

Fortune 232

Chapter 232: Disaster Strikes Again, Order in Chaos

"So, does that mean those Golden Core Zhenren are doomed?"

Jiang Fan immediately used his spiritual sense to transmit his voice, asking curiously.

After all, the Ten Thousand Transformations Pill Furnace once resided in that cave mansion, naturally becoming very familiar with that place.

"Uh, if Daoist Wan Hua were still alive, then those Golden Core Zhenren would definitely be doomed."

"But because of the passage of time, even a Tier Four Array would have flaws."

"If they are well-prepared, they might not die."

"However, heavy casualties are inevitable."

The Ten Thousand Transformations Pill Furnace was also somewhat uncertain.

Because it has indeed been a very long time.

Time can erode everything in this world.

Even a Tier Four Array cannot withstand the erosion of time.

If not repaired, the Tier Four Array would show more and more flaws.

Moreover, maintaining a Tier Four Array requires consuming a large amount of Spirit Stones.

If the Spirit Stones are exhausted, the array of the cave mansion can no longer be sustained.

Of course, that group of Golden Core Zhenren might not be able to hold on until the Spirit Stones are depleted.

"Exploring unknown cave mansions is indeed dangerous."

Jiang Fan felt deeply moved in his heart.

After all, it's a Nascent Soul Cave Mansion; no one knows how many means a Nascent Soul Cultivator has left in their cave mansion.

If it were a kind-hearted Nascent Soul Cultivator, they might leave behind their inheritance.

There might be a slim chance of survival.

But if it were a ruthless Nascent Soul Cultivator, they would probably rather kill all intruders than let their treasures fall into the hands of other cultivators.

Of course, if they succeed, those Golden Core Zhenren could become rich overnight.

Thinking of this, Jiang Fan looked at Su Weiwei and continued to ask, "If it's just like that, there shouldn't be any big problem in Yunlai City, right? After all, the current Deputy City Lord, Miao Heyan, is a Foundation Establishment Perfection cultivator, and he is the eldest disciple of Daoist Yunlai, the most hopeful candidate to advance to the Golden Core level.

If this person is still here, the other forces in Yunlai City shouldn't dare to act recklessly, so why do you say there will be a huge upheaval in Yunlai City?"

To be honest, a Foundation Establishment Perfection cultivator is already strong enough to suppress other Loose Cultivators.

Plus, Yunlai City is equipped with a Tier Three Array.

Meaning, as long as Miao Heyan stays inside Yunlai City and activates the Tier Three Array, his strength is no less than a newly entered Golden Core cultivator, making him an extremely powerful presence.

Even a Golden Core Zhenren wouldn't dare invade Yunlai City.

This is the power of a Tier Three Array.

It is also one of the reasons why Yunlai City has existed for hundreds of years.

"Yes, it is indeed like this under normal circumstances."

"But rumors among the Loose Cultivators say that another Golden Core Loose Cultivator, Daoist Fei Lian, has also set his sights on Yunlai City."

"He wants to seize control of Yunlai City after knowing that Daoist Yunlai might be dead."

"This news has already spread far and wide."

"Perhaps Yunlai City will soon have a new owner."

Su Weiwei explained.

Golden Core Loose Cultivator Daoist Fei Lian?!

Hearing this, Jiang Fan suddenly understood; it wouldn't be surprising if Yunlai City was targeted by another Golden Core Zhenren.

Although, given the power of a Golden Core Zhenren, they could completely build a second Golden Core Immortal City.

The issue is, building a Golden Core Immortal City isn't just done so easily.

The key is the Tier Three Spirit Vein.

Yunlai City is built on a Tier Three Spirit Vein.

Without this Spirit Vein, Daoist Yunlai wouldn't have chosen this place to build an Immortal City.

And throughout the Ten Thousand Beasts Mountain Range, the number of Tier Three Spirit Veins is extremely scarce.

Even if there are Tier Three Spirit Veins, they're either occupied by other Golden Core Influences or dominated by Tier Three Demon Beasts.

Leaving no room for other Golden Core Zhenren.

So, after Daoist Yunlai's fall, Yunlai City naturally became a coveted prize for other Golden Core Zhenren.

After all, building an Immortal City is truly time-consuming and labor-intensive.

How much quicker it is to seize a city directly.

Besides, the annual value generated by a Golden Core Immortal City is staggering.

It's essentially a huge Spirit Stone ore vein.

Even Golden Core Zhenren are drooling over it.

If Daoist Yunlai were still alive, other Golden Core Zhenren would only be left enviously watching.

However, now with him likely gone, other Golden Core Zhenren are starting to get tempted.

Daoist Fei Lian is the first Golden Core Zhenren to make a move to seize it.

No wonder Yunlai City is beginning to become turbulent.

If not handled properly, the power structure of Yunlai City could be completely altered.

"If the power shifts, it will undoubtedly cause massive upheaval."

"For ordinary Loose Cultivators, heavy casualties could follow in such turmoil."

"No wonder the Loose Cultivators are so worried."

Jiang Fan's eyes flickered.

He didn't expect that after only being in Yunlai City for a few months, such a big issue would arise.

Could it be that he is truly a disaster star?!

No, this has little to do with him.

Even without him, there would be no shortage of upheavals and disasters in the Ten Thousand Beasts Mountain Range.

Moreover, this was also triggered by the Nascent Soul Cave Mansion of Daoist Wan Hua.

He is merely caught up in the tide of the times.

A mere ant amidst the waves of the era.

Only able to follow along with the flow, incapable of mastering his own fate.

"If that's the case, should I stay in Yunlai City, or leave Yunlai City?"

Jiang Fan felt it was time for him to make a decision.

Thinking of this, he activated his Flow to Destiny Talisman to inquire about the future fortune.

"Hmm?!"

"Staying in Yunlai City is minor good fortune."

"Leaving Yunlai City is actually minor misfortune?"

"What on earth is the reason for this?"
