

Fortune 240

Chapter 240: Foundation Establishment Opportunity, Lingxi Secret Realm Opens_2

It's not impossible to double it if he meets someone in need.

However, he couldn't sell them.

For Jiang Fan now, spirit stones are not the most important; cultivation resources are the top priority.

Thinking of this, he did not hesitate and immediately swallowed the perfect quality Sunflower Water Pills one by one.

Boom~~

Instantly, these Sunflower Water Pills transformed into enormous medicinal power.

Like a warm current, it penetrated deeply into his body, entering the Elixir Field and Sea of Qi.

The Primordial Talisman kept spinning.

It devoured this medicinal power like a black hole, then transformed it into Primordial Spiritual Power.

Jiang Fan sensed the Primordial Spiritual Power deep in his Elixir Field and Sea of Qi rapidly increasing.

He didn't even know how many days of hard cultivation one perfect quality Sunflower Water Pill saved him.

So elixirs are the top priority for cultivators.

They are simply accelerators for cultivation.

"If I consume these Sunflower Water Pills and completely refine the medicinal power of these elixirs, then the Ninth-Layer Qi Cultivation Perfection shouldn't be far away."

Jiang Fan clenched his fist.

He felt his cultivation level was skyrocketing.

Even without a spirit vein to assist daily cultivation, having enough elixirs as assistance is enough.

Once the Primordial Spiritual Power in his body reaches perfection, he can attempt Foundation Establishment.

This is a qualitative change and improvement for a cultivator.

In the blink of an eye, another five or six days passed.

During this time, Jiang Fan not only refined the medicinal power of the Sunflower Water Pills but also spent a large number of Luck Points to frantically improve his Life Talisman's skill level.

For example, the Light Body Talisman, Golden Light Talisman, and Body-Stabilizing Talisman were all upgraded to perfection level.

Compared to before, it was simply a qualitative improvement.

First is the Light Body Talisman; after reaching perfection level, its speed accelerated to a lightning-fast degree, allowing one to move with the wind at an extremely fast speed.

In some respects, it is not much different from a Foundation Establishment cultivator.

Next is the Golden Light Talisman; after reaching perfection level, it can instantly gather eighteen rays of golden light, and the rays can even change direction, moving as desired.

At the same time, its piercing power improved greatly.

Finally, the Body-Stabilizing Talisman; after reaching perfection level, it can instantly gather one hundred wind spiritual powers and immediately bind the enemy's body like a spider web, immobilizing them.

He believed the power of the perfection-level Body-Stabilizing Talisman could even immobilize a newly advanced Foundation Establishment cultivator.

However, he hadn't tried it and didn't know for sure if it could work.

Thinking of this, Jiang Fan's heart stirred, and he immediately opened the virtual panel on himself.

[Realm: Ninth-Layer Qi Cultivation (95%)]

[Profession: Top-grade Talisman Master (99%)]

"Rapid progress indeed."

"Even though five thousand Luck Points were spent, it was worth it."

Jiang Fan felt very satisfied.

His Light Body Talisman, Conceal Breath Talisman, Protective Talisman, Golden Light Talisman, Body-Stabilizing Talisman, and other talismans had reached the perfection level.

Their power greatly increased.

This also led to a fierce improvement in his combat power.

He felt that with his current strength, he could contend against newly advanced Foundation Establishment cultivators.

However, the Cyan Lotus Earth Fire Talisman, Yin Yang Mandarin Duck Talisman, and Fortune-Telling Talisman were all at the entry level.

But that's inevitable.

After all, the level of these three talismans is very high, and further improvement would require even more time and effort.

Yet the skill level of the Soul-Shaking Talisman improved well, reaching the proficient level.

This is very much related to his strong soul power.

Even without spending any Luck Points, the skill level of the Soul-Shaking Talisman kept increasing crazily.

It's said to be quite compatible with his power.

"It seems that it won't be long before my cultivation is elevated to Qi Cultivation Perfection."

Jiang Fan sensed the Primordial Spiritual Power in his body flowing through his nine meridians, surging like a river.

This was also thanks to the Sunflower Water Pills he purchased this time.

After fully refining these Sunflower Water Pills, his cultivation progressed tremendously.

The Primordial Spiritual Power in his body soared.

Saving a lot of time on hard cultivation.

"Has my wealth also reached 100,000 Spirit Stones?"

"The Tiger Fang Gang cultivators were indeed wealthy."

"Defeating them last time was a big win."

Jiang Fan sensed the internal space of the Ten Thousand Transformations Pill Furnace.

Inside, a large number of spirit stones were stored.

Now he mostly stored the spirit stones, talismans, magical artifacts, and other treasures he acquired in the Ten Thousand Transformations Pill Furnace.

Previously, he took down Li Hu and others, seizing their storage bags.

Resulting in all their years of savings falling into his hands.

Unfortunately, there were no elixirs in the storage bags, only a large number of spirit stones.

It is estimated that even if these Tiger Fang Gang cultivators had elixirs, they would have consumed them first.

They certainly wouldn't have left them overnight.

Of course, for him, gaining so many spirit stones was enough.

He could completely exchange spirit stones for various cultivation resources.

After all, who would dislike having too many spirit stones?

Although once it's revealed that he has 100,000 spirit stones, he would immediately become the target of everyone.

He couldn't even expose that he had so many spirit stones.

Otherwise, he would definitely be coveted by other cultivators.

But as long as he can become a Foundation Establishment cultivator, then everything won't be a problem.

Even spending tens of thousands of spirit stones, 100,000 spirit stones, would be a trivial matter.

It's like a child carrying gold while shopping would surely be targeted by criminals.

But if it were warriors like Zhang Fei and Guan Yu carrying gold, not many would dare covet it.

Rumble~~

At this moment, just as Jiang Fan was about to continue cultivating, a strong earthquake spread forth.

Not only affecting the shanty town but also spreading to Yunlai City.

The ground was strongly trembling.

Some poorly constructed wooden houses began to collapse.

Cracks appeared on the ground.

"What's going on?"

Jiang Fan squinted his eyes.

He immediately thought of the Sixth-Grade Opportunity he was about to acquire.

Also, the imminent start of the Lingxi Secret Realm.

His sixth sense told him that this tremor was definitely related to the Lingxi Secret Realm.

Sure enough, as he anticipated.

It didn't take long for the loose cultivators in the shanty town to become agitated.

"The Lingxi Secret Realm has opened ahead of schedule."

Someone shouted excitedly.

"How's that possible? Wasn't it said to be at least a few months away?"

"The opening time was just a prediction, not a hundred percent accurate."

"It's said that a large amount of spirit medicine is nurtured in the Lingxi Secret Realm, and there's even a lot of spiritual liquid; it's simply full of treasures. If we can enter the Lingxi Secret Realm, we can certainly get rich."

"Hehe, the Lingxi Secret Realm does contain a lot of spirit medicine, but it's also home to a large number of demon beasts, and even some Tier Two Demon Beasts. It's not that easy to obtain treasures."

"Indeed, every time the Lingxi Secret Realm opens once in fifty years, the death rate of loose cultivators entering it exceeds ninety percent. Surviving inside isn't that simple."

"But even so, it's a rare Foundation Establishment opportunity for us. If we can obtain the Golden Jade Ganoderma from inside, we can then ask Yunlai City to refine a Foundation Establishment Pill, to at least get one."

"That's right, it's a once-in-fifty-years opportunity. If we miss it, we won't have another chance, so no matter what, we need to enter."

The conversations among the loose cultivators were lively.

Each of them started to become passionate.

They knew entering the Lingxi Secret Realm was extremely dangerous.

But wanting to cultivate, wanting to gain opportunities, nothing comes without risk.

So nothing could stop them from seizing the Foundation Establishment opportunity.
