

## Fortune 242

### Chapter 242: Escaping the Shantytown, Avoiding Disaster\_2

However, the development of the world is dynamic.

Previously, staying in the shantytown was safe, but now it may not be safe anymore.

It's possible that a great crisis is brewing in places unknown to him.

After all, this is the world of cultivators.

A single thought from a powerful figure might lead to drastic worsening of the situation.

"It seems I should temporarily leave the shantytown."

"Coincidentally, the sixth-grade opportunity also points to the Lingxi Secret Realm."

"Perhaps the Lingxi Secret Realm is a land of blessings."

"I could take Su Weiwei there to seek refuge together."

Thinking this, Jiang Fan did not hesitate and immediately went to find Su Weiwei.

"What? Husband, you want me to go to the Lingxi Secret Realm with you?"

Upon hearing this, Su Weiwei was both surprised and delighted.

She hadn't expected her husband to make such a decision.

She initially thought her husband might want to go alone and leave her at home.

"That's right, your strength is already quite good now."

"Even if we go to the Lingxi Secret Realm, there shouldn't be much problem."

"You have gained enough power to protect yourself."

Jiang Fan nodded.

"Hmm."

Su Weiwei felt immense joy in her heart.

She believed her many days of arduous cultivation had finally paid off.

She was no longer a burden to her husband.

Even in the dangerous cultivation realm, she now had a certain degree of self-preservation power.

Not long after, Jiang Fan and Su Weiwei packed their things and left the wooden house.

At this moment, the shantytown was as calm as ever.

Although the appearance of the Lingxi Secret Realm had excited many loose cultivators, most of them knew better than to expect anything from such a secret realm world.

Therefore, they weren't overly excited.

Only the late-stage Qi cultivators among the loose cultivators would be eager to move.

However, this was of little concern to Jiang Fan.

He took Su Weiwei and quietly left the shantytown in Yunlai City.

Following the sixth-grade opportunity's direction, they flew all the way.

Several hours later, they finally arrived at the location indicated by the sixth-grade opportunity.

"This doesn't seem to be Spirit Stream Valley."

Jiang Fan looked around.

He found himself in a nameless valley, at least ten kilometers away from Spirit Stream Valley.

However, according to those loose cultivators, the entrance to the Lingxi Secret Realm was in Spirit Stream Valley.

Indeed, this secret realm world supposedly had only one entrance and exit.

"Could it be that the Lingxi Secret Realm has more than one entrance?"

Jiang Fan stroked his chin; frankly, this wasn't impossible.

After all, the Lingxi Secret Realm hadn't been fully controlled by Yunlai City yet.

What they controlled was merely the entrance to the realm.

Who can say with certainty that there isn't a second entrance?

It's just that they haven't been able to find it yet.

If he could discover the second entrance, it would indeed amount to a sixth-grade opportunity.

This way, he could enter and exit the Lingxi Secret Realm without being discovered by other cultivators.

He could calmly seize many opportunities within the Lingxi Secret Realm.

This would also significantly minimize the danger and reap benefits.

Whoosh!

Thinking this, Jiang Fan and Su Weiwei arrived at the location of the sixth-grade opportunity, entering the nameless valley, and then arrived in front of a rock face.

On the surface, it appeared as ordinary as any other rock face, showing no special characteristics.

But his intuition told him this was the entrance to the Lingxi Secret Realm.

Thud!

Jiang Fan reached out and gently touched it.

The rock face that should have been extremely hard now seemed to turn into void.

Like ripples on the water.

His hand could pass through the rock face.

The next second, Jiang Fan felt a powerful suction coming from inside, pulling him and Su Weiwei in.

"Is this the Lingxi Secret Realm?"

Upon entering, Jiang Fan immediately felt a rich Heaven and Earth Spiritual Qi.

Compared to the outside, the Spiritual Qi was at least ten times denser.

This greatly invigorated him and Su Weiwei, making them feel exceptionally comfortable.

It seemed that just by breathing, they could absorb a large amount of Spiritual Qi.

If one were to practice here for a long time, the efficiency of cultivation would undoubtedly increase by several times.

He looked around; he seemed to be in a valley within the Lingxi Secret Realm.

Surrounded by lush plants and towering trees.

It was as if they'd entered a primeval forest.

"Husband, wasn't the entrance to the Lingxi Secret Realm in Spirit Stream Valley?"

"I've heard many loose cultivators have already arrived at Spirit Stream Valley and entered the Lingxi Secret Realm."

"Could it be that the Lingxi Secret Realm has a second entrance?"

Su Weiwei's beautiful eyes widened, looking at Jiang Fan in shock.

If the other loose cultivators knew the Lingxi Secret Realm had a second entrance, it would probably cause a huge commotion.

But she also knew the advantages they would gain by controlling this mysterious entrance.

"That's right, I learned of it through a stroke of luck."

Jiang Fan nodded, not explaining much.

"Husband, it's said that there are countless spirit medicines in the Lingxi Secret Realm."

"There's even the Foundation Establishment Spirit Medicine, the Golden Jade Ganoderma."

"If we could obtain it, that would be a great fortune."

"The problem is, we're not very familiar with the Lingxi Secret Realm."

"Even if we want to find the Golden Jade Ganoderma, we wouldn't know where to look."

Su Weiwei said with some regret.

Although they had indeed entered the Lingxi Secret Realm, the realm's size was not small.

Without a map, they would be like headless chickens.

They wouldn't know how to find spirit medicines inside.

It might take a considerable amount of time searching for spirit medicines.

Moreover, the Lingxi Secret Realm is only open for a month.

Once a month has passed, all cultivators will be expelled by the realm's power.

It's impossible to stay inside.

However, the map of the Lingxi Secret Realm is not easy to obtain.

Even in Yunlai City, it's considered classified information.

Except for those Foundation Establishment cultivators, no one can obtain the map of the Lingxi Secret Realm.

Thus, the loose cultivators who enter can only rely on luck to find spirit medicines inside.

"In regard to that, it's not a problem at all."

"Didn't you forget?"

"You possess the Six-winged Poison Bee and have nurtured so many of them."

"You can easily dispatch many Six-winged Poison Bees to search for spirit medicines in all directions."

"After all, these are ancient strange insects, extremely sensitive to spirit medicine."

"In a way, they are treasure-seeking insects."

Jiang Fan smiled slightly.

He now understood why the fortune-telling talisman suggested he take Su Weiwei into the Lingxi Secret Realm.

It wasn't just to take Su Weiwei to avoid a calamity; her ability was of great use here.

If it were only him, the Lingxi Secret Realm's vastness would make it impossible to find many spirit medicines.

But with the help of the Six-winged Poison Bees, things would be completely different.

This would greatly enhance his efficiency in searching for spirit medicines.

Thus, it was a win-win situation.

"Oh right, the Six-winged Poison Bees are experts at searching for spirit medicines."

Su Weiwei nodded with joy.

She often dispatched the Six-winged Poison Bees into the wild to search for various spiritual objects.

Hence, she didn't have to worry about finding food for the Six-winged Poison Bees all these days.

This was also one of the easiest spirit beasts to nurture.

Boom~~

At this moment, silhouettes of cultivators approached from afar, numbering five.

One of them was ninth-layer Qi Cultivation, two were eighth-layer Qi Cultivation, and the remaining two were eighth-layer Qi Cultivation.

Among the loose cultivators, they were quite famous, known as the Five Evils of Yunlai City.

Countless loose cultivators had died at their hands.

The leader was called Chen Liangyu.

"Brother Chen, it seems there are two cultivators ahead."

Suddenly, a grey-robed cultivator noticed Jiang Fan and Su Weiwei.

He was puzzled why there were two loose cultivators here.

Their speed could be considered quite fast.

They managed to enter the Lingxi Secret Realm first.

Yet there were loose cultivators faster than them, which was truly unbelievable.

"It seems these two have something suspicious."

"Grab them and ask about their origins."

Chen Liangyu's eyes revealed a hint of coldness.

He instinctively sensed that these two unfamiliar cultivators likely harbored extraordinary secrets.

It was his intuition.
