

Fortune 234

Chapter 234: Disaster Strikes Again, Order in Chaos_3

Certainly!

```html

Without a doubt, family power and sect influence have thoroughly monopolized the ascent path for loose cultivators.

Of course, there are some loose cultivators with extraordinary talent or exceptionally good luck who can independently establish their foundation.

But such individuals are extremely rare, one could count them on one's fingers.

"Indeed, it seems better not to hope for obtaining the Foundation Establishment Pill."

Jiang Fan nodded.

He had initially planned to purchase Foundation Establishment Pills in Yunlai City.

Now it seems that if he actually got his hands on one, it might turn out to be a great disaster.

Thus, he might as well establish his foundation independently.

Once he ascends to become a Foundation Establishment Cultivator, it would be much easier to buy the pills.

At the very least, other forces wouldn't dare act against him.

Strong power invisibly dispels many disasters.

...

Several more hours passed, reaching afternoon.

Jiang Fan also purchased a large amount of talisman materials in Yunlai City, such as talisman ink and talisman paper.

After all, he usually needs to draw talismans.

The more talismans he carries, the safer he feels.

It's like carrying a large number of bombs; he can precisely use talismans to kill.

In addition, he also bought some middle-grade elixirs.

Because Su Weiwei also needs a lot of elixirs to assist with cultivation.

Altogether, he spent three thousand spirit stones.

Which means he currently has only thirty-six thousand spirit stones left.

It's clear that spirit stones are really not enough.

Spend a bit casually, and a large number of spirit stones disappear.

"Hmm?!"

When Jiang Fan returned to the wooden house in the shantytown, he immediately noticed something amiss.

The air was filled with the scent of blood.

Two or three corpses lay on the ground.

Their faces were pitch black, eyes wide open, seemingly dead with grievances.

He knew the shantytown was indeed more chaotic than before.

But he didn't expect there were still reckless loose cultivators who would dare come to his home.

"Husband."

At this time, Su Weiwei heard the commotion and immediately ran out from inside.

The Six-winged Poison Bees were flying around her.

Like loyal soldiers.

Emitting a fierce aura.

It's important to note that the number of Six-winged Poison Bees has also surged to sixty-four.

And Su Weiwei's cultivation has reached the sixth-layer qi cultivation realm, which is a rapid improvement.

Ordinary loose cultivators are no longer her opponents.

The three loose cultivators lying on the ground were killed by the poison needles of the Six-winged Poison Bees.

They died in just a face-off.

"What happened? What just happened?"

Jiang Fan remained very calm.

Actually, before heading to Yunlai City, he used a fortune-telling talisman to divine Su Weiwei's fate, it showed a minor scare but no danger, and it indeed turned out to be so.

After cultivating for such a long time, Su Weiwei now has the power to protect herself.

So he wasn't overly worried about Su Weiwei's safety.

"Husband, these three loose cultivators tried to break into the house to rob."

"And then my poison bees got rid of them."

Su Weiwei briefly explained.

Clearly, these three loose cultivators saw Su Weiwei alone at home and thought she was easy to bully, thus harboring malicious intent, attempting robbery.

Who would have thought, the Six-winged Poison Bees are extremely sensitive to malice and murderous intent.

Instantly discerning these loose cultivators' malice, they struck fiercely.

In just a moment, poison needles shot out, easily piercing through their magic robes.

Penetrating their physique.

More importantly, the poison from the needles was exceptionally potent, truly rare in the world.

The three loose cultivators couldn't hold out for even a second, and perished.

It can only be said that this time, they kicked an iron board.
