

## **Fortune 195**

### Chapter 195: Unable to Leave, No Space for Loose Cultivators on the Flying Ship

"Two months later? Do we really have to wait that long?"

Jiang Fan furrowed his eyebrows.

He initially wanted to leave Cyan Forest Market immediately to avoid this turmoil.

Unexpectedly, he still needed to wait for two months.

"No choice."

"Even though our Great Sun Sword Sect has many flying ships, they each have their own uses."

"There's truly not much available to let loose cultivators use."

"And during this period, the flying ships are all used to relocate cultivators from various places."

"After all, Cyan Forest Market is just one of the markets under Great Sun Sword Sect's rule."

"If you're unwilling, there's nothing I can do."

Shopkeeper Kong Chang explained.

"How many spirit stones are needed?"

Jiang Fan felt quite helpless, after all, one must bow while under the eaves.

Since they have control over such strategic transportation tools like flying ships, he can only let them call the shots.

Needing a favor from others, he can only swallow his pride.

"It's not very expensive, only two thousand spirit stones per person."

Shopkeeper Kong Chang said with a smile.

What?!

Upon hearing this, Jiang Fan's pupils contracted. It's just one ticket, yet it requires two thousand spirit stones.

It's simply exorbitant beyond imagination.

No wonder loose cultivators couldn't leave once they arrived in Cyan Forest Market.

How many loose cultivators can cough up two thousand spirit stones at once?

It's likely Great Sun Sword Sect deliberately raised the ticket price.

Their goal is to force loose cultivators to stay in the market and help Great Sun Sword Sect exploit the Ten Thousand Beasts Mountain Range.

Spend their lives working for Great Sun Sword Sect.

"I understand. I want to buy two tickets."

Jiang Fan said in a deep voice.

Although four thousand spirit stones are indeed extremely costly, Great Sun Sword Sect is certainly ripping him off.

But for the sake of safely leaving Cyan Forest Market and avoiding this disaster, it's all worth it.

Compared to his life, what are mere four thousand spirit stones?

"Alright."

"But you need to pay the spirit stones upfront."

Shopkeeper Kong Chang continued.

"What do you mean? Pay spirit stones upfront?"

"If there's no ticket by then, will I still have my spirit stones?"

Jiang Fan furrowed his brows again.

He always hesitated to place his fate in someone else's hands.

If he paid the spirit stones upfront but suddenly they change their attitude.

Then wouldn't his four thousand spirit stones be swallowed by them?

Even if he became angry and furious, it would be of no use.

Because Great Sun Sword Sect is a Golden Core Sect, and big shops exploit customers with no place to complain.

If they change their mind, he'd have no recourse.

"Don't worry, our Great Sun Sword Sect is a Golden Core Sect, how could we covet your mere four thousand spirit stones? It's simply impossible."

"Furthermore, with tickets so scarce, how could you obtain one if you don't book in advance?"

"If you pay now, then nobody can seize your ticket."

Shopkeeper Kong Chang said with a smile.

Clearly, he looked like he had Jiang Fan completely figured out.

After all, in Cyan Forest Market, besides Great Sun Sword Sect and Five Elements Pill Sect, no other forces have flying ships.

If they don't rely on their flying ships, trying to cross three thousand kilometers to Yunlai City is nothing but a pipe dream.

"Well, if that's the case, forget it then."

"The ticket price is still too high."

Jiang Fan gave up and didn't plan to continue buying tickets.

Haha, this guy talks better than he sings.

Sure, Great Sun Sword Sect isn't lacking four thousand spirit stones, but the parasites attached to Great Sun Sword Sect wouldn't let even a single spirit stone slip by, let alone four thousand spirit stones.

He figured out that Great Sun Sword Sect and Five Elements Pill Sect, these two Golden Core Sects, never intended to let any loose cultivators leave. After arriving here, unless they become Foundation Establishment Cultivators, they can't leave.

Any loose cultivator who wants to leave either ends up dead or loses a piece of skin.

"That's a pity."

"But if you want to change your mind, you can always contact me."

"As you know, Cyan Forest Market isn't very safe these days."

"If you want to leave, you'd better do it early."

"If you miss this village, there's no other shop."

Shopkeeper Kong Chang's words seemed to carry hidden meanings, his tone was quite profound.

Even if Jiang Fan rejected him, he wouldn't care a bit.

After all, during this period, due to the appearance of Nascent Soul Cave Mansion, many loose cultivators began looking for a way out.

Many loose cultivators came here inquiring how to leave Cyan Forest Market.

This world never lacks cautious and careful people.

There are quite a few people who think like Jiang Fan.

Unfortunately, even if loose cultivators wish to leave, sects like Great Sun Sword Sect may not want them to.

Swish!

Hearing this, Jiang Fan didn't say anything further and directly left Hundred Pills Workshop.

Of course, before going home, he visited Fan Wei's home and greeted him.

Fan Wei's family now also lived in the slums, much like before.

Living by hunting day by day.

"Fellow Daoist Fan, I want to ask, what talismans are most popular now?"

Jiang Fan believed that as a loose cultivator, Fan Wei surely understands their pain points best.

Only by figuring out these points can he refine popular talismans and prevent them from becoming unsold.

"What talismans are most popular?"

"Naturally, the most popular are Conceal Breath Talismans, Tracking Talismans, Exorcism Talismans, Fireball Talismans, and other talismans."

"These talismans are moderately priced and within the financial reach of loose cultivators."

"But if you ask what talisman loose cultivators most want to buy now, it's undoubtedly the high-grade detoxification talisman."
