

Fortune 235

Chapter 235: Kill the Tiger Fang Gang!

"I see."

Jiang Fan nodded.

He realized the power of the Six-winged Poison Bees; indeed, as an ancient strange insect, they are considered one of the calamities of the Cultivation Realm.

With only sixty-four of them now, they already wield such power.

If they continue to grow and breed more Six-winged Poison Bees, the power among them would be even more formidable.

It could easily lead to an insect disaster without any difficulty.

But this is precisely the strength of a Beast Cultivator, as their entire cultivation is manifested through the Spirit Beast they control.

The stronger the Spirit Beast, the more formidable the Beast Cultivator becomes.

Therefore, the strength and potential of a Spirit Beast are extremely important.

This is why he found the Six-winged Poison Bees for Su Weiwei, thus causing her cultivation to soar.

In terms of combat power, she now surpasses ordinary cultivators.

Even a Seventh-Layer Qi Cultivator would be no match for Su Weiwei.

Such power is more than enough to survive in the Cloud City slum.

"Friend, the three Loose Cultivators just now are not simple."

"They are members of the Tiger Fang Gang."

"In our slum, the Tiger Fang Gang is notorious."

"They specialize in dirty work like robbery and murder for treasure."

"If the City Lord and his people were still here, the Tiger Fang Gang wouldn't dare be so arrogant."

"But with many Foundation Establishment Cultivators gone, the Tiger Fang Gang has begun operating."

"Recently, many cultivators have fallen victim to the Tiger Fang Gang's evil deeds."

"Yes, and they are extremely vengeful. If someone kills their members, they will surely retaliate."

"So you'd better run quickly; if the Tiger Fang Gang discovers this matter, it could be disastrous."

The surrounding cultivator neighbors discussed and spoke to Jiang Fan and Su Weiwei.

They could see the strength of these two and wanted to establish goodwill, so they offered advice.

The best course is to avoid confrontation and leave the slum.

This way, they can avoid this calamity.

Otherwise, if the Tiger Fang Gang attacks, the consequences would be unimaginable.

"Tiger Fang Gang?"

Upon hearing this, Jiang Fan raised an eyebrow.

Having stayed in the Cloud City slum for so long, he naturally knew some information about the slum.

On the surface, it's a slum, but in fact, its scale is not much different from a small town.

A large number of Loose Cultivators live here, creating significant interests.

As a result, many gang organizations have emerged.

Numerous Loose Cultivators band together, forming one gang force after another.

They fight for territory in the slum, seize street after street, and monopolize various interests in the slum.

Stalls and shops here all need to pay protection fees to these gangs.

Ordinary Loose Cultivators cannot fight them and can only silently endure.

The Tiger Fang Gang is one of the major cultivator gangs.

The Gang Leader is called Li Hu, a Ninth-Layer Qi Cultivator.

It is said that this gang has at least a hundred members, quite a formidable force.

"Thank you all for the reminders."

Jiang Fan cupped his hands toward the neighbors.

Although the cultivator neighbors didn't help much, they at least offered a kind warning.

So he was still grateful.

Many of the cultivator neighbors nodded and returned to their homes one after another.

After all, they didn't want to involve themselves in trouble.

If these two ran away and the Tiger Fang Gang vented their anger on them, they would be in trouble.

The best course of action is to pretend nothing happened and keep their distance from Jiang Fan and Su Weiwei.

"Husband, what should we do now?"

Su Weiwei hadn't expected to provoke such a disaster.

The three Loose Cultivators she dealt with had a force backing them.

If not handled properly, it could lead to a catastrophic disaster.

"It's just a small Tiger Fang Gang, hardly worth mentioning."

"We can just wipe them out."

Jiang Fan said indifferently.

If he were just entering the Cultivation Realm, he might have had to run and avoid their sharp edge.

But now it's different.

Having advanced to the Ninth-Layer Qi Cultivation, his strength has skyrocketed many times over.

Not to mention a mere Ninth-Layer Loose Cultivator, even Sect Cultivators aren't worth mentioning.

Moreover, this matter has nothing to do with Su Weiwei.

It was purely the three Tiger Fang Gang members courting death.

It was just a means of self-defense.

If Su Weiwei didn't retaliate, would she just watch as they robbed her home clean?!"

The way to solve this matter is simple.

That is to wipe out the entire Tiger Fang Gang.

This way, wouldn't it be a permanent solution without fear of Tiger Fang Gang's revenge?

"Wipe them out?"

Upon hearing this, Su Weiwei blinked her eyes.

She knew her husband's power was already formidable.

But the Tiger Fang Gang is still a cultivator gang; it can't be wiped out just like that.

Boom~~

However, Jiang Fan didn't explain; he waved his hand, and a fireball smashed onto the three cultivators' corpses, instantly turning them into ashes.

Their Storage Bags had long been taken by Su Weiwei.

"You stay at home."

"This matter will soon be resolved."

Jiang Fan said to Su Weiwei.

After saying these words, he quickly left and flew towards the Tiger Fang Gang's location.

The Tiger Fang Gang's headquarters was also in the slum.

Their whereabouts were well known to everyone.

.....

The sun set, and it was already night.

In the slum, a luxurious mansion.

This is where the Tiger Fang Gang Leader Li Hu resided, along with many of the Tiger Fang Gang's elite members.
