Chapter 151: Advancement to Fourth-Layer Qi Cultivation

"It's alright, you're just beginning your cultivation."

"How can you possibly compare to those cultivators who have been cultivating for decades."

"If you follow the steps steadily, you will surely become stronger than those loose cultivators."

Jiang Fan reassured.

However, what he said was true, after all, Su Weiwei has a high-grade Spirit Root, and the Taiyin Virgin Body. Even if she goes to any sect, she would have the status of a true disciple.

Currently, Su Weiwei has only been cultivating for a short time, so it's normal for her strength to be inferior to those loose cultivators. But as long as she grows, she will definitely surpass them.

But for now, it's still necessary to help Su Weiwei find a Lifebound Spirit Beast.

After all, as a Beast Cultivator, a suitable Lifebound Spirit Beast is crucial.

Unfortunately, he hasn't found a Spirit Beast suitable for Su Weiwei in a short time.

So this matter can only be temporarily put aside.

For a Beast Cultivator, it's not something to be rushed.

Because a good Spirit Beast is essential for the future of a Beast Cultivator, it cannot be rushed.

"Hmm."

"Husband, I want..."

Su Weiwei gazed at Jiang Fan with tender, affectionate eyes, looking pitifully charming.

It's the first time she's been so bold.

Perhaps that shameless woman Mei Jingya brought her a sense of crisis.

Causing her to become proactive.

Upon hearing this, Jiang Fan could hardly contain himself, he lifted Su Weiwei into his arms and headed to the bedroom.

Instantly, the bed swayed, and yin and yang merged.

.....

In the depths of the night.

After satisfying Su Weiwei's needs and she was completely asleep, Jiang Fan went to the nearby cultivation room.

He urgently wanted to rapidly enhance his cultivation.

The events of the day had sounded a warning bell for him.

Even though he effortlessly handled Yu Minghui and the others.

These three were merely minor figures in the slum, hardly worth mentioning.

If other cultivators, or even late-stage Qi Cultivation cultivators had come today, he wouldn't have been able to withstand them.

Perhaps he would have needed to wake up Elder Fu to save himself.

In any case, he needed to prepare in advance and quickly increase his strength.

Dong!

At this moment, from the depths of Jiang Fan's sea of consciousness, came a message: "Encountered an assassination attempt by Yu Minghui and others, you fought back and killed the enemies, overcame a killing disaster, you acquired 1200 Luck Points and a Seventh-Grade Opportunity."

"Seventh-Grade Opportunity?"

Upon sensing this message, Jiang Fan was delighted, he tapped the opportunity light spot.

Then another message appeared: "Seven days later, at noon, head twenty miles southwest of the slum area to obtain a Seventh-Grade Opportunity."

So this opportunity will appear in seven days?

It seems there's no need to rush in the short term.

"Oh right, there are also three storage bags."

Jiang Fan checked the storage bags of Yu Minghui and the others, and found quite a few treasures inside.

He acquired a total of 150 Spirit Stones.

Three bottles of Low-Grade Gathering Spirit Pills.

Three pieces of Low-Grade Magical Artifacts.

And 300 jin of Lower Grade Spirit Rice, 100 jin of Demon Beast Meat.

Besides these, there weren't any other treasures in the storage bags.

Of course, for ordinary cultivators, this is quite a windfall, equivalent to a sudden fortune.

He decided to give all three bottles of Low-Grade Gathering Spirit Pills to Su Weiwei to quickly increase her Spiritual Power.

Because for Jiang Fan, Low-Grade Gathering Spirit Pills were of no use anymore.

Since he had previously consumed too many Low-Grade Gathering Spirit Pills, developing a certain degree of resistance.

For cultivators, the same elixir should not be consumed excessively.

The first pill has the best effect, the second one slightly less.

By the third, fourth pill, the effect becomes weaker.

Possibly after seven or eight pills, there is basically no effect.

Therefore, cultivators always need to consume different elixirs to quickly enhance their body's Spiritual Power.

"Luckily, I bought the White Ginseng Pill."

"Consuming this bottle of White Ginseng Pill will surely rapidly increase the Spiritual Power within my body."

Jiang Fan immediately took out a bottle of White Ginseng Pill, which he had bought for 100 Spirit Stones; ordinary loose cultivators couldn't afford such an elixir.

Without further ado, he swallowed the whole bottle of White Ginseng Pill.

Rumble~~~

He sat cross-legged on the ground, activating the Primordial Breathing Technique.

Instantly, each White Ginseng Pill was rapidly digested, converted into potent Medicinal Power.

These Medicinal Powers were all devoured and absorbed by the Primordial Talisman deep in the Elixir Field and Sea of Qi.

Followed by the transformation of Medicinal Power through the Primordial Talisman, forming strands of Primordial Spiritual Power.

Originally, Jiang Fan's cultivation had nearly reached the level of Perfection in Third-Layer Qi Cultivation.

After acquiring such massive Medicinal Power, Primordial Spiritual Power instantly filled the third meridian in his body.

"To advance to Fourth-Layer Qi Cultivation, three meridians need to be connected."

"Thus allowing the Spiritual Power within the body to flow and circulate among the three meridians."

"By doing so, gathering the Spiritual Power of the three meridians, breakthrough the bottleneck, opening up the fourth meridian."

"Then he could advance to Fourth-Layer Qi Cultivation."

Jiang Fan's eyes showed a trace of determination.

He finally understood why the bottleneck between Third-Layer and Fourth-Layer Qi Cultivation was quite significant.

This bottleneck trapped many loose cultivators.

Even spending decades without making a breakthrough.

The reason is that loose cultivators have poor Spiritual Root Talent, relying solely on Spirit Roots to absorb Heaven and Earth Spiritual Qi, thus nurturing very little Spiritual Power.

If loose cultivators want to make a breakthrough, the best method is to purchase an Acupoint Breaking Pill.
