

## Fortune 238

### Chapter 238: Eliminating the Threat, Gaining a Sixth-Grade Opportunity\_2

If they obediently revealed the matters of the Lingxi Secret Realm, perhaps they might still survive.

But now, they no longer have any chance.

Boom~~

Just with one palm, it was as if the Soaring Snake was roaring, exuding the ferocity of an Ancient Desolate Beast.

An invisible oppression descended, fiercely striking Li Hu and the others.

The next moment, their heads and bodies couldn't withstand this destructive force.

Instantly, they were blown apart, crushed into a pile of flesh and blood.

They had no way to struggle, and were slapped to death by Jiang Fan.

The entire hall was filled with bloodstains.

Over a dozen elites of the Tiger Fang Gang, including the Gang Leader, were brutally killed by Jiang Fan.

"This is the power of a Tier One Late-Stage Body Cultivator."

"Even with barehanded strength, you can blast ordinary cultivators."

Jiang Fan clenched his fist, feeling the overwhelming power within him.

Previously, he relied merely on the power of talismans to fight enemies.

But now, things are different.

After cultivating the Soaring Snake Technique to Tier One Late Stage, his physical strength geometrically increased.

He discovered that compared to his mortal days, a Qi Cultivation Stage Body Cultivator not only depends on physical strength but can also mobilize the Power of Heaven and Earth, resonating with the rune power within his body.

This way, every move and gesture could unleash unparalleled might.

Not something ordinary cultivators can compare with.

"No, this likely isn't just the strength of a regular Body Cultivator."

"But the power of one who has cultivated the Soaring Snake Technique, the power of the Soaring Serpent Rune."

Jiang Fan stroked his chin.

After mobilizing the power within himself, he realized that the strength of every muscle in his body erupted, and the Soaring Serpent Runes on his body activated, triggering the Power of Heaven and Earth.

Without a doubt, this was the destructive power brought by the Soaring Snake Technique.

Not something ordinary Body Cultivators can compare with.

If further enhanced, this power might transform into Divine Power, or perhaps even become Bloodline Divine Techniques.

Just like those special Great Demons in the Ten Thousand Beasts Mountain Range.

They are born with the ability to master special Bloodline Divine Techniques.

Soaring Snake, being a Divine Beast, having Bloodline Divine Techniques is naturally expected.

He feels he might have underestimated the Ancient Martial Arts Techniques that are the Soaring Snake Technique.

Perhaps its true power has yet to be fully unearthed.

Whoosh!

However, Jiang Fan didn't continue pondering these matters. With a wave of his hand, he collected all the storage bags from Li Hu and the others.

After all, the Tiger Fang Gang was merely a loose cultivator organization.

They didn't have a formal treasury.

The treasures on them were mostly stored in their storage bags.

This also made it convenient for them to flee at any time.

After finishing all this, Jiang Fan left quietly.

Soon after, a group of Tiger Fang Gang cultivators came inside.

They were initially excited to report their gains to the Gang Leader.

But soon they saw the tragic scene in the hall.

Each one's face changed dramatically.

"What happened? Where did the Gang Leader and the others go?"

"Haven't you realized? They've already been reduced to a pile of flesh and blood."

"Yeah, their clothes are all over the floor."

"Who on earth attacked the Gang Leader and the others?"

Many Tiger Fang Gang cultivators looked extremely grim, feeling a chill down their spines.

Because the killer managed to silently kill Li Hu and the others, which speaks volumes of the opponent's capability.

If the opponent could eliminate the Gang Leader with ease, they could surely obliterate them as well.

"To easily wipe out the Gang Leader, it must have been a Foundation Establishment cultivator."

"No way, a Foundation Establishment cultivator? When did the Gang Leader ever offend a Foundation Establishment cultivator?"

"Who knows? We've killed so many cultivators recently, maybe one of them had a Foundation Establishment cultivator backing them, and thus caused the Gang Leader to make a big mistake and end up dead."

"Now isn't the time to scrutinize reasons. Even the Gang Leader is dead, if that killer sees us, they might as well kill us too."

"Let's flee, the Gang Leader is dead, the Tiger Fang Gang is basically annihilated. If we carry the name of the Tiger Fang Gang, we might end up dead too, so let's quickly escape."

Many Tiger Fang Gang cultivators had their hair stand on end.

As the saying goes, when the tree falls, the monkeys scatter.

They gathered because of Li Hu, naturally they would disperse because of Li Hu's death.

In such circles, very few ever talk about loyalty.

As for revenge for Li Hu? Forget it, they don't have the strength or courage.

Immediately, many Tiger Fang Gang cultivators fled quickly.

The large gang from the shantytown district completely vanished.

.....

At this time, Jiang Fan also quietly returned to his doorstep.

Boom~~

Before entering, a message instantaneously penetrated his Sea of Consciousness: "You killed Li Hu and the others, eradicated the Tiger Fang Gang, effectively removing a future threat in advance, successfully overcoming a tribulation, and obtained seven thousand Luck Points along with a Sixth-Grade Opportunity."

In that instant, Jiang Fan sensed that his destiny seemed to have increased significantly.

Deep in his Elixir Field and Sea of Qi, the Fortune-Telling Talisman shook, emitting a faint golden glow.

Appearing extremely mystical and enigmatic.

"Seven thousand Luck Points? This time I've hit the jackpot."

Jiang Fan's eyes immediately lit up.

He hadn't expected that after wiping out the Tiger Fang Gang, he would receive so many Luck Points.

Clearly, Li Hu and the others also had considerable destiny.

Sadly, they offended someone they shouldn't have and ended up dead.

If it weren't for him, Li Hu might have really become a Foundation Establishment cultivator.

Adding these seven thousand Luck Points brought his total Luck Points to twenty thousand.

This is an unprecedentedly massive figure.

Making him feel like he suddenly became a millionaire.

"Right, there's also the Sixth-Grade Opportunity."

Jiang Fan was stirred, and clicked on the opportunity light point.

Instantly, another wave of information surged in: "Seven days later, at dusk, twelve miles northeast of Spirit Stream Valley, you will obtain a Sixth-Grade Opportunity."

"Spirit Stream Valley? Could it be related to the Lingxi Secret Realm?"

"Did the Lingxi Secret Realm open after seven days?"

Jiang Fan's eyes flickered, recalling the earlier conversation of Li Hu and the others.

Originally, he didn't plan to involve himself with the Lingxi Secret Realm.

Given the Lingxi Secret Realm is targeted by so many forces, it's the center of a storm.

If you get involved, you never know what danger you might encounter.

He could cultivate to the Foundation Establishment Realm steadily, why risk it now?

But since it's a Sixth-Grade Opportunity, it means he will experience thrills without danger.

So participating might not be a bad idea.

Thinking this, Jiang Fan returned inside and closed the wooden door.

"Husband, is it over?"

Seeing Jiang Fan return, Su Weiwei blinked her beautiful eyes.

Because her husband's speed was indeed too fast.

She hadn't had time to worry, and he was back from the Tiger Fang Gang already.

Had he settled the Tiger Fang Gang's Tribulation Cultivators so quickly?

"Yes, there is no Tiger Fang Gang anymore."

Jiang Fan nodded.

Hearing this, Su Weiwei was even more surprised; she knew from the surrounding cultivator neighbors just how powerful the Tiger Fang Gang was, definitely one of the strongest cultivator organizations in Yunlai City's shantytown district.

Gang Leader Li Hu was a Ninth-Layer Qi Cultivation cultivator, with over a dozen elite late-stage Qi Cultivation followers.

This force was enough to dominate the shantytown district.

Who could have thought, in such a short time, the Tiger Fang Gang was eliminated by her own husband.

This kind of thing, if told, probably wouldn't be believed by many.

No doubt, given her husband's strength, even among many Loose Cultivators, he's considered a top expert.

"Husband, you're really amazing."

Su Weiwei looked at Jiang Fan with a face full of admiration.

"Oh, for solving such a big problem for you, shouldn't there be some reward?"

Jiang Fan approached, wrapping Su Weiwei's slender waist.

He felt that Su Weiwei who had advanced to Sixth-Layer Qi Cultivation, seemed to become even more captivating.

Every smile, every move, exuded unmatched allure.

Especially the fiery and alluring body, like a ripe peach.

It made him drool.

"You can do whatever you want."

Su Weiwei's eyes fluttered enchantingly, her breath like orchids.

Upon hearing this, Jiang Fan couldn't resist and immediately lifted Su Weiwei and entered the bedroom.

Soon, sounds of the bed swaying came from within.

Seeming extraordinarily delightful.
