Chapter 184: Sixth-Grade Opportunity, Obtaining the Subsequent Cultivation Technique of the Soaring Snake Technique\_2

As for those loose cultivators like them, they are just small figures struggling to survive.

Completely insignificant.

"By the way, how are Fellow Daoist Jiang and his wife? Are they all right?"

Wife Li Zhou couldn't help but ask.

"They're fine, we're all fine, and they're even better."

"In fact, they just gave us some Demon Beast Meat."

"Overall, though the demon beasts attacked fiercely last night, our casualty rate wasn't very high."

"It was mostly just some unlucky loose cultivators living on the outskirts who were killed by the demon beasts."

Fan Wei smiled slightly.

He had already gone to check on Jiang Fan and his wife.

After all, they were rare neighbors, so naturally, he needed to confirm whether they were alive or dead.

"Old Fan, your decision yesterday was correct."

"If we had really left the valley, it might have been a dead end."

"Luckily, we stayed."

Wife Li Zhou felt a sense of relief.

If they had really fled the valley, they might have been surrounded and killed by the demon beasts.

Given their strength, they would most likely have become food for the beasts.

"It's okay, after this tribulation, our future life will surely improve a lot."

"We killed so many demon beasts this time."

"Everyone can get plenty of Demon Beast Meat."

"We can easily get through this winter."

Fan Wei was overjoyed, feeling a glimmer of hope for the future life.

At this moment, in Jiang Fan's home.

Boom~~

At this time, a message entered deep into Jiang Fan's consciousness: "After a fierce battle, through a life-and-death struggle, you personally eradicated a large number of demon beasts, overcoming a tribulation of life and death, gaining three thousand Luck Points and a Sixth-Grade Opportunity."

What?!

Upon sensing this message, Jiang Fan's eyes immediately sparkled, feeling very excited.

Initially, he had consumed many Luck Points to enhance the skill level of his Life Talisman.

Now, suddenly gaining so much, it was like timely help.

If you add the previous Luck Points, then he now had a total of five thousand five hundred and sixty Luck Points.

Of course, more importantly, he received a Sixth-Grade Opportunity.

It's known that the previous few Sixth-Grade Opportunities brought him great benefits.

He didn't know what this Sixth-Grade Opportunity would be.

Thunk!

Jiang Fan felt a movement in his heart and immediately clicked on the opportunity light spot.

Instantly, a message appeared: "Go to the northeast direction three hundred and fifty-six meters away to find a Sixth-Grade Opportunity beneath a ruined wooden house."

What?!

Upon sensing this message, Jiang Fan was also a bit surprised, not expecting the Sixth-Grade Opportunity to be so close.

Could it be that the Sixth-Grade Opportunity came from those loose cultivators?

However, this wasn't impossible.

With so many loose cultivators gathered here, it's only normal for someone to have a Sixth-Grade Opportunity hidden on them.

Swoosh!

At this thought, Jiang Fan did not hesitate and immediately left his home.

After all, the Sixth-Grade Opportunity is very important, and if missed, it might not be obtained again.

He utilized the power of the Conceal Breath Talisman to hide his presence and reduce his sense of existence.

He moved like a ghost, arriving at the place of the Sixth-Grade Opportunity in the blink of an eye.

Then, he immediately saw a wooden house collapsed, turned into ruins.

The ground was covered with bloodstains.

Beneath the ruins, a corpse was buried.

Evidently, this nameless loose cultivator was very unlucky, perishing under demon beasts last night.

There were actually many similar loose cultivators, and this one was not unique.

"Is this the Sixth-Grade Opportunity?"

Immediately, Jiang Fan noticed a storage bag on the nameless corpse and took it down with a wave of his hand.

He didn't have the time to check what treasures were hidden inside the storage bag and quickly left the place.

At this time, some loose cultivators approached in the distance, cursing as if searching for treasures.

However, these loose cultivators did not notice Jiang Fan.

Each of them subconsciously overlooked Jiang Fan's presence, as if he were invisible.

This is the Great Success Level Conceal Breath Talisman, capable of reducing one's sense of presence.

Even standing in front of so many people, everyone automatically ignored him, considering him a stone of nature.

.....

Soon, Jiang Fan returned to his home silently.

It was only then that he had the leisure to open the storage bag to see what treasures were hidden inside.

"Huh, why is it so poor?"

Jiang Fan blinked as he opened the storage bag and found that there were only a few Spirit Stones inside, and not many elixirs, just some talismans, a healing elixir, and food.

It didn't seem like a Sixth-Grade Opportunity at all.

But he quickly noticed a mysterious jade scroll inside the storage bag.

This mysterious jade scroll was neither gold nor copper nor iron, with an unknown material, extremely miraculous.

Without a doubt, if there was a Sixth-Grade Opportunity in the storage bag, it could only be this mysterious jade scroll.

Thunk!

In an instant, Jiang Fan's spiritual sense penetrated into it.

Immediately, a massive stream of information seeped from the jade scroll, presenting densely packed mysterious paintings.

It seemed as if an Ancient Divine Beast appeared in front of him.

It was soaring through clouds and mist, like a divine dragon.

Soaring Snake!

This is the Ancient Divine Beast Soaring Snake!

"No way, this is the Qi Cultivation Chapter and Foundation Establishment Chapter of the Soaring Snake Technique!"

Jiang Fan's pupils constricted with disbelief.

He completely didn't expect to obtain the follow-up Chapters of the Soaring Snake Technique.

After all, even the Primordial Talisman Sect, after such a long time, only acquired the Introduction.

It merely helped mortals, entering the path through martial arts, nurturing Spirit Roots.

But now, he actually obtained the follow-up cultivation techniques of the Soaring Snake Technique from an unknown Qi Cultivation Stage Cultivator, allowing him to cultivate up to the Foundation Establishment Realm.

Undoubtedly, this is a Body Tempering Technique, an ancient Body Tempering Divine Skill, and infinitely marvelous.

Even the Primordial Talisman Sect recorded this technique.

It goes to show the incredible aspects of this technique, possibly no less profound than the Mixed Element Talisman Scripture.

"Is this the power of destiny?"

Jiang Fan couldn't help but clench his fists.

He felt that the destiny would guide him to more Chapters of the Soaring Snake Technique in the future.

This was a lead by destiny.

Though the Primordial Talisman Sect couldn't obtain the complete Soaring Snake Technique, he might be able to.

Even if the technique was dispersed everywhere.

However, with the guidance of destiny, he might truly acquire the complete Chapters in the future.

"Is this fate encouraging me to follow the path of a Body Cultivator?"

"However, for a cultivator, mastering more power is indeed beneficial."

"A strong physique would certainly provide more advantages for a cultivator."

"At least it would reduce some of one's weaknesses."

Jiang Fan touched his chin.

He carefully understood the Qi Cultivation Chapter and Foundation Establishment Chapter of the Soaring Snake Technique.

Then he immediately realized why this nameless loose cultivator, despite obtaining the mysterious jade scroll, couldn't cultivate it—because he lacked the Introduction.

Without the Introduction, the subsequent Chapters couldn't be cultivated at all.

Thus, this nameless loose cultivator only obtained a non-cultivable technique.

It was of no use at all.

Only with him did this technique find its purpose.

"Although it's the Qi Cultivation Chapter and Foundation Establishment Chapter, overall, it's at the level of Refined Flesh and Skin Tempering."

"But this isn't the Refined Flesh and Skin Tempering of mortals, but of cultivators."

"If there's any difference, it's that mortal cultivation entails using the methods of inhalation to absorb the mysterious substances of heaven and earth to temper the physique, leading to a certain degree of bodily evolution."

"But the human body has limits, no matter how powerful a mortal body is, it's still just mortal and far from comparably to a real Divine Beast."

"However, the Soaring Snake Technique is an ultimate technique that helps human cultivators evolve to possess an extraordinary body, a Divine Beast body. Once successfully cultivated, it not only bestows Divine Beast-like power but also Divine Beast-like lifespan, completely shattering the lifespan limit of human cultivators."

"This is why the Soaring Snake Technique is so powerful and precious."

Jiang Fan clenched his fists, feeling incredibly excited.
