.

And the days after that, he watched Julia fall

from a princess to an ordinary housewife.

They all know that the Smiths has only one daughter, and simply cannot let her suffer a bit.

And in those four years, the Adams family slowly grew and became the leading family in the city.

Robert did not put Julia in his eyes, not only with various women attending the banquet but also did not even attend the funeral of Julia's parents.

The women have long since left Adams. Only Julia, no matter what Adams did, never resented half of it.

Even if she knew that she was wronged at the beginning, she didn't explain for the sake of Adams's pride and feelings.

"Release Adam Shaw and hand Lauren and her parents over to him together!" Robert heard himself say it.
