Chapter 121: Nurturing Primordial Spiritual Power, Peerless Genius

Rumble~~

At this moment, Jiang Fan sat cross-legged on the ground, absorbing the countless spiritual Qi of the cave, channeling it into the depths of his Elixir Field and Sea of Qi, where it merged into strands of grayish spiritual power.

This grayish spiritual power seemed all-encompassing, this is the Primordial Spiritual Power.

One must understand, for a cultivator, practicing different cultivation techniques results in different spiritual powers.

For example, practicing a flame technique will result in Fire Spiritual Power.

Practicing a water element cultivation method will result in Water Spiritual Power.

Similarly, there exists Wood Spiritual Power, Earth Spiritual Power, Gold Spiritual Power in the world, and so on.

Spiritual power also has different attributes.

But Primordial Spiritual Power is very special, it has no attribute, yet it can contain countless attributes.

This is why the Mixed Element Talisman Scripture is one of the top cultivation techniques in the Cultivation Realm.

Of course, it's also the most difficult to practice.

In an instant, Jiang Fan sensed that strands of Primordial Spiritual Power were accumulating in his Elixir Field and Sea of Qi, as if the Heaven and Earth Spiritual Qi contained in this cave was incomparably rich, dozens or even hundreds of times that of the outside world.

Thus, he could devour a large amount of spiritual Qi at once and convert it into Primordial Spiritual Power.

At this moment, he finally transformed all the primordial Qi force in his Dantian into Primordial Spiritual Power.

"Very good, the first step is successful, the Dantian has birthed Primordial Spiritual Power."

"Next is the second step, which is to construct a Primordial Talisman."

Jiang Fan's eyes flashed with a bright gleam.

Truth be told, the first step was just a minor attempt, the second step is the true critical point.

Countless geniuses have fallen at the second step when practicing the Mixed Element Talisman Scripture.

If one cannot construct the Primordial Talisman, then practicing this technique is mere empty talk.

Fortunately, under the influence of Luck Points, his comprehension received an astonishing boost, transforming him into a peerless genius.

He instantly grasped the construction of the Primordial Talisman.

"Ordinary talismans are planar."

"But the Primordial Talisman is different, it is three-dimensional, it is a sphere."

"As a spherical talisman, it can encompass all things, contain all talismans under the heaven."

"To completely construct one, every stroke must be extremely precise, tolerating no mistakes."

"Any mistake will lead to complete failure."

"This is why practicing this technique is so difficult and time-consuming."

Jiang Fan was now in an absolute state of calm, seemingly devoid of all emotions.

He manipulated strands of Primordial Spiritual Power within his Elixir Field and Sea of Qi with his mind.

According to the structure of the Primordial Talisman, he began to delineate it.

This delineation took a whole day and night.

When the last stroke formed, the Primordial Talisman instantly radiated endless golden light, enveloping his entire body in a golden aura.

It seemed to resonate with the heavens and the earth.

This was a dark golden talisman sphere, seemingly transformed into a black hole.

Constantly rotating in his Elixir Field and Sea of Qi.

With each rotation, it inhaled and exhaled a large amount of spiritual Qi from heaven and earth.

Jiang Fan did not need to utilize the Primordial Breathing Technique; this Primordial Talisman could operate automatically, devouring spiritual Qi, and converting it into strands of Primordial Spiritual Power.

This way, he could practically cultivate non-stop twenty-four hours a day.

He could generate Primordial Spiritual Power every moment.

The cultivation efficiency was unmatched by other cultivators.

"Finally, I've entered the beginner's level."

Jiang Fan smiled slightly, his heart filled with joy, and he opened his virtual panel.

Undoubtedly, he had completely entered the beginner's level of the Mixed Element Talisman Scripture.

This caused an earth-shaking change in his strength.

Compared to before, his combat power increased several folds.

After converting the primordial Qi force into Primordial Spiritual Power, his destructive power became increasingly terrifying.

"This, this."

"It's too exaggerated."

"In just a day and a night, he entered the beginner's level of the Mixed Element Talisman Scripture."

"This kid is a monster, an utter monster."

The Primordial Talisman Pen beside him had been observing Jiang Fan's situation, and upon seeing the aura of the Primordial Talisman and the golden light shining from his body, it knew this kid had successfully entered the beginner's level.

Its heart was overwhelmed with great waves of shock, simply dumbfounded.

To be honest, it had lived for countless years and had seen many geniuses in the Primordial Talisman Sect.

But a genius like Jiang Fan was seen for the first time.

Even the top genius of the Primordial Talisman Sect in old times, required a month to enter the beginner's level of this technique.

But this kid did it in a day.

It couldn't even describe its current feelings.

It truly wanted to find a perfect successor for the Primordial Talisman Sect, but this kid was excessively perfect.

He was simply a born seed for talisman cultivation.

"Elder Fu, I succeeded."

At this moment, Jiang Fan opened his eyes, looking at the Primordial Talisman Pen excitedly.

"Uh, not bad, not bad."

"It seems your comprehension is okay."

"Your cultivation speed can rank within the top hundred among the disciples throughout history of the Primordial Talisman Sect."
