

Fortune 109

Chapter 109: Safely Crossing the Tribulation, Gaining a Fifth-Grade Opportunity

Another day passed, late at night.

Yunze City gates.

Many soldiers looked distracted, with growling stomachs, their faces full of worry.

Due to the burned granaries, they lacked food and had been hungry for a day.

They didn't know how much longer they could endure.

Some even thought of directly surrendering to the Red Eyebrow Army, but seeing some government soldiers nearby, they held back, not daring to act rashly.

Undoubtedly, emotions were unstable now.

A sense of unease had long spread through the entire army.

Rumble~~

At this moment, many soldiers suddenly acted, killing the surrounding government soldiers immediately, and before the other government soldiers could react, opened the city gates quickly.

The prepared Red Eyebrow Army charged in, seizing the gates and occupying the walls at once.

In no time, the entire gate fell completely.

A large number of Red Eyebrow Army charged in.

"Drop your weapons, drop your weapons immediately."

"Dare to resist, kill without mercy."

"No need to share life and death with those dog officials, we are all brothers and sisters."

"That's right, the Red Eyebrow Army is here in Yunze City to kill the dog officials, brothers and sisters, don't follow them to their deaths."

"Join my Red Eyebrow Army, everyone will have clothes to wear and food to eat."

Suddenly, people from the Red Eyebrow Army shouted loudly, persuading these government soldiers to surrender.

Upon hearing these words, many soldiers saw the tide turning and also dropped their weapons, surrendering to the Red Eyebrow Army.

After all, they indeed didn't want to die for those dog officials.

It can be said that the Red Eyebrow Army effortlessly took the gate.

This news quickly reached the noble descendants of Yunze City.

They were dumbfounded, almost unable to believe the information they knew.

Originally, they had prepared to break through.

Who would have thought, before they could even break through, the Red Eyebrow Army had already charged in.

This caught them unprepared, not knowing what had happened.

"Damn, someone colluded with the Red Eyebrow Army, opened Yunze City gates, and let the Red Eyebrow Army in."

Patriarch Lu, Lu Kai, was furious.

He never expected that at the crucial moment, traitors would make such a decision.

Breaking the plan of the Three Great Families at once.

But even if they wanted revenge on the traitors, it wasn't possible, there simply wasn't enough time.

Once the Red Eyebrow Army charged in, they were bound to die.

"Patriarch, what should we do now?"

Many elders of the Lu Family were anxious.

They had lived in luxury for so long, always wielded power, practically became the sky of Yunze City.

But now, in the blink of an eye, they might become prisoners.

Might even be beaten to death by a bunch of mud-legged people, they trembled uncontrollably.

No matter what, they couldn't face such an end.

"Escape, escape immediately."

"While the Red Eyebrow Army hasn't completely occupied Yunze City."

"We still have a chance to escape Yunze City."

"The Lu Family must not perish in our hands."

Patriarch Lu, Lu Kai, roared angrily, planning to lead a large number of Lu Family Army to break out.

In an instant, the entire Yunze City plunged into flames of war.

The Red Eyebrow Army fought a fierce battle with the noble families.

Even grandmasters personally took action.

...

On the other hand, at the Red Eyebrow Army headquarters.

The leader Chen Yaochuan, along with the five grandmasters he invited from all over the Great Wei, namely Soul-Severing Saber Zhang Gang, Life-Chasing Spear Chen Qing, Soul-Seizing Whip Qian Xiong, Funeral Axe Zhao Hao, and Blood Hand Du Sha.

Each was in their forties or fifties, with strong vitality, renowned in the martial world, all leaders of various forces.

But they were convinced by Chen Yaochuan to work for him.

"Haha, after such a long siege, Yunze City has finally been breached by us."

"The Three Great Families of Yunze City are not much after all."

Soul-Severing Saber Zhang Gang laughed heartily, feeling very joyful.

After all, the siege dragged on for so long with no progress, causing significant casualties.

If things continued this way, even with the numerous Red Eyebrow Army soldiers, it couldn't be sustained.

Fortunately, at this point, we finally breached the gates of Yunze City.

Once we occupied this city, the Red Eyebrow Army could have a base.

Then we can use Yunze City to attack in all directions and capture the entire Wei Kingdom.

"The Three Great Families of Yunze City have committed countless evil deeds and wronged Yunze City for years."

"They've long invoked wrath and discontent."

"I hardly had to act, just a little strategy, and countless people flocked to my Red Eyebrow Army."

"If it weren't for these families invoking wrath and discontent, our Red Eyebrow Army wouldn't have been so smooth."

Chen Yaochuan smiled slightly.

He also felt the attack on Yunze City was very smooth this time.

However, it wasn't because of his cleverness, but purely because the Three Great Families in Yunze City were unpopular.

In their helplessness, the residents of Yunze City had to swallow their anger.

But once they saw hope, they flocked in and joined the Red Eyebrow Army.

This allowed the Red Eyebrow Army to advance with unstoppable momentum.

Simply omnipotent.

"The Three Great Families will be brought to an end today."

"Even more importantly, the Immortal Token they possess must be ours."

"Absolutely cannot let these guys escape."

Life-Chasing Spear Chen Qing said with a murderous air.

He agreed to join Chen Yaochuan and become a member of the Red Eyebrow Army.

It wasn't just for the simple reason of riches and fame.

More importantly, the Three Great Families of Yunze City possessed the Immortal Token.

If they could obtain the Immortal Token, they could enter the Immortal Cave Mansion and receive the Immortal inheritance.
