

Fortune 130

Chapter 130: Exterminate the Demon, Gain Seventh-Grade Opportunity_2

"I believe my husband will soon become a top-grade Talisman Master."

Su Weiwei looked at Jiang Fan with admiration.

She felt that her man was simply capable of anything.

Becoming a top-grade Talisman Master was only a matter of time, it was nothing at all.

Woooo~~ Woooo~~

Just at this moment, a sound of weeping suddenly came from outside the cave.

The crying was harsh, piercing, and eerie, making the scalp tingle.

It was accompanied by a terrifying chill.

As if the temperature dropped by tens of degrees, bone-chilling cold.

"What is it?"

Jiang Fan's eyes revealed a cold gleam, he instinctively sensed the approach of danger.

It seemed that an uninvited guest had arrived at the cave.

Su Weiwei was also a bit scared, curling up behind Jiang Fan, vigilantly watching the surroundings.

The next second, a black mist accompanied by a gust of wind blew in, with a green-faced, fierce-fanged figure with a wide mouth and big eyes, its face hideous, seemingly sensing the presence of Jiang Fan and Su Weiwei, instantly pouncing towards them at extreme speed.

An evil aura spread forth.

Demon!

Sensing this aura, Jiang Fan's hairs stood on end, he felt the chill piercing through, his blood seemed to freeze, even feeling dizzy.

"Courting death."

In such a crisis, Jiang Fan became even calmer, his spiritual sense locked on to this demon.

The Fireball Talisman deep within him was infused with Primordial Spiritual Power.

Instantly activated.

Bang!

The next second, Jiang Fan's right palm instantly condensed a crimson fireball, locking onto the demon, then using the power of the Light Body Talisman, he became nimble as a swallow, moving with extreme speed.

He flashed and appeared in front of the demon in an instant.

With a palm he slapped it.

The crimson fireball struck firmly on the demon.

"Ah!"

Instantly, the demon let out a shrill scream, like a wounded beast, the sound was piercing and frantic, making one's scalp tingle.

But the fireball with its scorching flames immediately engulfed the demon.

Every part of its body was burned by the flames.

In just the span of a breath, the demon was burned to ashes, its screams came to an abrupt end.

The evil aura that had permeated the cave quickly retreated.

"Husband."

Seeing this, Su Weiwei was greatly shocked, she completely did not expect that merely staying inside the cave, without provoking anything elsewhere.

But this demon had actively come to them.

If it weren't for her husband's mastery of talisman power, dealing with this demon wouldn't be so simple.

Not to mention, if the demon wanted to kill a Martial Artist, even if they were a Grandmaster, it would be as easy as crushing a chicken.

After all, demons are formless and bodiless, moving at great speeds, Martial Artists simply cannot harm them.

They can't even touch the demon.

"Don't make a sound, there are still demons outside."

Jiang Fan's eyes revealed a cold gleam, he came to the cave's entrance, peering into the distance.

At this moment, the sun had already set, night had fallen.

This made the entire Ten Thousand Beasts Mountain Range eerily dark, so dark that you couldn't even see your hand.

In the depths of the forest, a thick evil aura lingered.

Vaguely, it seemed like the jungle was shrouded in ghostly shadows.

Inside, countless demons were hidden.

Each containing terrifying power.

Once the evil aura enters the body, it's almost incurable with any remedies.

"The Ten Thousand Beasts Mountain Range at night is truly terrifying."

Jiang Fan took a deep breath.

If he startled those demons, considering his strength, he probably couldn't withstand it.

He and Su Weiwei would also be besieged by numerous demons, devoured on the spot.

Fortunately, those demons have no intelligence.

And the cave acted as a barrier, they hadn't noticed them yet.

This was a blessing amid a disaster.

"No wonder so many cultivators gather near the market."

"Hardly anyone dares to live outside."

"It's probably because of the threat of demons."

Jiang Fan's eyes revealed a gleam, he also recalled some memory messages Elder Fu had given him before, which included information about the demons of the Ten Thousand Beasts Mountain Range.

According to the memories of those three Tribulation Cultivators, the demons of the Ten Thousand Beasts Mountain Range are extremely terrifying.

Once night falls, the demons become active.

If living in the wild, demons may silently infiltrate and take the life of a cultivator.

So generally, cultivators would not camp in the wild.

They live together because the collective Qi and Blood Power of countless cultivators is immense, intimidating the demons, making them dare not approach.

Even around the market, arrays are set up.

Even if they do approach, they would be destroyed by the arrays.

So the market becomes a settlement for countless cultivators, even if life is difficult, no one would leave.

Because leaving means a dead end.

"It seems that continuing to live in the cave may not be a good idea."

Jiang Fan took a deep breath.

Originally, he wanted to continue living here to continuously enhance his cultivation.

Once he had a certain degree of self-protection, he would move to reside at Cyan Forest Market.

Now it seemed that the Ten Thousand Beasts Mountain Range was just too dangerous.

He may not be able to continue staying here.

After all, there were just too many demons outside.

Once they sensed the presence of him and Su Weiwei, he and Su Weiwei would be completely doomed.

Boom~~

At this moment, a message emerged from the depth of Jiang Fan's sea of consciousness: "Facing the sudden demon attack, you remained unafraid, killed it, and calmly survived the ordeal. You gained two hundred Luck Points and a Seventh-Grade Opportunity."

Seventh-Grade Opportunity?!

Sensing this message, Jiang Fan's heart was stirred. Honestly, a Seventh-Grade Opportunity was not trivial, but he didn't know what it was exactly, or what benefits it would bring to him.

He lightly tapped this opportunity light point, another message came: "Wait one kilometer northeast outside the cave at noon tomorrow to receive the Seventh-Grade Opportunity."

"Is it that simple? And it's just at noon tomorrow?"

Jiang Fan rubbed his chin.

That night, Jiang Fan and Su Weiwei were quite uneasy.

Because they needed to constantly watch out for demons outside the cave, fearing they might attack.

Fortunately, due to killing a demon, it intimidated them.

So they just howled and wandered outside, never daring to come in.

By the next morning, when the sun rose and light shone everywhere.

The evil aura in between heaven and earth retreated, they gradually scattered and hid, waiting for the night to descend once more.

This left Jiang Fan and Su Weiwei somewhat listless.

After all, nobody can maintain such high alert for long periods.

"Elder Fu fell asleep, then why did so many demons appear?"

Jiang Fan took a deep breath.

Undoubtedly, when Elder Fu was around before, not a shadow of those demons was seen.

But once Elder Fu fell asleep, those demons from the depths of the mountains began to become active.

Clearly, they bullied the weak and feared the strong.

Continuing to stay in the cave might not be a good thing.

Surviving one night safely doesn't mean he could survive a second or third night.

It seemed that after acquiring this Seventh-Grade Opportunity, they must head to Cyan Forest Market.

He and Su Weiwei were too weak to stay in the wild.

"Pack up, we'll leave at noon for Cyan Forest Market."

Jiang Fan said to Su Weiwei.

"Okay."

Su Weiwei nodded her head as well.

In just one or two nights, she realized the danger of the Cultivation Realm.

If the danger in the Mortal World came from gangs and the oppression of Noble Families, then the threat in the Cultivation Realm comes from all sorts of bizarre and terrifying creatures.

Any slight carelessness could lead to an untimely death.

Even hiding at home wouldn't help.

Of course, before heading to Cyan Forest Market, Jiang Fan disguised himself and Su Weiwei, turning them into ordinary people to avoid revealing their true identities and inviting trouble.

Most importantly, if they really caused trouble in Cyan Forest Market, they could flee.

Not needing to worry about being hunted by other cultivators.

In every affair, precaution is always necessary.
