Chapter 171: Talisman Transformation, Cyan Lotus Earth Fire Talisman, Encounter with Great Sun Sword Sect Disciples

"Go."

Thinking of this, Jiang Fan's heart stirred, and he immediately activated the Cyan Lotus Earth Fire Talisman on his body.

Instantly, a wisp of cyan flame emerged from his fingertips, transforming into a small fireball.

Like a bullet.

Boom~~

In the next second, he propelled this cyan flame bullet, instantly shooting it out, striking the distant cliff wall.

A huge crater appeared instantly on the entire cliff wall.

Numerous rocks began to be burned by the cyan flames, surprisingly turning into magma.

The destructive power of these flames was truly too strong.

Compared to the mundane fire of the previous Fireball Talisman, the power of the Cyan Lotus Earth Fire had increased by countless times.

The difference between the two was truly immense.

He even felt that with the power of the Cyan Lotus Earth Fire, he could slay a late-stage Qi Cultivator.

"Sixth-grade opportunity, is this a sixth-grade opportunity?"

"Absolutely wonderful."

Jiang Fan clenched his fist, feeling incredibly excited.

He felt that obtaining the Cyan Lotus Earth Fire was even better than advancing to the sixth-layer of Qi Cultivation.

For enhancing his combat power, it was even greater.

Having mastered the Cyan Lotus Earth Fire, he felt that the destructive power of the Fireball Talisman had increased tremendously.

It vaguely possessed the might of a Tier Two Talisman.

"If I want to continue enhancing the power of my Life Talisman, perhaps I could find numerous Heaven and Earth Spiritual Objects and integrate them into the Life Talisman, but Heaven and Earth Spiritual Objects are not easy to find."

Jiang Fan touched his chin.

Undoubtedly, this is also a cultivation method of the Primordial Talisman Sect.

However, among talisman cultivators who wish to enhance the power of their Life Talismans using this method, there are basically too few.

After all, not everyone can obtain Heaven and Earth Spiritual Objects.

If one lacks sufficient Destiny, they probably would never have a chance to even see the shadow of Heaven and Earth Spiritual Objects.

Not to mention obtaining them.

"The power of the Cyan Lotus Earth Fire is not only destructive."

"I estimate it's also highly lethal to demons."

"If other demons dare to come, perhaps I can use the power of the Cyan Lotus Earth Fire to eliminate them."

Jiang Fan sensed the Cyan Lotus Earth Fire burning hotly deep in his Elixir Field and Sea of Qi, instantly giving him a full sense of security; undoubtedly, this was a trump card on his body.

If he unleashed the might of the Cyan Lotus Earth Fire, he could even kill a late-stage Qi Cultivator.

But unless necessary, he would never offend such a level of a cultivator.

For him, stable cultivation is more important.

"Let's go back."

After briefly sensing the power of the Cyan Lotus Fire Talisman, Jiang Fan decided not to stay here any longer.

After all, this is the wilderness, and no one knows what they might encounter.

Returning to his home is much safer.

Swish!

In no time, Jiang Fan used the power of the Light Body Talisman and quickly returned to the wooden house.

He had obtained the Cyan Lotus Earth Fire and felt extremely joyful.

To celebrate this significant harvest, he needed Su Weiwei seven times to feel satisfied.

Of course, Su Weiwei's physique also became increasingly unfathomable.

She could fully withstand Jiang Fan's intense demands.

Instead, doing this seemingly also enhanced Su Weiwei's cultivation efficiency, accelerating her growth.

...

Several days passed.

Jiang Fan completely settled down in this Nameless Valley.

During this period, there were occasional large numbers of loose cultivators coming to live here.

It seemed as if they were treating this place as a previous shantytown.

The number of loose cultivators had already exceeded two to three hundred.

Moreover, the number of loose cultivators seemed to be continuously increasing.

But this couldn't be helped.

As the weak, banding together for warmth was almost instinctive.

Now that the Cyan Forest Market was destroyed and turned into ruins, loose cultivators virtually had nowhere to go.

As a result, many loose cultivators naturally scattered throughout the Ten Thousand Beasts Mountain Range, forming settlements.

And this Nameless Valley was just one of those settlements.

Boom!

At this moment, Jiang Fan's heart stirred, and he opened the virtual panel on his body.

[Name: Jiang Fan]

[Life Chart: Great Blessings Equal to Heaven, Attribute: Survive deadly situations, reap rewards afterward]

[Lifespan: 120]

[Spirit Root: Earth Spirit Root]

[Luck Points: 4560]

[Cultivation Technique: Soaring Snake Technique (Incomplete), Seventh Layer (Cannot be improved)]

[Cultivation Technique: Mixed Element Talisman Scripture, First Layer]

[Life Talisman: Cyan Lotus Earth Fire Talisman (Beginner), Light Body Talisman (Mastery), Conceal Breath Talisman (Mastery), Protective Talisman (Mastery), Golden Light Talisman (Mastery)]

[Realm: Fifth-Layer Qi Cultivation (70%)]

[Profession: Middle Grade Talisman Master (70%)]

Instantly, a series of data was displayed above.

"What a pity."

"Those tribulation cultivators were all paupers, they didn't have many treasures on them."

Jiang Fan felt a bit regretful.

Previously, when escaping from the shantytown, he encountered several tribulation cultivators, but he easily killed them.

Their storage bags naturally fell into his hands.

But unfortunately, the only thing they had on them was some low-grade elixirs.

And these low-grade elixirs didn't have any effect on him, so he gave them all to Su Weiwei.

Of course, the greatest value on them was the spirit stones.

This brought the number of spirit stones on him to six thousand.

Not only did this replenish the spirit stones used to purchase spiritual liquids, but it also caused his wealth to skyrocket further.

If the Cyan Forest Market was still around, such a large number of spirit stones could definitely buy many middle-grade elixirs, and even some top-grade elixirs, purchasing spiritual liquid wouldn't be a problem.

Unfortunately, after losing the Cyan Forest Market, even with so many spirit stones, he couldn't spend them at all.
