Chapter 219: Wanted by the Wu Family, Chaos Spreads to Yunlai City\_3

A group of loose cultivators were discussing fervently.

They were quite worried.

Even though Yunlai City is currently far from the center of the war, at least three thousand kilometers away.

But the situation in that place could affect the safety of Yunlai City at any time.

Especially since Daoist Yunlai also seems to plan on joining the struggle.

Undoubtedly, Yunlai City is inevitably involved.

The city, which has been stable for hundreds of years, could fall into great turmoil at any moment.

But they were just low-ranking cultivators; no matter how worried they were, they couldn't stop the situation from developing.

They could only go with the flow.

"It seems that the chaos is just beginning."

"Sooner or later, it will affect the entire Ten Thousand Beasts Mountain Range."

Upon hearing these words, Jiang Fan's expression grew serious.

He didn't expect to hear news about the Cyan Forest Market so quickly.

But he was also quite relieved.

Fortunately, he escaped from the Cyan Forest Market in time.

Otherwise, with his capabilities, staying in that place would likely mean death more than survival.

That place is a battlefield for the Golden Core.

For a cultivator at the Qi Cultivation Stage, they're like ants on this battlefield.

Furthermore, this chaos is far from over.

As long as the Nascent Soul Cave Mansion remains unconquered, the chaos will continue.

Who knows how many forces will be attracted to this Nascent Soul Cave Mansion.

So he still needs to continue improving his cultivation, strengthening his power to survive in this chaotic era.

Otherwise, he'll end up like Fan Wei's family, dead in the chaos, with no power to resist.

"By the way, it's said that Elder Wu Feng of the Wu Family escaped from the Cyan Forest Market two months ago, but his two brothers and a Dao Companion tragically died there."

Someone suddenly brought up Wu Feng's situation.

"Heh, is it that Old Ghost Wu? Using his status in the Wu Family to commit misdeeds in Yunlai City, many people despise him. His misfortune is simply cheering people up."

"It's said that Old Ghost Wu was killed by a pair of loose cultivator spouses. During their escape, the loose cultivator couple scattered Demon-enticing Grass, attracting a Tier Two Demon Beast, which killed

the escaping loose cultivators. The couple took the opportunity to loot the wealth from them, using a strategy of borrowing a knife to kill, a very ruthless tactic."

"No way, who are this loose cultivator couple to be so ruthless? If true, wouldn't they have amassed a lot of Spirit Stones?"

"Tsk tsk, probably earned tens of thousands of Spirit Stones, enough to buy a Foundation Establishment Pill. So Old Ghost Wu went completely mad, using the power of the Wu Family, crazily inspecting every loose cultivator arriving in Yunlai City over these two months, causing public grievances, but still to no avail. It was only recently that the Wu Family became less active."

"The other party gained so many Spirit Stones and offended Old Ghost Wu; they may not even come to Yunlai City. They might have escaped long ago to another place."

"That's what Old Ghost Wu thinks too, so he's relaxed his scrutiny of loose cultivators during this time."

"If we also find that young couple, maybe we could seize the opportunity to get rich."

"Hehe, many cultivators have this thought, but it's not so easy to encounter them."

The group of loose cultivators discussed fervently.

"This."

Upon hearing this, Jiang Fan squinted his eyes, a trace of killing intent unconsciously leaking from him.

He knew that brat Wu Feng fled, likely bringing him a lot of trouble.

He didn't expect Wu Feng to even slander him.

However, as Wu Feng is from the Wu Family, the narrative power is in their hands, and Jiang Fan was helpless.
