Chapter 216: Hundred-Year-Old Cyan Dragon Ginseng, Increases Lifespan by 60_2

He wasn't just cultivating the Mixed Element Talisman Scripture; he was also cultivating the Soaring Snake Scripture.

And the Soaring Snake Scripture held significant meaning for him.

Not only could it strengthen his physique, but it could also extend his lifespan.

Just the initial stage helped him break the limit of lifespan during the Qi Cultivation Stage, extending it by fifty years.

He couldn't even imagine how much his lifespan would increase if he progressed further.

For him, the Soaring Snake Scripture was definitely the Fundamental Technique.

Swish!

With that in mind, Jiang Fan didn't hesitate and immediately dug out the Hundred-Year-Old Cyan Dragon Ginseng.

Then he quickly left the place.

But not long after Jiang Fan left the Nameless Valley, a large demon beast returned from hunting, and it immediately noticed the disappearance of the Hundred-Year-Old Cyan Dragon Ginseng from inside the valley.

"Roar!"

The demon beast was furious to the extreme, letting out a roar, terrifying demon qi erupted, cracking the earth.

It was extremely enraged.

The spirit medicine was supposed to be its Enlightenment Spirit Medicine.

With it about to fully mature, it was just about to harvest it.

Who would have thought, due to a moment of negligence, it was stolen by a thief.

It was furious to the point of madness, wishing it could tear the thief into pieces.

At this time, it tried to perceive the scent in the air, attempting to track the wicked thief through it.

Unfortunately, Jiang Fan's Conceal Breath Talisman had already reached the Great Success Realm, leaving no trace of scent on his body.

So, the demon beast could only rage powerlessly.

"Damn, kid! How did you know there's a Hundred-Year-Old Cyan Dragon Ginseng here?"

On Jiang Fan's way back, the Ten Thousand Transformations Pill Furnace asked, looking rather puzzled.

It was intensely curious about this kid.

Earlier, it was full of doubts, as if its owner could anticipate the arrival of the Tier Two Golden-Scaled Beast, being able to avoid this immense calamity in advance.

And now, it was as if he possessed foresight, directly reaching a Nameless Valley and digging out a Hundred-Year-Old Cyan Dragon Ginseng, truly inconceivable.

"It's instinct."

"I can't explain it, but I just know there must be a treasure here."

Jiang Fan smiled slightly without much explanation, as this was his biggest secret.

Even the most intimate person wouldn't know it.

"No way, do you have a special Spirit Body that can sense treasures?"

The Ten Thousand Transformations Pill Furnace was becoming more curious about its new owner.

However, it considered it a good thing as well.

The stronger the owner, the better its future life would be.

It didn't want to fall into slumber and continue being lost.

"By the way, can you refine this Hundred-Year-Old Cyan Dragon Ginseng?"

Jiang Fan asked.

As the saying goes, "Medicine contains three parts poison," even spirit medicine is the same.

Moreover, consuming the whole spirit medicine would cause a huge waste.

Generally, cultivators choose to refine it into an elixir for maximum benefit.

Unfortunately, he wasn't an Alchemist and didn't want to wait that long, so he chose to consume it directly.

"Of course, no problem."

"I am the Ten Thousand Transformations Pill Furnace."

"Not only can I refine elixirs, but I can also refine spirit medicines."

"If you leave it to me, I can completely refine it into the purest medicinal liquid."

"There won't be any toxins or impurities."

The Ten Thousand Transformations Pill Furnace boasted, confident in its professional field.

"In that case, I'll leave it to you."

Jiang Fan was very satisfied.

That night.

The Hundred-Year-Old Cyan Dragon Ginseng was thoroughly refined by the Ten Thousand Transformations Pill Furnace, turning into a puddle of cyan medicinal liquid.

All impurities and toxins had been completely refined away.

The medicinal power had increased at least threefold compared to before.

This was enough to prove the formidable nature of the Ten Thousand Transformations Pill Furnace, truly a treasure for enlightenment.

"To enhance the realm of the Soaring Snake Technique, you need to inscribe the Soaring Serpent Rune on every muscle."

"The power of the medicinal liquid should accelerate the cultivation progress of this technique."

Jiang Fan sat cross-legged on the ground, took out a drop of the medicinal liquid, and swallowed it immediately.

Boom~~

Instantly, this drop of medicinal liquid, containing immense medicinal power, seemed to melt in his mouth.

His entire body became like a furnace, with the immense medicinal power quickly coursing through his body.

Simultaneously, he operated the Soaring Snake Technique.

The primordial spiritual power in his body merged into the depths of every muscle, like a series of soaring serpents.

Tempering every muscle.

He felt that the flesh and blood of his body seemed to be continuously strengthening.

Of course, the primordial spiritual power in the depths of his elixir field and sea of qi was also continuously increasing.

"It's indeed a Hundred-Year-Old Cyan Dragon Ginseng."

"The medicinal power is incredibly potent."

"And without any toxins or impurities, it's almost like spiritual liquid."

Jiang Fan was pleasantly surprised.

Previously, when he consumed other elixirs and spirit medicines, his body would more or less experience impurities and toxins, and if consumed too frequently, it would cause some degree of harm to the body.

But now, that wasn't the case at all.

No matter how much he consumed, his body wouldn't retain any toxins, and it was almost like pure spiritual liquid.

This was the power of the Ten Thousand Transformations Pill Furnace, capable of refining all spiritual objects in the world.

...

Three more months passed.

Jiang Fan and Su Weiwei were progressing towards Yunlai City according to the map.

But he wasn't in a hurry.

They were always stopping and walking in the Ten Thousand Beasts Mountain Range.

For him, going to Yunlai City wasn't a necessity; his cultivation was the top priority.

Sometimes, when encountering danger, they would stay in place and rest for several days.

So, they had been traveling through the Ten Thousand Beasts Mountain Range for a full three months.

With the power of the Fortune-Telling Talisman, Jiang Fan could often anticipate danger and prepare in advance.

Thus, over these three months, they basically didn't encounter any danger.

This night, in a certain cave.

Jiang Fan, with a flash of inspiration, sensed that his cultivation was about to break through.

After spending three months continuously cultivating the Soaring Snake Technique.

He had inscribed the Soaring Serpent Rune into the depths of his four hundred and twenty-six muscles.

Boom!

Jiang Fan sensed a tremor in his body as the four hundred and twenty-six Soaring Serpent Runes vibrated within, merging into a unique force.

Threads of bloodline power flowed through his entire body.

Strengthening every corner of his body.

At this moment, his perception, strength, and speed were greatly enhanced.

Mid-stage Qi Cultivation!

Undoubtedly, his body cultivation had reached the mid-stage Qi Cultivation.

Compared to before, it had improved significantly.

His strength and speed had at least doubled.

Of course, for Jiang Fan, the most important aspect was the increase in lifespan.

He sensed that his life force had increased exponentially within his body.

His life force had become unimaginably vigorous.

With this in mind, Jiang Fan's heart moved, and he immediately opened the virtual panel on his body.

[Name: Jiang Fan]

"Lifespan increased by sixty years."

Seeing the data above, Jiang Fan was overjoyed.

Even though he knew his lifespan had increased quite a bit, he didn't expect it to increase by as much as sixty years.

The Soaring Snake Technique was indeed an ancient miraculous technique, truly profound and unfathomable.

Now, his lifespan had reached two hundred and thirty years.

It's important to know that the lifespan of an ordinary Foundation Establishment cultivator is only about two hundred and fifty years.

In other words, his lifespan was now almost equivalent to that of a regular Foundation Establishment cultivator.

Even if his cultivation didn't make any breakthroughs in the future, he could still live for over two hundred years.

And this was just the beginning.

If the Soaring Snake Technique further broke through, the extent of lifespan increase would surely be even more astonishing.

"Truly the lifespan of a Divine Beast, unmatched by human cultivators."

"The gap between the two is simply too vast."

Jiang Fan sighed inwardly.

In fact, let alone comparing with Divine Beasts, even when compared with the same-level demon beasts, humans had very short lifespans, typically considered short-lived.
